Liberty Under Law—Equal Rights—True Industrial Freedom

HONOLULU JAPANESE AGITATORS INDICTED FOR CRIMINAL CONSPIRACY IN RECENT SUGAR STRIKE.

[BY CABLE AND ASSOCIATED PRESS.]

HONOLULU, Aug. 2.—Twenty-one Japanese, many of them prominent, were indicted here today on charges of criminal conspiracy in connection with violence incident to the strike of sugar plantation workers last year.

Six of the indicted men surrendered and six others were arrested at Hilo, island of Hawaii. Three are known to have escaped to Japan. The names of the others have not been made public. The list of defendants made public include the following: F. Kawamata, secretary of the Japanese Labor Federation; K. Takizawa, a director of the federation; H. Miyazawa, former secretary of the federation; C. Hoshino, member of the Hito branch; I. Goto, editor of the Hawaii Shimpo, which is regarded as the organ of the federation; W. T. Sutsumi, said to be a Socialist and author of a history of the strike in Japanese; T. Murakami, S. Konda and S. Tomoda, said to be organizers for the labor federation; C. Ishi, secretary of the Hito branch, and S. Sato, an officer of the Hito branch.

The culminating act of violence during the strike occurred June 3, 1920, when the house of a Japanese who refused to join the strikers was dynamited. The laborer, his wife and three children were asleep outside of the house and were uninjured.

VERSAILLES PACT HIT.

Lord Bryce Bitter in Denunciation.

Declares Work of Delegates Receives Nothing but Censure in Europe.

Sort of Peace Obtained Worse Than War, Continental People Feel.

[BY A. P. NIGHT WIRE.]

WILLIAMSTOWN (Mass.) Aug. 3.—The evils of future wars have been seen in Europe by the deliberations and findings of the Versailles conference, Viscount James Bryce of the Institute of Politics at Williams College today in his second lecture on international relations of the old World peace.

Reviewing the framing of treaties by representatives of the victorious powers, he said:

"This work has resolved in European settlement, but Germany has not yet signed the treaties they framed with her, which were made by the congress of Vienna in 1814-15. European critics observe that the men of Vienna, Alexander and Metternich, Castlereagh and Hardenberg and Capodistrias, may have had bad principles and employed despotic methods, and misconceived the interests of their peoples, but they at least knew what they were doing, and gave effect to their principles.

SECURED TOLERABLE PEACE.

"Their work bestowed upon Europe a tolerable peace which lasted for more than thirty years. But there is no one of the treaties of 1919-20 which is not now already admitted to need amendment, while some are seen to lead straight to future wars.

"One hears people say 'the sort of peace that these negotiators have given us is as bad as was the war.' The negotiators at Paris differed in their principles and ideals, and some at least of them, do not seem to have believed in the principles they professed.

"European critics have suggested that some of them may have thought they must play down to their own

JAPAN FINANCES UNION LABOR FIGHT IN HAWAII.

Gompers Henchman in Capital to Oppose Importation of Chinese Ad. mits Nipponese Raised Funds.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 2.—Representatives of organized labor in Hawaii, sent here to oppose legislation under which Chinese coolies could be admitted to Hawaii to help relieve the agricultural labor shortage, testified before the House Immigration Committee today that their expenses had been paid by Japanese.

Wilmot Chilton, who came here with George Wright, president of the Central Labor Union of Honolulu, when questioned by Representative Free, Republican, California, declared Japanese merchants on the island had contributed $1500 so that they might personally oppose admission of Chinese and that he had split it fifty-fifty with Wright.

GOMPERS PRESENT.

Samuel Gompers, president of the American Federation of Labor, was present when Mr. Free developed that the Japanese Chamber of Commerce of Honolulu, acting on a request for help, decided it would be

[illegible] Gompers told the committee that the federation, with which the Central Labor Union of Honolulu is affiliated, would not issue union charters requested by Japanese labor groups in this country.

Throughout the hearings on pending relief legislation, spokesmen for the sugar planters of Hawaii have asserted that the Japanese gradually were gaining business control on the island, and that they were secretly opposing temporary lifting of American immigration laws, which would permit a flow of labor needed to meet the shortage in time to save future crops.

CONTROL OF ISLANDS.

Delegate Kalanianaole, sponsor of the bill before the committee, declared in a statement tonight that control of Hawaii had been Japan's objective for many years.

"Do the American people need additional evidence," he said, "that the economic control of the Hawaiian Islands is fast slipping from us after today's development before the House Immigration Committee when the opponents of a measure for immediate relief, representatives

FRANCE IN ROW OVER REBELLION.

Charges Red Leader Commissioner With Instigating the Kronstadt Revolt.

[BY CABLE AND ASSOCIATED PRESS.]

RIGA, Aug. 2.—Prior to his departure for Berlin last night, Senator Lvovsc of Maryland accused Dr. E. C. Ryan, American Red Cross Commissioner in the Baltic states, of having instigated the revolt at Kronstadt last winter. Thereupon Dr. Ryan expressed his opinion of the Senator's credence in what Dr. Ryan termed Bolshevik reports, and of the Senator's dealings with the Bolsheviki.

When questioned today concerning the incident, Dr. Ryan said:

"The charge is ridiculous. The Senator must have been raving."

American official representatives here also said today that the accusation was without basis in fact.

The argument began in the Senator's room in the hotel, and continued during the trip to the railway station. Mr. France is said to have declared he would renew this charge in the Senate.

It is understood Senator France invited Dr. Ryan to his room, and abruptly made his accusation and added that the Bolshevik Foreign Office had promised to furnish him proof of the charge.

HONEST, PUBLIC DEBT FELL OFF IN JULY.

[BY A. P. NIGHT WIRE]

WASHINGTON, Aug. 2.—A decrease of $206,000,000 in the public debt during July was announced today by the treasury. The total gross debt, July 31, stood at $23,771,000,000 compared with $23,477,000,000, June 30. Officials said that the decrease was explained by retirement of treasury certificates of indebtedness and the operations of the sinking fund during July, while no new issues of government securities were offered during the month.

TEMPERATURES IN PRINCIPAL CITIES.

Following were the maximum and minimum temperatures yesterday in various eastern cities compared with Los Angeles:

	Max.	Min.
New York	68	64
Boston	70	62
Philadelphia	68	64
Cincinnati	86	70
Chicago	67	62
Indianapolis	78	64
Omaha	74	68
Des Moines	72	58
Kansas City	68	66
Winnipeg	72	48
Huron, S. D.	80	64
Los Angeles	76	62

Because of a difference in humidity there is an actual difference in "heat unpleasantness" of from 5 to 10 degrees in favor of Los Angeles as compared with the East, according to Col. H. B. Hersey, meteorologist for the local station of the United States Weather Bureau.

FIGHT NEW TAX PLAN.

Little Support for Mellon's Idea.

Experts in Favor of Directing Efforts Toward Easing Present Burdens.

Automobilists Are Up in Arms at the Proposition for License on Cars.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 2.—Suggestions for new taxes made by Secretary Mellon apparently found little support today among members of the House Ways and Means Committee. Some committeemen were outspoken while others said it was their judgment that the committee's efforts should be directed toward easing the burden.

With this end in view, it was explained, Republican members of the committee had before them today, Chairman Madden of the Appropriations Committee; Eugene Meyer of the War Finance Corporation and Director-General Davis of the Railroad Administration.

Chairman Fordney said that the purpose was to get information as to the financial needs of the government and then to determine just where cuts could be made. He stated that Mr. Meyer had told the committee that under the plan submitted to Congress by President Harding, railroad financing could be taken care of without more than temporary assistance from the treasury from time to time until the securities proposed to be issued could be marketed. Should this prove the case, it was said, a material cut could be made in the treasury estimate of $4,875,000,000 needed for the government next year as that included $545,000,000 for the railroads.

IDEAS OF FORDNEY.

Chairman Fordney also explained that the new tax law would be designed to run for several years and that the rates should not be fixed for such a length of time on conditions believed now to be only temporary. He thought there might be immediate reductions of $500,000,000, [illegible] though

[illegible] revenues after [illegible] tures have been returned to [illegible] thing like normal.

A flat [illegible] against [illegible] on cars was launched today by the American Automobile Association. In the letter the association said the Federal sales tax [illegible] and the State and municipal taxes of all forms now totalled $[illegible], 878 annually, or $34.67 per car.

The taxes suggested by [illegible] are designed, it became [illegible] day, to yield approximately $[illegible],000,000, of which $110,000,000 would come from automobiles, $[illegible],000,000 from the stamp tax, [illegible] and about $70,000,000 from the 1-cent [illegible] postage.

BACHARACH'S VIEWS.

Discussing Mr. Mellon's proposals, Representative Isaac Bacharach, Republican, New Jersey, member of the committee, issued a statement that he was opposed to the elimination of all [illegible] any part of the transportation [illegible] and to the proposed [illegible] on all automobiles. He [illegible] that he was not in favor of the proposed tax on bank checks, but, of course, he favored the proposal to put a tax on soda water and ice cream.

Mr. Bacharach and other members of the committee declared it would be unjust to tax all automobiles the same amount, and it was fairly evident that if it was found necessary to impose a license tax on automobiles, it would be graduated.

Greek Planes Dump Bombs on Railroad.

[BY CABLE AND ASSOCIATED PRESS.]

ATHENS, Aug. 2.—Greek naval airplanes have been carrying out bombing raids upon the railroad line etween Afiun-Karahissar and Konia, says an official statement issued here.

Bombs were dropped on three hangars and on enemy cavalry detachments.

CONSTANTINOPLE, Aug. 2.—Salih Pasha, Turkish Minister of Marine, will leave Saturday for Europe to set before the Allied political leaders what he considers the danger of soviet Russian intervention in the conflict in Anatolia between the Greeks and the Turkish Nationalists. He also intends making an effort to induce the entente statesmen to take steps for the prevention of further hostility.

JUST CAN'T SATISFY JAPANESE STRIKERS.

[BY CABLE AND ASSOCIATED PRESS.]

KOBE, Aug. 2.—The announcement of the shipyard owners that they were ready to grant the workmen the right of physical control of the plants has not satisfied the strikers, who maintain that the officials did not directly address them but sent their communication to the strike breakers. The strikers say they are resolved to fight to the last, and will disregard attempts at conciliation. In addition they demand dismissal of the strike breakers in the shipyards.

Eighty more leaders in the strike have been arrested, making altogether 400 persons held.

QUESTION OF SUCCESSOR TO CARUSO STIRS WORLD.

Great Tenor's Death in Italy Leaves Vacant Place in Opera; Voice Earned Great Fortune.

[BY A. P. NIGHT WIRE.]

LONDON, Aug. 3.—The burial of Enrico Caruso will [illegible] at the church [illegible] Gracia in Naples, says the Daily Mail today.

NEW YORK, Aug. 2.—There was no one in New York who could say today what singer would succeed the late Enrico Caruso next fall as leading tenor of the Metropolitan Opera Company.

Caruso's death in Naples today was considered by critics to have left vacant a place in opera that no living tenor can fill. For Caruso was king of the opera.

Guilio Gatti-Casazza, general manager of the Metropolitan Opera Company, who selects the artists and operas, is in Europe.

Caruso's earnings, like his fame, surpassed those of other singers. His annual income ranged around $500,000, it is said.

Plans for the establishment of a national Caruso memorial were begun a few hours after the news of his death was received by the Order of the Sons of Italy, embracing about 175,000 Italian-Americans.

Dr. Stefano Miele, national master of the organization, called a meeting of the supreme council for tomorrow to consider the form of memorial.

It is probable, he said, that a Caruso foundation for training young opera singers, or a Caruso theater, to present Italian operas, would be established.

DIES IN HOTEL.

[BY CABLE AND ASSOCIATED PRESS.]

NAPLES (Italy) Aug. 2.—Enrico Caruso died today.

The great singer, whose ultimate recovery had been hoped for under the benign influences of his own Italy, passed away at 9 a.m. at the [illegible] Vesuvius. He had been brought here hurriedly from Sorrento, on the Bay of Naples, where less than a week ago he avowed his returning strength, and expressed the conviction that he would sing as before. He had been able to visit the famous sanctuary of Our Lady of Pompeii, giving thanks offering for his recovery. He went also to the island of Capri, where he attended a luncheon in his honor. But soon afterward unfavorable symptoms, in the form of a high fever, manifested themselves, and his wife telegraphed to a Rome specialist to come to Sorrento; it was then discovered a new internal abscess had [illegible]

COULDN'T STAND TRIP.

[illegible]'s removal to Rome for an [illegible] was advised, but he [illegible] [illegible] that it was impossible [illegible] him further than Naples. [illegible] he arrived Sunday evening [illegible] physicians were called, and their examination showed the presence of a subphrenic abscess, accompanied by severe peritonitis.

An operation to be performed at noon today was decided on, but the patient's condition became suddenly worse at 4:30 a.m. Heart stimulation had been resorted to hourly.

In order that Caruso should not tire himself, the physicians ordered him not to speak, so during his last night he uttered no word. Of the members of his family present at the deathbed the most pathetic was his old mother, who had always clung obstinately to her little home, despite her son's efforts to accustom her to the material comforts of life.

For a long time after his arrival in Italy, Caruso showed improvement. There was grave anxiety, however, when Caruso, a few days ago, began to show signs of depression. The rising temperature

FIRE STOPS BUSINESS IN WALL STREET

New York Stock Exchange is Threatened by Blaze in Annunciatory Board.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 2.—The opening of the New York Stock Exchange was postponed three hours today because of a fire which destroyed the north wall annunciatory board on the exchange floor.

The flames, believed by fire officials to have started from a short circuit in electric wires, were discovered shooting up a shaft adjoining the north wall, where an addition is being built to the exchange. Clouds of smoke swept into the main exchange.

The fire attracted a great crowd. Traffic was stopped on the Wall and Broad streets sides of the burning building.

While the firemen were still at work, J. Pierpont Morgan arrived at his offices just across the street and watch the spectacle. Like other prominent Wall street men, he was forced to leave his automobile a block from the scene and walk past the fire to his office. The Morgan Building was under a heavy guard of police.

While firemen battled with the flames, scores of riveters remained aloft on the great steel skeleton of the annex, continuing their work until smoke drove them down. Then they aided firemen to scale the steel girders and pour water on the fire.

There was a loud cheer from members when trading was resumed and transactions were unusually brisk because of the large accumulation of orders.

Officials recalled that this was the first time that fire had interfered with business on the exchange.

To Count Federal Noses.

[BY A. P. NIGHT WIRE]

WASHINGTON, Aug. 2.—A resolution directing the Census Bureau to ascertain the number of Federal employees in Washington and how they voted in the last Presidential election was introduced in the House today.

Commercial Failures Gain.

[BY A. P. NIGHT WIRE]

NEW YORK, Aug. 2.—There were 1444 commercial failures, involving liabilities of $42,774,153 in the United States last month, R. G. Dun & Co., reported today. This number was 120 more than June.

RUSS HORDE RUNS WILD.

Starving Mass on Polish Border.

Artillery Mounted to Stop Advance of Mob Estimated at Hundred Thousand.

Mad Crowds Attack Tambov, Kill Horses in Street and Eat Them Raw.

BY GEORGE SELDES.

[BY CABLE—EXCLUSIVE DISPATCH.]

BERLIN, Aug. 2.—The Polish army is mounting artillery on the Russian border in the neighborhood of Baranovichi to prevent hordes of panicky Russians from the famine regions from overflowing Poland, according to a statement from Polish sources. It is estimated that 100,000 are crowding the Polish border.

MADDENED CROWDS.

[BY CABLE—EXCLUSIVE DISPATCH.]

RIGA, Aug. 2.—Local papers reproduce from the Moscow Isvestia a dreadful story of panic scenes at the town of Tambov.

Tambov was invaded a few days [illegible] by a maddened crowd of tens of thousands of fugitives from the surrounding country. They brushed aside the opposition of red troops and pillaged shops and stores in search of food. Then, exhausted, they fell like wild beasts upon horses of cabs, fire engines and street cars and tore them to pieces and glutted their hunger with the red raw fragments.

Worse things still are happening in the Tartar provinces.

HEARTRENDING INCIDENTS.

A refugee from the Bashkir republic relates he came on a lone farm where he found an old man sitting before the door. He seemed half insane and unable to answer questions as to the meaning of strange howling cries that came from the interior. The stranger entered the house and found children whose ages ranged from 10 to 16 each tied up in a different corner. The two youngest bore open flesh scars on their arms and bodies, which were naked to the waist. They were so fastened to prevent the elder pair from tearing the younger to pieces.

Reports state that while there is a considerable flood of refugees toward Moscow the majority are moving like a [illegible] [illegible] [illegible] later there will be a wave of sufferers toward Latvia and anxiety is real for the authorities lest they could not get troops to fire on helpless people, who would stream across the frontier, unchecked to ravage everything in their path.

CANADIAN RAILS CUT PAY.

[BY A. P. NIGHT WIRE]

MONTREAL, Aug. 2.—Wage of clerical workers employed by Canadian railways today were ordered reduced at once $12.24 a month and those of office boys $10.20. About 350,000 workers are affected.

RED RUSSIA HAS COLLAPSED.

Crop Failures not Alone Responsible for Starvation of People, Hoover Shows in Statement.

BY CHARTON S. WILCOX.

[EXCLUSIVE DISPATCH.]

[Copyright, Chicago Tribune.]

WASHINGTON, Aug. 2.—Conditions in impoverished Russia which the United States is preparing to alleviate unofficially through the American relief organization in Europe have been brought about, according to careful investigation conducted by the Department of Commerce, through the complete collapse of industry and production under the soviet regime.

Russia's economic collapse, according to reliable reports to Secretary Hoover, who as head of the American relief forces is undertaking to aid the starving people of the country, is traced primarily to the fact that industry there has decreased 90 per cent as compared to the prewar period.

STARTLING FIGURES.

Reports from reliable sources to Secretary Hoover show in striking figures Russia's economic plight.

Industrial production during the year 1920 in percentages compared to prewar output was as follows:

Pig iron, 3 per cent; copper ore 6 per cent; iron ore 3 per cent; manganese ore 2.6 per cent; salt 15 per cent; rubber industry 5 per cent; watch industry 15 per cent; paper industry 20 per cent; sugar industry 5 per cent; printing 15 per cent; production of coal 20 per cent; cotton spindle operating 3 per cent; woolen cloth 4 per cent.

Before undertaking to reply to Maxim Gorky's appeal for relief to the starving Russians, Secretary Hoover took occasion to inquire closely into actual conditions and reports received indicate that the most acute famine area covers the Volga Valley from the Caspian Sea northward. The drought in this area would not be of such fatal character but for the general decadence of agriculture, reduction of surpuls in other regions and in the decay of transportation, rendering most difficult the movement of such local surpluses as do still exist.

GREAT ACREAGE DECREASE.

Examples of reports from the drought area show the province of Samara sowing this spring only 55 per cent of the acreage cultivated last year. In the province of Kazan 95,000 acres usually cultivated were not sown at all. To the west of the Volga Valley less than 50 per cent of the arable territory in the province of Orel was sown, and in the province of Tula, only 20 to 35 per cent of the necessary seed for sowing was available.

Overriding such local situations there has been a steady decline in

(Continued on Second Page.)

SLIPPERY ROADS FOR GOVERNOR.

Illinois Capitol on Wheels Has Rough Sledding, Due to Heavy Rains.

[EXCLUSIVE DISPATCH.]

CHICAGO, Aug. 2.—Illinois' "capitol on wheels" is having rough going owing to the rains of last night and today which make the roads slippery and in some places impassable for the heavy automobile Gov. Small is using. The Governor changed his plans over night and started out on a new itinerary today. It is not known what caused the change but Sheriff Mester of Sangamon County holds three bench warrants against the executive, two for embezzlement and one for conspiracy and confidence game. The route the Governor had planned until the sudden change was made, would have taken him close to Sangamon county.

HAS BEEN PUBLISHED.

The State fair program is out and fixes August 26 as "Governor's Day." This has been for many years a day on which all State politicians gather in the capital. It is believed the Governor will not miss this event.

Lieut.-Gov. Sterling, who is jointly indicted with Small, returned to his home in Rockford today after conferences with attorneys in Chicago. He has refrained from organizing his defense until he learns what the Governor proposes to do. He will demand a separate trial.

Friends of the Governor said today that he will arrive in Springfield not later than Saturday of this week and that if he is taken into custody he will spring a counter move that will surprise the State. They refused to give the slightest hint as to the nature of this move.

THE DAY'S NEWS SUMMED UP.

THE SKY. Clear. Wind at 5 [illegible], southwest; velocity, 8 miles. Barometer, highest, 76 deg.; lowest, 61 deg. Forecast: For Los Angeles and vicinity: Wednesday fair. For complete weather data, see last page of this section.

THE CITY. Suit was filed to have private, unadvertised sale by City Council of $18,500,000 worth of [illegible] bonds at discount of more than $1,000,000; letter was read from Edison company saying it did not need money for seven months. Arbuckle questioned city's right to jump State boundary line to get electric power; two conferences arranged for today about Boulder Canyon dam.

Scores of scantily-clad men, women and children barely escaped with their lives when arsonists burned down large hotel on Terminal Island; police investigation showed details planned minutely; suspect arrested.

Plan to ship California cotton to Czecho-Slovakia to be manufactured into fabrics in old Austrian mills and discussed in England was discussed by bankers and business men.

Vice-President W. E. Chamberlain of Rotarygger's sprang surprise on friends by marrying widow of Dr. C. E. Whitmore, late County Hospital head; long tour planned by couple.

Letter asking unnamed person to dig up buried loot in Hollywood was found when man was searched after arrest; writer, in County Jail, said he was plotting to escape.

PACIFIC SLOPE. Oil field workers' union of California yesterday urged Hoover, Harding and Davis that strike would occur here unless [illegible] canceled announced wage reduction order. Oil operators head denounced operators, would not be party to any mediation meetings.

GENERAL EASTERN. Welcome rain yesterday fell on parched Chicago, wilting under record heat wave.

Arkansas River, near Canon City, reported at highest point ever known.

Slippery roads due to heavy rains made it hard going for Illinois capitol on wheels yesterday. Gov. Small continues to tour State while Sheriff waits with warrant.

WASHINGTON. Sweet bill consolidating all soldiers' relief work passed by Congress, and is ready for President's signature.

Gompers' henchman in capital to oppose admission of Chinese labor to Hawaii, admits Japanese raised fund to aid fight.

Russia's desperate with thousands starving caused by complete collapse of industry as much as by crop failure.

Secretary of Treasury Mellon's recommendation on tariff revision were opposed yesterday by advocate of sales tax in hearing before Congressional commission.

Former Comptroller of the Currency Williams yesterday attacked Federal Reserve Board's policies and charged favoritism in making loans.

Representatives of dissenting interests yesterday opposed American valuations plan in tariff bill, while manufacturing interests advocated its adoption.

Successful boycott of English goods in India and agitation of Tolstoi disciple for biblical resistance has greatly alarmed England. Incipient rebellion and religious war may affect disarmament.

FOREIGN. Chile, offended by American's address at Peruvian celebration has forwarded request to Washington for copy of reported speech.

Heligoland, seeking independence from Germany declared yesterday through its commission that freedom was necessary to territory's welfare.

Greek bombing planes bombarded Turk railroad, says Athens report. Bombs also dropped on cavalry detachment.

Enrico Caruso, world's greatest tenor, dies at home in Italy; rich and poor mourn loss.

Starving Russian horde estimated at 100,000 advancing on Polish border; artillery mounted to stop them.

WORLD MOURNS LOSS OF CARUSO.

Great Tenor Dies in Hotel in City of Naples.

Had Hoped to Last That He Would Recover.

Start Movement for Memorial in New York.

(Continued from First Page.)

age, began to show signs of depression. The rising temperature which had characterized previous attacks, recurred and steadily his condition grew worse until Saturday, when he suffered from violent pains in the abdominal region. The medical consultation followed and it was apparent that the patient's heart was weakening rapidly. Oxygen was administered and other measures taken to prolong vitality.

At his request, Caruso's body will be embalmed and the funeral services will be held tomorrow. It is recalled that, when he lay gravely stricken in New York, he had expressed the wish that he might die in Italy, and now all Italy is mourning that this sad wish has come to pass.

LONG CELEBRITY.

Caruso, for more than twenty-five years a celebrity in the world of song, the tenor with "the golden voice," idolized by millions in America and abroad, had an artistic career as well known as that of any famous statesman or military leader. He was born in Naples, Italy, Feb. 25, 1873, the son of Marcellina Caruso, a mechanic, who detested music, but was persuaded to permit his son, when 11 years old, to sing in the churches of his native city.

An unpromising pupil, for three years he studied under Guglielmo Vergine, pledging his teacher that when ready for a professional career he should pay him one-quarter of his earnings for the following five years.

He made his debut in "L'Amico Francesco" at the Nuovo Theater, Naples, in 1894, then toured Italy and Sicily and was engaged for four seasons at La Scala, Milan.

NOT ENTHUSIASTIC.

Subsequently he sang in St. Petersburg, Moscow, Warsaw, Rome, Lisbon, Paris, London and leading cities of Germany. When he came to the Metropolitan Operahouse in New York on Nov. 23, 1903, the critics did not go into ecstacies over him.

One of them wrote, on the opening night: "Signor Caruso (as the duke in 'Rigoletto') has many of the tiresome Italian vocal affectations and when he neglects to cover his tones, as he always does when he becomes strenuous, his voice becomes spalid."

It is interesting to observe that when Caruso made his Naples debut he sang the title role four times, for which he received 100 francs, a pair of stage shoes, a suit of flashing ape and a neckerchief.

Some years later Maurice Grau, the impresario, negotiated with him to sing in America for $700 a month, but thought the salary excessive and the deal fell through.

Grau was quick to perceive the opportunity he had lost and finally engaged Caruso for fifty performances at $1000 a night. But Mr. Grau became ill and Caruso, when singing in Lisbon, received word that again he must abandon his hope of singing in America. Heinrich Conreid, who followed Mr. Grau at the Metropolitan, however, cabled Caruso an offer to cross the Atlantic and his ambition at last was realized.

Although no official statement of his earning was ever made public, it is known that Caruso, at the height of his Metropolitan career was receiving an average of $2000 for each performance. On special occasions, such as his 1920 season in Havana, he was paid $10,000 a night.

The list of Italian and French operas in which the noted tenor's name figures since he first sang in New York reveals an amazing versatility. In sixteen years he sang no less than 849 times, in one season, 1907-08, making fifty-one appearances, a great test of endurance for any voice. He was unsparing, if not reckless, of his vocal powers. No grand opera tenor in America from the days of Brignoli, Campanini, Ravelli, Tamagno and Jean de Reszke, it is recorded, ever reigned so long in popular favor.

TROUBLE WITH THROAT.

Caruso, after his strenuous opera seasons, sometimes had trouble with his throat, which he usually overcame with a little rest and care and at certain intervals rumors that "Caruso will never sing again" were frequently printed. In the winter of 1920, however, he suffered a serious affliction when a small blood vessel in his throat burst while he was singing in "E'Elisir d'Amore" in the Brooklyn Academy of Music. Recovered from this mishap, Caruso was stricken with pleurisy.

WIFE DEVOTED NURSE.

During his indisposition Caruso was the object of devoted attention by his wife, formerly Miss Dorothy Benjamin of New York, whom he married in 1918. One child was born to them. Caruso had a son by a former wife, a singer named Ada Ciachetti, with whom he had been associated in opera at Treviso and Bologna.

He received an illuminated parchment from thirty-five families holding boxes in the $7,000,000 "Golden Horseshoe," a flag from the city of New York, several medals and numerous gifts from his fellow artists. Mr. and Mrs. Caruso resided in New York City during the opera season. They had a summer home on Long Island and another residence, Ville alle Panche, at Florence, Italy.

CARUSO'S OWN LIFE STORY.

Father Wanted Him to Be Good Mechanic; He Desired to Be a Sailor; Dies a Singer.

[EXCLUSIVE DISPATCH.]

NEW YORK, Aug. 2.—Enrico Caruso became the greatest tenor in spite of a humble birth and his father's whippings to make a good, sober mechanic of him, and it was his mother's death, when Enrico was 15 years old, that sent him to the stage. His own intimate life story was told in an interview recently here and is printed for the first time today.

Caruso, beginning his story, told of his father's efforts to "whip him" into a "sober, industrious mechanic."

"I wanted to be a sailor and I haunted the docks for days," explained Caruso. "I broke most of the rules and regulations at school and lived in constant disgrace.

"By the time I was 11 years old, I had developed a great love for singing and had, I believe, a fine contralto voice.

"One day the old organist of the Church of St. Anna, Naples, heard me singing some popular melody, and my youthful efforts delighted him so much that he engaged me to sing in his choir. And I received for my labors each Sunday the large sum of 10 pence weekly—the first money I ever earned.

TURNING POINT.

"The turning point in my life came at the age of 15, when my dear mother died. Had she lived it is probable I should have continued my mechanical studies to please her.

"So I became a wanderer with no weapons to help me in the fight for success, but a remarkable physique and tremendous optimism, which—I thank Heaven—has never failed me. Somehow, I managed to pick up a poor livelihood by singing at church festivals and private houses.

"I was often hungry, but never unhappy; and thus I went on until, at the age of 18, I was faced by this fearful problem. 'Was I a tenor or a baritone?' My voice at that time was so thin that it resembled the wind whistling through a paling window, and my fellow students laughed at my hopes of an operatic career. Undisturbed, I worked on until my studies were curtailed by military duty.

IS RECOGNIZED.

"One morning I was polishing the buttons on my tunic and singing for sheer joy with an 'open throat.' I can picture the scene in my mind at this moment and see the glorious sunshine streaming in as I sat polishing vigorously. Suddenly Maj. Nagliati appeared, listened, and then inquired: 'What is your profession?' Stammering, I muttered: 'I aspire to sing in opera.'

"Without a word he left me, and I imagined he had not heard my mumbled reply. But that same evening he told me he had found me a singing master, and that during my remaining thirty-five days in Rieti I could continue my studies.

"A little later my kind major arranged that my brother should take my place, and thus it happened that in 1895 at the age of 22, I made my debut in a new opera at the Teatro Nuevo Naples.

"I was not a success nor was the opera.

"My master, Vergine, encouraged me to go on studying and singing at every opportunity in various theaters. In this way my voice improved in timber, strength and tone and at last my great day dawned—though I nearly spoiled my own success through obstinacy.

SINGS "LA BOHEME."

"Sonsogno, manager of the Teatro Lirceo, Milan, asked me if I would study the role of Marcello in 'La Boheme,' to sing at his theater. Accordingly with Vergine's help, I began to study this role, but after a few days decided it did not suit me and returned it with many regrets.

"A little later I visited Milan and there Sonsogno came to me with a request that I change my mind and consent to study the role, as he was certain it would suit me and that I should make a success in it.

"Strange was it not, that he should be convinced of my success when I felt confident of failure?

"Spurred by his belief in me I learned the role, and on Tuesday, Nov. 8, 1895, appeared as Marcello, at the Teatro Lirceo, Milan, and made, if I may so, in all humility, my first success.

"On November 9 I awoke to find press and public in agreement that I had not mistaken my vocation."

WARNING GIVEN TO CARPENTERS.

Brotherhood Head Threatens to Revoke Charters.

Talk of General Strike in Bay City Causes Action.

Expect Officials of Other Unions Will Act.

[EXCLUSIVE DISPATCH.]

SAN FRANCISCO, Aug. 2.—The revocation of the charter of every union in San Francisco, San Mateo and Alameda counties affiliated with the International Brotherhood of Carpenters was threatened today if the local unions persist in taking part in the general building trades strike. This threat was wired to every district council of carpenters and signed by William Hutcheson, president of the International Brotherhood.

Because of this action no special meeting of the Building Trades Council was held tonight to ratify the general building trades strike. No action was taken by the general conference committee today to set the time of the building trades strike for a time later than Wednesday night.

The Building Trades Council will not meet until Thursday night, and affiliated unions are not permitted, according to their charters, to take any strike action unless it is first ratified by the council.

The officials of the Building Trades Council would make no statement regarding the failure to call a special meeting tonight. With the carpenters in danger of quarreling with their parent organization, the general strike of building trades crafts in three counties, though of doubtful issue, assumed a different aspect. The carpenters predominate in numbers in the building trades crafts.

The action of Hutcheson threw the general conference committee of the building trades unions of the Bay District into an uproar today. A telegram of protest was drafted, asking Hutcheson to rescind his action. The general opinion among the officials of the general conference committee was that the international officers of building trades unions have been misinformed regarding the details of the local situation.

OTHERS TO ACT.

Action similar to that taken by the International Brotherhood of Carpenters is expected from officials of other building trades unions.

William H. Urmy, government conciliator, was invited by the general conference committee today to appear before the delegates tomorrow and present his plan of settlement. Urmy has talked to several of the Building Trades Council unions regarding action by the men to bring the present controversy to a close.

LOOTER OF BANK SAFE IN MEXICO.

Believed Warren C. Spurgin of Chicago Crossed Border from Texas.

[BY A. P. NIGHT WIRE.]

EL PASO (Tex.) Aug. 2.—United States immigration officials at Presidio, Tex., 200 miles east of here on the Rio Grande, believe Warren C. Spurgin, the missing Chicago banker, crossed the border there July 26. The man, they say, represented himself as a mine operator and carried a passport made out in the name of Scott.

Upon crossing from Presidio to Ojinaga, the man engaged an automobile and drove away in the direction of Chihuahua City, 150 miles from there.

Scott, according to the immigration officials, answered perfectly the description of Spurgin, which was not received at Presidio until July 28. The man carired one handbag.

CHICAGO, Aug. 2.—Warren C. Spurgin, fugitive president of the defunct Michigan-avenue Trust Company, has been traced to Mexico, it was announced by the State's Attorney's office tonight. He is believed to be in Chihuahua City.

A report of the bank examiner who has been working on the books of the bank, today, indicated that the loss may total $1,124,368. It was hoped, however, that this amount may be reduced by the determination of the value of loans, bonds and stocks now listed as doubtful.

At the close of business July 20, according to the examiner's report, Spurgin had the bank's books in balance. In his showing of assets, however, he had included items totaling $1,595,495, which the examiner now lists as doubtful or actually worthless. This sum was reduced by the discovery of assets.

Spurgin, it was said, kept the books in apparent balance by substituting forged or dubious securities for one of undoubted value and by memoranda which indicated certain securities were in the bank vaults, when he had confiscated them.

PROTECTION FOR SMOKERS, PLAN.

League Against Prohibition of Tobacco Granted Charter in New York.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 2.—The "Smokers' League Against Tobacco Prohibition, Inc.," has been granted a charter by Supreme Court Justice Martin. The league plans to "establish and conserve the right of the citizens of the United States of America to the use of tobacco."

UNIONITES MADE TOKIO'S TOOL.

(Continued from First Page.)

and disgrace for any American to advocate peonage, bond labor, slave labor, anywhere under the American flag.

"The issue," he continued, "clearly is whether the American principle of oriental exclusion shall be destroyed, whether Chinese coolies shall be brought to Hawaii in bond, and whether America is going to permit establishment in Hawaii of a condition of serfdom, peonage and bondage, by which coolies shall be brought to the islands, tied to their jobs and rendered liable to punishment if they attempt to desert the work for which it is proposed they shall be imported in bond.

SCORES CONGRESSMEN.

"Members of the committee, notably Congressman Shaw of Illinois, Congressman Free of California and Chairman Johnson of the committee, have sought to turn the hearing into a debate over the Japanese question. It is proposed to establish slavery on American soil. They submerge the issue and inquiries into Japanese, about labor shortage, about all manner of matters that tend to take the discussion away from the real issue.

"There is before the people of the United States a grave issue. Let not the fact that this immediate question applies only to Hawaii mislead anyone. It has been shown to my satisfaction that Hawaiian sugar planters have urged American sugar growers to keep silent about this measure because if coolies can be secured for Hawaii, now, they may later be had for American planters on the mainland. To their credit, the American planters on the mainland have not fallen in with this treacherous suggestion. But nevertheless the possibility remains."

PACIFIC COAST POLL.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Aug. 2.—It was announced that all of the union labor councils of the Pacific Coast will be polled by the American Federation of Labor to determine their attitude on the admission in a limited way of the Chinese to the Hawaiian Islands. Telegraphic questionaires are to be sent out tonight or tomorrow and every possible opposition to the bill is to be developed by the union labor leaders here.

George Wright was testifying before the House Committee on Immigration when Congressman Free took a hand. He asked Wright if it was not true that the Japanese had raised a fund to pay the expense of himself and Chilton to Washington. He denied that such was the fact and otherwise evaded any acknowledgment of the charge. He was excused and Chilton was called upon to testify.

Congressman Free then produced some of his confidential information and asked Chilten if the charge was not true. After some reluctance he admitted that the amount was raised by the Japanese and had been paid to them for expenses to Washington and that it had been split between the two union labor delegates fifty-fifty. He also admitted that the Japanese are still engaged in raising money to prevent this legislation from becoming law.

WRIGHT ADMITS FACTS.

Congressman Free then recalled Wright to testify and amid much confusion he admitted that the facts did furnish the money and that were correct and that the Japanese it was split fifty-fifty. As the testimony developed it was apparent that the union labor forces and the Japanese had effected an offensive and defensive alliance on the island which apparently is largely financed by the little brown men, by which the Japanese are to be allowed a virtual monopoly of field labor and the white labor union men are to benefit by the closed shop and a labor shortage.

Congressman Raker also of California, took hand in the cross examination and from his questions apparently he was favorable to the Japanese monopolizing the labor market in the Hawaiian Islands.

Chilton will go on the stand tomorrow and it is expected that other revelations will be made by him to show just how far reaching is the combination between the white labor leaders and the Japanese.

JUST CAN'T SATISFY JAPANESE STRIKERS.

[BY CABLE AND ASSOCIATED PRESS.]

KOBE, Aug. 2.—The announcement of the shipyard owners that they were ready to grant the workmen the right of physical control of the plants has not satisfied the strikers, who maintain that the officials did not directly address them but sent their communication to the strike breakers. The strikers say they are resolved to fight to the last, and will disregard attempts at conciliation. In addition they demand dismissal of the strike breakers in the shipyards.

Eighty more leaders in the strike have been arrested, making altogether 400 persons held.

HONEST, PUBLIC DEBT FELL OFF IN JULY.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 2.—A decrease of $206,000,000 in the public debt during July was announced today by the treasury. The total gross debt, July 31, stood at $23,771,000,000 compared with $23,477,000,000, June 30. Officials said that the decrease was explained by retirement of treasury certificates of indebtedness and the operations of the sinking fund during July, while no new issues of government securities were offered during the month.

FIGHT SCHEME OF VALUATION.

Inspectors' Representatives Appear in Senate.

System Declared to be Utterly Unworkable.

Would Prefer Gradual Effect if at All.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Aug. 2.—Representatives of importing interests of New York and New England opposed the American valuation plan of the Fordney tariff bill before the Senate Finance Committee today. Witnesses also included several manufacturers, who urged adoption of the plan as the only way to meet the exchange situation.

Thomas J. Doherty of New York, representing the National Council of American Importers and Traders, described the scheme as "monstrous." He declared it was utterly unworkable.

Joseph S. Lockett of Boston, attorney for the New England Importers' and Traders' Association, made a similar attack upon the plan.

It was said that the importers would much prefer some scheme by which the American valuation plan is to be put into effect gradually if it is to be adopted at all. This would be in line with the suggestion of George C. Davis of the Customs Service, that the foreign valuation plan be retained but that manufacturers be given an opportunity to prove American values of products comparable to imported goods and that duties be assessed upon these values minus duties, transportation costs and other expenses and a profit.

Mr. Lockett, in opposing the American valuation plan, denied that undervaluations have been as prevalent under the foreign valuation system as claimed. Mr. Lockett severely criticised the manufacturers who have been urging the adoption of the plan.

A delegation of toy manufacturers urged the adoption of the American valuation plan. W. O. Coleman, manufacturer of toy trains, declared that his company had been forced to close its plant as a result of German competition. He said that the American valuation plan would help the company to meet the exchange situation. Coleman exhibited a toy train of German manufacture, which he said he bought from a jobber in New York at $8.50 a dozen, which was similar to one of his own manufacture which sells in New York at $10.50 a dozen. The German train, he said, probably cost the importer not more than $5 a dozen.

"Our factory started in this year with a production of 3000 trains a day," said Mr. Coleman. "In April we reduced the output to 2000 and in June, 1000. On July 1 we stopped production entirely.

"The only thing that will save the American toy industry is to adopt the American valuation plan. The American valuation plan will make duties from all countries equal, regardless of rate of exchange, and it will avoid undervaluation."

BRYCE SCORES PEACE TREATY.

(Continued from First Page.)

humored or gratified. Moreover, and this is an excuse which must not be lightly brushed aside, the task before them was one of unprecedented difficulty."

Taking up the position in which the European countries find themselves as the result of the peace treaty, Lord Bryce said:

"Germany, which though reduced in area is still Germany and continues to call herself the reich (the realm) albeit now a republic instead of a monarchy—Germany is still the most populous of European countries after Russia, with highly educated and industrious inhabitants and great productive industries. Between her and France the ancestral antagonism, dating back to the days of Louis XIV's aggressions, is now more bitter than ever and seems like to last in France as long as the generation lives which remembers the devastation wrought in 1917 by the retiring German army and in Germany as long as her government continues to pay immense sums in reparation for the losses in the war by France.

"This war has shown an unprecedented feature, painful in the prospect it opens. The victors bear as much resentment against the vanquished as the vanquished do against the victors. There is no blacker cloud, pregnant with future storm, hanging over Europe now than that which darkens the banks of the Rhine."

Of Austria and Italy's aspirations in regard to the Tyrol, the speaker said:

DELIVERED LIKE CATTLE.

"Italy had, of course, no historical title to the purely Germanic region she sought to acquire. However, the principle of nationality was in this case thrown overboard by the Allied powers and 250,000 of German Tyrolese were delivered to Italy as though they were so many cattle. The British and French governments defend their action by pleading a secret treaty they had made with Italy in 1915, when they were endeavoring to induce her to enter the war on their side. It was a promise that ought never to have been made."

Turning to Russia, Lord Bryce discussed the prospects of the empire, saying:

"If the experience of states which have in past times lapsed into anarchy or fallen under the dominion of groups of adventurers ruling by mere force without a shred of constitutional or moral authority were to furnish any ground for a forecast, we should expect the rise of some military despotism like that of Bonaparte.

WHEN RUSSIA AWAKENS.

"But it must be remembered Russia, once her internal troubles have subsided and she is again a military power, will probably endeavor to reconquer all the territories which she has lost except, perhaps, Poland and Finland. The Russian exiles, survivors from the old regime who have escaped into Western Europe, make no secret of their desire to recover the Baltic lands, and even the territories beyond the Caucasus.

"Such an attempt would raise a whole crop of new questions, capable of furnishing materials for new wars."

Commercial Failures Gain.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 2.—There were 1444 commercial failures, involving liabilities of $42,774,153 in the United States last month, R. G. Dun & Co., reported today. This number was 120 more than June.

DISARMAMENT VICTORY.

England Abandons Preliminary Meet Idea in Deference to Capital.

[BY CABLE AND ASSOCIATED PRESS.]

LONDON, Aug. 2.—In deference to the wishes of Washington, Great Britain has abandoned the idea of a preliminary conference on the Eastern problems preceding the general disarmament conference in November. This official announcement brought disappointment to Lloyd George, who had planned to go to America very soon, but will now spend his vacation in Scotland instead.

It is the Prime Minister's intention to attend the Washington conference in November, but when he will be able to do so depends on the state of the world, and particularly those parts of it which Great Britain is interested at that time.

It is also undecided yet what the British dominions will be represented in Washington separately through one of the empire's delegates.

At present an interchange of ideas is going on through the embassies about the agenda of the conference.

LAST OBSTACLE REMOVED.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 2.—Great Britain's acquiescence in the suggestion that the conference on limitation of armaments be held in November, and the cessation of efforts to have a preliminary conference were regarded by American officials today as the removal of almost the last obstacle in the way of an agreement on the general plan.

For more than a week there has been in progress an interchange of ideas both on time and the agenda carried on by the representatives here of the foreign governments discussing the questions among themselves with the Secretary of State, and by the diplomatic representatives of the United States and other powers in the respective capitals.

The official information concerning the British decision is understood to have been a result of conversations between the British Foreign Office and foreign diplomats accredited to the British government.

The somewhat complex method of exchanging opinions and suggestions probably will continue to be followed, it was indicated, defining so far the scope of conference and the nature of the agenda. It is not believed likely Japan will insist on any preliminary conference, and it has been made clear that the American government will interpose no objection to preliminary discussions of the agenda if those discussions are confined to what has been described as interchanges of opinions and ideas.

Unless in such preliminary exchanges unexpected barriers are encountered, it is believed the conference will be held in November.

RUSS INDUSTRY HAS COLLAPSED.

(Continued from First Page.)

cent of the necessary seed for sowing was available.

Overriding such local situations there has been a steady decline in agricultural production ever since the revolution, owing to the lack of incentive to farmers to provide more than their own needs, to the shortage of seed and shortage of implements. The urban population has produced little goods to offer in change and the currency depreciation through the increase of currency issues to over 1,000,000,000,000 rubles has rendered their accumulation no attraction.

From these causes Russia, before even last year's harvest, had declined from a state producing from 6,000,000 to 10,000,000 tons of food for export, to a condition where there was such an insufficient supply of food for the cities, that the urban population has been reduced by about one-half.

REQUISITIONED FOR TAXES.

An indication of diminished grain crops in 1921 is offered by the quantities estimated to be requisitioned as taxes by the soviet government. The total amount for all soviet Russia, except the Ukraine and Turkestan, is 4,320,000 tons of grain, as against 7,614,000 tons in 1920. The potatoes estimated to be requisitioned this year amount to 1,080,000 tons, as compared with 2,016,000 tons in 1920; 216,000 tons of oil seeds are to be requisitioned, instead of 432,000 tons in 1920. The number of provinces where any surplus is indicated for removal to other provinces appears to have decreased from over 26, in the prewar period, to not more than four.

There has been such deterioration of transportation that there is doubt as to ability to move local surpluses that do exist in the rich grain-producing provinces in Siberia and the south to those areas which normally depend upon them. North Russian shortage is due not so much to local famine as to general agricultural decadence and especially to breakdown in transport from the south and east. This area is nearer the seaboard and can be relieved to some extent from the outside.

The decadence in fat production is even more general and more acute than breadstuffs, owing to the falling off in animal production. Children are suffering more acutely in many sections than adults.

The State Department has confirmation today of the soviet action in agreeing to release all Americans detained or imprisoned in Russia as a condition for receiving unofficial relief from America, but has not learned of the actual release of the Americans.

AITCHISON DENIES RUMORS HE QUIT.

[BY A. P. NIGHT WIRE.]

SPOKANE, Aug. 2.—Clyde B. Aitchison, member of the Interstate Commerce Commission, appointed from Portland, Or., in a statement to newspaper representatives here today, denied rumors, which he said had been circulated in the East, that he had resigned or intended to resign his position on the commission.

ANTI-TAMMANY HALL MAKE NOMINATI

NAME CHOICE FOR MAYO PRIMARIES; G. O. P. RAC FOUR-CORNERED.

[BY A. P. NIGHT WIRE]

NEW YORK, Aug. 2.—Opp of Tammany Hall, represented the Coalition-Republican hous after weeks of deliberation, formally named Maj. H. H. Cu president of the Borough of M hattan, as their choice for M e primaries, September 1

The primary race was th four-cornered affair when Cu Judge Reubnen L. Haskell of Br lyn, announced that he was a c didate for Mayor in the Repu primaries. The other contende the Republican nomination are F. H. LaGuardia of Manh president of the Aldermen.

INDIA SITTING ON POWDER KEG.

Tolstoi Disciples' Boycott Alarms England.

Ghandi Preaches Passive Resistance of Natives.

Incipient Revolt May Affect Disarmament.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Aug. 2.—Mohandas Karamchand Ghandi, son of a wealthy manufacturer in Ahmedabad, India, a disciple of Tolstoi, has set about to out-Bolshevik the Bolsheviki. His ideas differ from Lenin and Trotzky in that he is using "peaceful" methods rather than force.

"India for the Indians" is his proclamation. "Do not resist the intruder. Use no force against him, but do not recognize him. Do not work for him. Buy no goods from him, except as forced by necessity. Keep away from his schools and his courts. Refuse to accept his honorary titles."

SUCCESS WORRIES ENGLAND.

Ghandi's formula of boycott carried a degree farther than ever attempted before has had alarming success and is giving Great Britain more to think about in India than at any time since the Sepoy rebellion. It is admittedly a possibility that all India may break out in revolution. And there is a further possibility will turn their swords against each that in that event Moslem and Hindu iwil turn their swords against each other while both are turning them against the English. Nothing just like the present situation ever developed in India before.

LOOKED ON AS MESSIAH.

Ghandi is something far more than a mere political agitator. He is looked upon almost as a messiah by his people. He declares his fight against the British a "religious war." As one consequence the second largest of the British industries in India—that of tea raising—is almost paralyzed in one of the valleys of Assam. The coolies have abandoned the tea plantations by the thousands. A railroad 400 miles long has ceased operations, and communications between Calcutta and large provincial centers are suspended.

Ghandi is now 52 years old. He is a small man with mild eye, a weak voice and extremely modest in his bearing. In his youth he studied in England and later became a disciple of Tolstoi. Returning to India to inherit a fortune, he gave the greater part of it to charity and took vows of poverty and chastity. Immediately he was proclaimed a saint. His career has been a stormy one and he has been jailed countless times.

DISARMAMENT AFFECTED.

The United States is interested in Ghandi because of the bearing that Indian troubles may have on the disarmament proposition and the conference which has been called to inquire into affairs in the Far East. Little is known of him here and what little is known has come through almost exclusively British sources. But that little is wholly complimentary to Ghandi as a man as well as to his ability as an agitator. He is respected and admired. Those who know him—such men as Lord Reading, Valentine Chirol, Lord Montagu, Lord Curzon—frankly admitted a liking for him. He is the only man who ever made the doctrine of nonresistance work on a large scale.

"If thine enemy smite thee on one cheek," is Ghandi's amended text, "turn to him the other also. But don't work for him."

Ghandi's plan is to drive the British out of India. Other Indians have had the same bright thought, but they have hoped to do it with the sword. Ghandi, it seems, has known better. The 315,000,000 people in India are divided between three great religions, of which the Christian is not one. Each religion hates the other two to the edge of the sword. Once fighting began, it would be too easy to do for the ancient enemy in preference to the new one.

EVER-PRESENT FEAR.

No one topic has had a larger place in the British press lately than the Ghandi rebellion by passive resistance. There is no fear that he will willingly permit his movement to turn into one of the usual violently revolutionary sort. There seems to be no thought of reinforcing the 75,000 troops in India, for, after all, Great Britain has held India not by force, but by a policy of fairness and by its excellent administration. But there is the ever-present fear that some of Ghandi's impetuous subleaders may demand an appeal to arms. Several have already preached a crusade of the sword and have been compelled to promise better behavior. If fighting does start there is at least a possibility that Moslem and Hindu will turn their weapons against each other. The British force would be wholly unequal to the task of restoring order, for all native belligerents would be quite as hostile to the outlander as to each other.

Lord Reading, however, has proclaimed that he proposes to rule by justice and will do away with some of the confessedly inequitable laws of the past. It is hoped that Ghandi will meet him on that basis.

LEGION MEMBERS TO VISIT BATTLEFIELDS.

[BY A. P. NIGHT WIRE]

NEW YORK, Aug. 2.—The steamship George Washington, scheduled to sail tomorrow with more than 250 members of the American Legion who will visit the battlefields of France, will depart on time, officials of the United States Mail Steamship Company, said tonight.

The George Washington was among the nine ships seized from the line by the Shipping Board, but restored through injunction proceedings. A hearing will be held Thursday to determine whether State or Federal court has jurisdiction.

WASHINGTON NEWS IN BRIEF.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Aug. 2.—Famine conditions in Russia are due to a collapse of industry and production under soviet rule, according to reliable reports to Secretary Hoover. The State Department is advised Americans will be released, but Americans across the border will be the test precedent to relief measures.

All efforts for the preliminary conference on Far Eastern questions have been abandoned, the State Department announced. An agenda, however, will be agreed upon in advance.

By a vote of 264 to 4 the House agreed to the conference report on the Sweet bill creating a veterans' bureau for soldier relief. The measure now awaits only the President's signature.

New York and New England importers before the Finance Committee of the Senate opposed American valuation in the tariff bill. A Chicago toy manufacturer favored it, declaring his plant was closed by German competition.

Representative Bacharach, Republican, of the House Ways and Means Committee criticises features of the tax-revision program as proposed by Secretary Mellon. "Confidential committee print" of a bill, based on the treasury suggestions, contains numerous important amendments.

Former Comptroller of the Currency Williams scores the policy of the Federal Reserve Board in making loans before the joint Congressional commission, saying farmers' complaint of discrimination was justified.

COUNCIL OF PREMIERS TO BE BUSY ONE.

Future of Albania, Help for Russia and Near East to be Discussed at Meeting.

[BY CABLE AND ASSOCIATED PRESS.]

PARIS, Aug. 2.—The future of Albania, succor for Russia, and relief in the Near East probably will be added to the work of the Allied Supreme Council when it meets Monday to consider the Upper Silesian problem and other questions concerning Germany.

The Albanian question was brought before the last meeting of the League of Nations Council through complaints by Albania of encroachments on her territory, in Greece and Jugo Slavia. The question was left by the Council, however, for the Allies to decide since they had not definitely pronounced on the status of that country.

Belgium, Jugo Slavia and perhaps Greece and Albania will be represented in certain phases of the discussions of the Allied Supreme Council Monday, it was intimated today. It is understood these countries may be asked by France, Great Britain and Japan to participate in certain discussions, at the meeting where the United States also will be represented informally.

It was indicated that the Belgian representative will represent the subjects of reparations and attitude of the Allies toward the Leipsig trials.

STRANDED FREIGHTER BROKEN IN TWO.

COAST GUARD RESCUES CREW; VESSEL GROUNDED IN DENSE FOG.

[BY A. P. NIGHT WIRE]

NORTHHEAD (Wash.) Aug. 2. Radio messages received here this evening from the Coast Guard cutter Snohmish said the freight steamer Canadian Exporter of the Canadian government's merchant marine, aground for two days off Willapa Bay, was broken in two this morning and will be a total loss. It was added that the cutter Snohmish would take the Canadian Exporter's crew to Victoria, B. C.

The vessel grounded in a dense fog two miles west of Cape Shoalwater lighthouse. The Snohmish aided by the Canadian wrecking steamer Algerine, pulled on the Canadian Exporter without success yesterday. She was firmly imbedded in the sand. The crew was transferred without difficulty.

This evening the Snohmish was helping the Algerine wreck her wrecking gear preparatory to abandoning the wreck.

SHORTRIDGE IN VICTORY FOR SAN FRANCISCO.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Aug. 2.—Senator Shortridge today succeeded in preventing the removal of the twelfth district naval headquarters from San Francisco to Mare Island. After objections from the Collector of Customs from San Francisco had been made to giving the naval authorities quarters in the customhouse, Secretary Mellon made a direct order to have rooms assigned to the commandant of the naval district in the San Francisco Customhouse, and the headquarters will remain in San Francisco.

SUGGESTS COMMITTEE TO DISBURSE LOAN.

[BY CABLE AND ASSOCIATED PRESS.]

HAVANA (Cuba) Aug. 2.—Creation of a commission of three to disburse the $50,000,000 loan which Cuba hopes to float in the United States, with the government playing only an incidental role, was suggested in a message to Congress by President Alfredo Zayas yesterday. It has been reported that American financial interests, in negotiations over a loan to save the sugar industry, have stood out for supervisory powers in distributing whatever amount was raised.

ANNUAL WELSH SONGFEST OPENS.

[BY CABLE AND ASSOCIATED PRESS.]

CARNARVON (Wales) Aug. 2.—The annual Einsteddfod, or musical and literary festival, opened today with large throngs in attendance. The Gorsedd, or assembly, gathered in the ruins of Carnarvon castle, where, after the Druidical rites of the bards were carried out, a procession was formed and marched to the Einsteddfod pavilion. The viscountess of Thondda presided.

Delegation Sees Briand.

[BY CABLE AND ASSOCIATED PRESS.]

PARIS, Aug. 2.—The delegation of the United States Chamber of Commerce, which has been touring England conducting an economic investigation, was received today by Premier Briand.

CHILE IS OFFENDED BY SPEECH

Makes Inquiry in American's Address at Peruvian Celebration.

[BY CABLE AND ASSOCIATED PRESS.]

SANTIAGO (Chile) Aug. 2.—Instructions have been sent the Chilean Embassy in Washington, asking that it make inquiries regarding the address at Lima, Peru, on July 28, by Albert Douglas, head of the special United States mission to the celebration of the centenenary of Peruvian independence, it was declared by a high official of the State Department last night. He said action was taken in view of the reports that Mr. Douglas had expressed "biased opinions" relative to relations between Peru and Chile.

The Chilean Foreign Ministry today received cable advice from the Chilean Ambassador at Washington saying reports of the address of Douglas had caused a great impression in the American capital and that immediate measures had been taken by the American State Department to investigate the real facts.

Chilean newspapers, commenting on the message of President Leguia to the Peruvian Congress, July 28, characterize his remarks as being in bad taste and exhibiting rancorous hate before an assemly of international representatives, besides "being a complete falsification of historical facts."

All the newspapers give even more prominence to the address of Douglas. The newspapers characterize Mr. Douglas's remarks as "a shocking divergence from the deference and cordiality marking the relations between his country and ours."

WASHINGTON, Aug. 2.—Unofficial reports that remarks of Albert Douglas, chief of the American mission representing the United States at the Peruvian independence centennial, had offended Chile, caused the State Department to cable today to the American Embassy for a copy of the commissioner's speech.

RANCHER CAPTURES HUNTED FUGITIVE.

MAN WANTED FOR ASSAULT ON WOMAN TAKEN BY MEMBER OF POSSE.

[BY A. P. DAY WIRE.]

MODESTO, Aug. 2.—Frank Huriburt, who was being sought by a posse under Sheriff R. L. Dallas, for an alleged attack on Mrs. Carl Konow, wife of a rancher near here was captured today by H. E. Drake, rancher, and member of the posse, and a companion, after he had left his hiding place in the bed of the Stanislaus River, a few miles from here, and sought a ride in Drake's wagon.

After riding Huriburt for a short distance Drake suddenly drew his revolver and covered Huriburt, while Drake's companion took two revolvers from the hunted man's pockets.

Huriburt was brought to the County Jail here, where it was reported by the Sheriff that he had admitted the attack on Mrs. Konow.

TRIANON TREATY IS NOW LAW IN HUNGARY

[BY CABLE AND ASSOCIATED PRESS.]

BUDAPEST, Aug. 2.—The Trianon treaty, by which peace between Hungary and the allied nations was established, became a law in Hungary yesterday by the publication of the text of the convention.

The treaty was printed in a special edition of the official gazette, which bore black borders, and was accompanied by a map showing the present boundaries of Hungary, as compared with those before the war.

RELATIVE OF HARDING DROWNS IN WYOMING.

[BY A. P. NIGHT WIRE]

SALT LAKE CITY, Aug. 2.—Louis H. Harding, secretary of the Salt Lake Rotary Club, prominent in Masonic circles and reported to be a distant relative of President Harding, was drowned while on a fishing trip at Jackson's Lake, near Moran, Wyo., today, according to a telegram received by his business partner.

Bank Robbed During Storm.

[BY A. P. DAY WIRE.]

GRAND VALLEY (Colo.) Aug. 2. During a terrific thunderstorm last night, the Garfield County State Bank here was broken into and robbed of all cash and securities it contained, it was learned today. The amount taken was estimated at $8500.

Oil Dividend Declared.

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Aug. 2. — A regular quarterly dividend of $1 per share (par value $5) was announced by the Standard Oil Company of California today, payable Sept. 15, 1921, to stockholders of record at the close of business Aug. 20, 1921.

Caruso Is Dead!

The whole earth has suffered a keen loss in the passing of this immortal artist—the greatest tenor of all time. His was a voice of unapproachable quality—his was the true soul of an artist. The world is mourning—Caruso is dead!

His magnetic personality is gone—but his magnificent voice will live forever. It has been perpetuated by means of the

Victor Records

which will preserve the beauty of his singing for generations to come.

Every phonograph owner should make immediate preparations to collect all of the Caruso Victor Records—they will in time be priceless and it is extremely likely that the present supply will be rapidly exhausted. Our library of Victor records is unusually complete.

We feel that local music lovers should not neglect the present opportunity of obtaining

Sohmer Pianos at Less Than Cost

—we've relinquishing the agency for these splendid instruments and are offering our present stock at less than cost! Terms.

Cantilever Shoe For Men and Women
If Your Feet Swell

Try Cantilever Shoes.

Feet swell from poor circulation, from strained cords and muscles, from ill-fitting shoes. Cantilever Shoes are a delightful change from ordinary footwear because—

(1) The flexible shank affords such perfect freedom to the feet that the muscles are exercised in walking, the blood circulates naturally through the tissues, and the foot grows strong.

(2) The natural inner sole line allows the toes to point straight ahead, and the slightly tilted heel tends to distribute the weight evenly over the foot arch. These features encourage a natural posture, without strain on any cords or muscles. In addition to their restful fit, Cantilever Shoes have a most attractive appearance. They are as good-looking as they are comfortable.

Expert Fitting Always.

FIELD STRIKE IN THE OFFING.

Oil Workers of California to Fight Wage Cut.

Demand Operators Cancel Announced Reduction.

Employers Flatly Refuse to Meet in Mediation.

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Aug. 2.—Threat of a strike involving 20,000 California oil field workers September 1 unless operators cancel a recent wage reduction of $1 daily and meet with representatives of the oil workers and the Federal Mediation Board was met tonight with a flat statement by F. L. Bell, chief vice-chairman of the California oil operators, that the oil operators would not be a party to the proposed meetings.

"The agreement entered into with the workers a year ago expires August 31," Mr. Bell said, "and it will not be renewed. The schedule of wages and hours will not be changed but the $1 added to the wage of each worker on July 1, 1920, and which was allowed to help offset high living costs, will be canceled because we believe economic conditions have changed and the cost of living reduced.

"We see no reason for making a new agreement. The existing agreement with the workers was a war measure and the war has ended. There is no reason why we should meet with the Federal mediators as there is nothing to mediate."

Today the oil workers sent telegrams to President Harding, Secretaries Hoover and Davis, in which their grievance was set set forth and a determination expressed to force the operators to "recognize the Federal government," by meeting with the workers and the mediation board.

C. T. Cornell and E. P. Marsh, Federal mediators, announced that no statement would be forthcoming from them.

INFLUENCE SOUGHT.

The administration heads were asked in the telegram to use their good offices to compel a different attitude on the part of the operators.

Federal mediators here are said to be preparing to leave the city. The council members will remain to await a reply to their telegrams before taking further action.

REBUFF RESENTED.

The council advised the administration chiefs that the workers were not opposed to a wage reduction that would be in keeping with changed economic conditions, "but the rebuff offered the government by the operators when they refused to meet with the Federal mediators was resented," Harry Baker, a vice-president of the International Oil Workers' Union, said. The council continued its meeting after sending the telegrams. Some of its members announced that strike plans were being perfected.

The present agreement, which the operators seek to abrogate, "is the only bona fide open-shop agreement in the country as it permits non-union workers all of the privileges granted union men," Baker said. The doing away with this agreement not only would lower wages, but would remove the machinery for settling disputes in the field, he said.

MEET WITH OPERATORS.

[BY A. P. DAY WIRE.]

BAKERSFIELD, Aug. 2.—Sixteen members of the local district council of the California oil workers' union, with sixty witnesses who are prepared to testify as to living and wage conditions in the oil fields, are in San Francisco today to meet with oil operators, it was announced here by J. B. Spear, secretary of Kern River local, No. 19, of the oil workers' union, who last night received a telegram from R. H. Fraser, a member of the council, advising him not to be "disturbed" by press reports of a wage cut, pending official advice from the district council.

The local district council is composed of representatives of sixteen oil union locals, including those of Kern River, Maricopa, Taft, McKittrick, Fellows and other fields in this vicinity. E. B. Daniels of Bakersfield is secretary of the council.

BELIEVE THIS IF YOU WANT TO.

Ship Officers Bring Novel Fish Yarn to Startle Gullible at San Diego.

[BY A. P. NIGHT WIRE.]

SAN DIEGO, Aug. 2.—Officers of the American freighter Steel Mariner, in port from New York, declare that off the Mexican coast they saw a school of whales employing the tactics of naval aircraft and destroyers while hunting porpoises. They say that the whales attacked their prey in a flying V formation and threw great streams of water into the air somewhat in the same way that a smoke screen is used by Navy craft. The whales, led by a huge grayback, kept in perfect formation until they had swept down on the porpoises the Steel Mariner's officers say. They watched the novel battle for an hour, but did not wait to see which side won.

GRANT ESPEE PERMIT TO CANCEL TRAINS.

EIGHTEEN TO BE TAKEN OFF ON AUGUST 21; TWO FROM LOS ANGELES AFFECTED.

[BY A. P. DAY WIRE.]

SAN FRANCISCO, Aug. 2.—The Southern Pacific Company was advised by the State Railroad Commission today that it could cancel eighteen trains on August 21, in response to its petition that it be allowed to cancel twenty-one trains in the interest of economy. The company contended that the traffic carried by the trains was not sufficient to justify their continuance.

That portion of the petition which asked for the discontinuance of the Stockton Flyer, between Oakland and Stockton and two trains between Oakland and Porta Costa was denied. The trains which the commission allowed the company to discontinue are:

Numbers 30 and 43, between Sacramento and Gerber, Sacramento county, by way of Willows, 128 and 129, between Oakland and Avon, Contra Costa county, 44 and 81, between Bay Point, Contra Costa county, and Tracy; 538 and 539, between Oroville and Sacramento; 61 and 62, between Sacramento and Placerville; 129 and 130, between Barrington, Colusa county and Orland; 33 and 84, between San Luis Obispo and Santa Margarita, San Luis Obispo county; 91 and 92, between Los Banos, Merced county, and Tracy; 35 and 36, between Los Angeles and Saugus, Los Angeles county.

The company announced that it will make every effort to make up for the canceled trains by ordering more frequent stops by other trains in the areas affected.

WOMAN WOULD SIT IN FATHER'S CHAIR.

MRS. WINFIELD HOUCK SEEKS TO SUCCEED REPRESENTATIVE MASON.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Aug. 1. — Mrs. Winfield Mason Houck of Chicago, daughter of the late Representative William E. Mason, continued efforts today to interest Republicans in her desire to succeed her father as member of Congress-at-large from Illinois.

After President Harding last week told Mrs. Houck to "go to it" when she talked to him of her political ambition Mrs. Houck began a round-up of the Republican delegation from Illinois. She completed that round-up today and announced it to be a complete success.

"All the Republican members from Illinois are for me," she said. "I am going to run for member-at-large for my father's unexpired term and after that for the regular term."

OFFICERS OF COAL EXCHANGE INDICTED.

BALTIMORE CONCERN CHARGED WITH MAKING PRICE MONOPOLY IN ANTHRACITE.

[BY A. P. DAY WIRE.]

BALTIMORE, Aug. 2.—The officers, directors and individual members of the Baltimore Coal Exchange were indicted by the grand jury today, on charges of making a monopoly through a combine to manipulate and fix the price of anthracite coal.

The evidence placed before the grand jury by State's Attorney Leach indicates that the alleged combine was formed last August 15.

The indictment avers that 90 per cent of the coal dealers in Baltimore are members of the coal exchange and are parties to a combine or trust for the manipulation of prices. Twenty-six men, including Hugh C. Hill, president of the exchange, were named by the grand jury as parties to the alleged monopoly.

TWO HELD AFTER TRAIN DERAILMENT.

[BY A. P. NIGHT WIRE]

DETROIT, Aug. 2.—Two men were being held for investigation here following derailment early today, at Inkster, fifteen miles west of here, of six coaches of a westbound Michigan Central passenger train and the overturning of its engine. The men gave their names as Martin Yaskl, and Alexander Schults of Dearborn, a suburb of Detroit.

Two trainmen and a passenger were injured, none seriously.

Investigation showed that the rails of the westbound track had been tampered with.

THIS very reasonable prices at Gus Mann's Pet and Steer Grill, 611 South Spring, will both surprise and please you.

RATES CUT TOO FAST TO SUIT COMMISSION.

[BY A. P. NIGHT WIRE]

WASHINGTON, Aug. 2.—Freight-rate reductions on Henry Ford's Toledo, Detroit and Ironton Railroad have been made too rapidly to comply with the regulations of the Interstate Commerce Commission. His application to file a tariff reducing by 20 per cent the rate on stone from Sibley, Mich., to Detroit, was for this reason denied today by the commission. Mr. Ford put into effect a reduction on July 15 of 9 cents a hundred on this traffic and under regulations thirty days must elapse before additional reductions can be made in the same traffic.

FORMER WHITE SOX PLAYERS ARE FOUND "NOT GUILTY" OF CONSPIRACY.

SEALS BATTLE TIGERS TODAY.

Emick Expects to Furnish Stiff Competition.

Portland Enjoys a Lengthy Winning Streak.

Coast Plucked from Coast League Circuit.

BY HARRY A. WILLIAMS.

[illegible] in this league yesterday [illegible] to the whaling which [illegible] handed Salt Lake, [illegible]. If true, is important only [illegible] it represents Portland's [illegible] winning streak of the season.

[illegible] big doings will be resumed [illegible] in general, and here in [illegible], when the Vernon Tigers [illegible] unravel the San Francisco [illegible].

TRAVEL SORE.

[illegible] teams are scheduled to arrive [illegible] this morning, a bit travel [illegible] ambitious.

The Tigers have been playing under [illegible] of handicaps the past week, but with Hughie High ready [illegible] to the game, Bill Essick [illegible] able to confront the league leaders with a more formidable batting [illegible].

Opinions vary regarding the San Francisco club. At least two skilled baseball men, big league scouts, have pronounced them the best minor league club in the country. Others [illegible] point out that the Seals [illegible] their present lead, and then [illegible] three soft series with Portland, in which they took twenty games and lost only one. No team, minor or major leaguer, could do much more than that.

OFF THE WEAKER.

Incidentally, pennants are won as a rule of the weaker clubs, and it is proved business-like club which [illegible] such opportunities. In passing it may be remarked that the Seals have lost only four series this season—two to Los Angeles, one to Portland and one to Oakland.

Charley Graham's club has amply demonstrated that it isn't a bloomer [illegible] increasing the lead which it [illegible] up early in the season. [illegible], we doubt whether it can be [illegible], although the tough schedule [illegible] of the Seals opens possibilities for a close finish.

San Francisco has won eleven out of [illegible] games from Vernon, but

(Continued on Second Page.)

PUGS MILL TO A FAST DRAW.

Dundee and Gastine Dish Up a Nifty Scrimmage.

Thompson and Murphy Please Fans in Opener.

Excellent Card of Fisticuffs at Doyle's Arena.

There was a main event dangling on both ends of Jack Doyle's fight bill out at Vernon last night. The scheduled headline event turned out well ahead of advance notices, when Jimmy Dundee and Henry Gastine tore through four rounds to a draw.

Equally dazzling was the opening show put on by Young Thompson and Frankie Murphy. First bouts are usually intended to merely whet the fight fan's appetite, but this scrap left the crowd wondering if anything better could possibly be on the slate. Frankie Murphy was rightly given the decision on points, although he had been knocked down in the third canto.

FIRE EATERS.

Both of these chaps in fight No 1 were fire-eaters, and didn't believe in wasting any time in getting down to business. They fought toe to toe for four rounds, and what they lacked in boxing class they made up in willingness and ability to swat. Many thought that the battle should have ben a draw, but the decision was just about correct.

Gastine and Dundee are a pair of wicked young men and pasted torrid blows all over each other's anatomy in the final event. Gastine appeared to have a shade in the second and fourth rounds, but it was a very slim shadow and the up-sticks verdict was satisfactory.

TERRIBLE DRAW.

Gus Williams and Jimmy Berry fought a terrible draw. Tommy Chapple beat Ted Frenchie in a rather lively scrap. Mike Doll did some awful things to Johnny Cline and won a decision. Cline is a great one-round fighter, but the four-round pace is too long for him. Young Papke won neatly and all the way from Mike Dundee. Sal Carlo defeated Steve Dalton in a clumsy slugging match.

JURY BRINGS IN VERDICT IN FAVOR OF BLACK SOX.

Former Chicago American League Players Are Exculpated on Charge of Conspiracy.

[BY A. P. NIGHT WIRE.]

CHICAGO, Aug. 2.—The seven former White Sox baseball players and two others on trial for alleged conspiracy to defraud the public through throwing the 1919 world's series tonight were found not guilty by a jury.

The verdict was reached after two hours and forty-seven minutes of deliberation, but was not returned until forty minutes later, Judge Hugo Friend being out of court when the decision was reached.

The defendants were: Buck Weaver, third baseman; Oscar Felsch, outfielder; Charles Risberg, shortstop; Arnold Gandil, first baseman; Claude Williams and Eddie Cicotte, pitchers; Joe Jackson, outfielder—all former White Sox players—and Carl Zork of St. Louis and David Zelcer of Des Moines.

Announcement of the verdict was greeted by cheers from the several hundred persons, who remained in court for the final decision and shouts of "Hurrah for the clean Sox." Judge Friend congratulated the jury, saying he thought it a just verdict.

BY BOTH HANDS.

Eddie Cicotte was the first of the defendants to reach the jurors. He grabbed William Harrett by both hands, shouting his thanks.

Joe Jackson, Claude Williams and the others were close behind, and the jurors lifted them onto their shoulders while flashlight photographs were taken.

Bailiffs vainly pounded for order, and, finally, noticing Judge Friend's smile, joined in the whistling and cheering. Hats sailed high in the air, papers were thrown around and the court-room was the scene of the wildest confusion in any recent Cook county criminal case.

As the jurors filed out of the room, they were slapped on the back and shouted congratulatory words by the spectators.

OUT OF CITY.

Judge K. M. Landis, commissioner of baseball, was out of the city and could not be reached to give his views on the acquittal.

B. B. Johnson, president of the American League, and Charles A. Comiskey, owner of the White Sox, were at their homes, but could not be reached because of the lateness of the hour.

The defendants, on hearing the nine verdicts, when read by the clerk, gave vent to their feelings in varied manner. Throughout the hours the jury deliberated, the men had paced up and down at times, gathered in groups to quietly discuss the case or remain secluded.

Buck Weaver and Swede Risberg were the most excited over the verdict, grabbing each other by the arms and shouting in their gladness.

Felsch and Williams merely smiled, while Joe Jackson took the decision quietly. Gandil shook hands with a few friends, and quietly slipped from the court-room.

JACKIE'S GOOD-BY.

"I'll give a sailor's farewell to Ban Johnson," said Gandil. "Good-by, good luck and to --- ---- with you."

"I am glad to be cleared," said Weaver, "and I'm glad the public stood by me until the trial was over."

Williams termed a "true one" said he was proud to have come through clean.

Cicotte and Risberg rushed to the telegraph to notify their wives.

David Zelcer will return to his home in Des Moines immediately and Carl Zork plans to leave for St. Louis tomorrow.

Henry Berger, defense counsel, termed the verdict a "complete vindication of the most mistreated ball players in history."

The State's attorneys were silent.

CHICAGO, Aug. 2.—The baseball case was placed in the hands of the jury in a special session of the court tonight after Judge Friend had instructed the jury.

Closing arguments were concluded this afternoon when George Gorman, assistant State's attorney, informed the jury briefly that in his opinion the State had presented such a conclusive case that a lengthy address was unnecessary.

MUST PROVE.

Judge Friend in his instructions, told the jury that the State must prove that it was the intent of the Chicago White Sox players and others charged with conspiracy to defraud through the throwing of the 1919 world series, to defraud the public and others and not merely to throw the baseball games. The case went to the jury at 7:52 p.m.

Those indicted by the grand jury follow:

Eddie Cicotte, former star pitcher for the White Sox.

Claude Williams, former White Sox pitcher.

Arnold ("Chick") Gandil, former first baseman.

Charles ("Swede") Risberg, former shortstop.

George ("Buck") Weaver, former third baseman.

Joe Jackson, former outfielder.

Oscar ("Happy") Felsch, former outfielder.

Abe Attel, former pugilist and alleged gambler.

Hal Chase, former baseball player.

William ("Bill") Burns, former player and alleged go-between.

Rachael Brown, alleged New York gambler.

John J. ("Sport") Sullivan, alleged Boston gambler.

David Zelcer, Des Moines, Iowa, advertising man and alleged gambler.

Louis Levi and Ben Levi, brothers, of Kokomo, Ind.

Carl Zork of St. Louis.

LEVIS DISMISSED.

When the trial began it was discovered only seven of the indicted ball players were apprehended. They were Cicotte, Williams, Gandil, Weaver, Risberg, Felsch and Jackson. Only four of the alleged gamblers, the Levi brothers, Zork and Felzer were apprehended. After the State had finished its case, the prosecution voluntarily dismissed the charges against the Levi brothers because of lack of evidence.

The defense, led by Attorney H. H. Berger, then moved to dismiss the cases against Zork, Weaver and Felsch. Judge Friend indicated he would not allow a verdict to stand against these men, but the

(Continued on Third Page.)

YACHT CIRCLES ARE ALL AGOG.

Santa Barbara Regatta Stirs Up Real Enthusiasm.

Promises to be the Biggest Thing in South's History.

Four Days of Racing Booked in Channel Waters.

BY PAUL LOWRY.

As far as Admiral Albert Soiland, fellow members of the Southern California Yachting Association and their boats are concerned Los Angeles won't even exist next week.

Every sloop, yacht, schooner, ketch, catboat and motorboat in the South is riding the waves to Santa Barbara to participate in the biggest regatta that has ever been held in Southern waters.

THE VERY FIRST.

It is the first time in history that the yacht clubs hereabouts have joined hands in an open meeting, and unless all omens fail it will be the means of bringing yachting enthusiasm to the highest peak in Southern California.

Yachting suffered more perhaps from the war than any other sport. The young fellows drifted away to sail before Uncle Sam's masts, sold their boats for a song and when they came marching home prohibitive building costs prevented them from rushing right out and buying other water craft. And so the interest in the game has lapsed to the extent that it needs just such a tonic as will be dished up in Channel City waters next week.

BIG BUGS.

To indicate the tremendous amount of enthusiasm already taken in the program, Admiral Soiland said yesterday that one of the big ships, Yale or Harvard, might be chartered to carry several prominent persons to the scene of action.

One of the government's Eagle boats in all probability will accompany the flotilla of boats which leaves the Los Angeles Yacht Club moorings next Saturday morning, and it is expected to carry the hawk-eyed sleuths of the press.

According to the advance estimates of Admiral Soiland, who will sail the Viking IV, beautiful flagship of the mosquito fleet, to Santa Barbara the newly organized S. C. Y. A.'s first regatta will have an entry list of over fifty boats. Already the admiral has received the entries of thirty from the Los Angeles Harbor Yacht Club and Newport Harbor Yacht Club, and this doesn't include those from San Francisco, San Diego or the Los Angeles Harbor Motorboat Club.

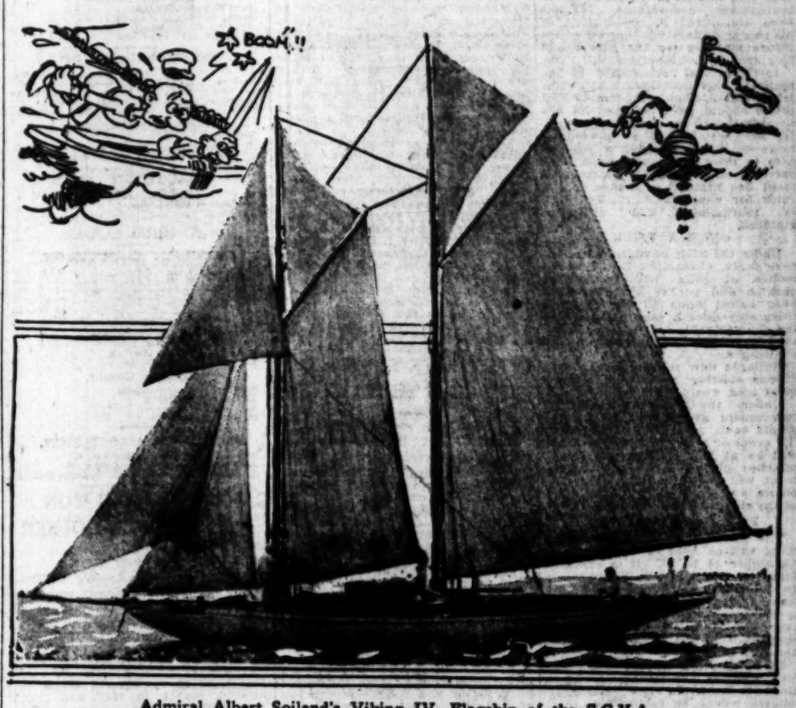
From the latter organization the admiral expects anywhere from ten to twenty-five of the fastest skimming creations in the South. Commodore Dustin Farnum will head the delegation of step planes of the Motorboat Club in his speed hound, the Ding, and Ed Featherstone will have his glistening Rainbow in the vanguard.

WON'T MISS IT.

Bill Paden of Balboa doesn't intend to miss any of the fun, and will

(Continued on Second Page.)

Kingpin of Southern California Yachts.



Admiral Albert Soiland's Viking IV, Flagship of the S.C.Y.A., Which will head the parade of the fifty-odd craft to participate in the monster regatta at Santa Barbara next week. This will be the newly organized Southern California Yachting Association's first attempt at staging a regatta, but, judging by the massive list of entries Admiral Soiland has received, nothing that Boats will be left at home.

COMMISSION REFUSES PERMIT FOR BIG BOUT.

[BY A. P. NIGHT WIRE]

NEW YORK, Aug. 2.—The State Boxing Commission today refused to permit Bryan Downey and Johnny Wilson, middleweight champion, to box in this State unless they settle in another bout the controversy which arose as the result of their recent contest in Cleveland, when Wilson was awarded the referee's decision on a foul.

YACHT LOST IN RACE FINALLY MAKES PORT.

[BY A. P. NIGHT WIRE]

KINGSTON (Ont.) Aug. 2.—Confirmation was received late today of a report that the Whirl of the Hamilton Yacht Club, the last craft unaccounted for in the Hamilton-to-Kingston run, that started Saturday, had put safetly into Olcott, N. Y.

INDIA'S NET STARS ON WAY TO AMERICA.

[BY A. P. NIGHT WIRE]

NEW YORK, Aug. 2.—India's Davis Cup tennis team will arrive here on the steamer Carmania, August 8, the United States Lawn Tennis Association was advised today.

PUGS MUST FIGHT AGAIN.

[EXCLUSIVE DISPATCH.]

NEW YORK, Aug. 2.—The New York State Athletic Commission in passing judgment this afternoon on the recent fracas in Cleveland between Johnny Wilson, the middleweight champion, and Bryan Downey, decided that John and Bryan must step out and do it all over again before they will be permitted to show their wares in New York.

Incidentally the commission in a statement issued decreed that a referee's decision is final, which would indicate that the local commission has no intention of concurring with the Cleveland boxing board, which overruled the decision of the referee in the bout between Wilson and Downey and declared Downey the champion middleweight.

According to the ruling of the New York board neither Downey nor Wilson will be permitted to box here against any opponent until they have another match with a satisfactory ending. This action would prevent Tex Rickard in his efforts to match the two boys here until the difficulty is straightened out to the satisfaction of the commission here.

RAIN STOPS GIBBONS BATTLE WITH RATNER.

[BY A. P. NIGHT WIRE]

NEW YORK, Aug. 2.—The ten-round match between Mike Gibbons of St. Paul and Augie Ratner of New York, set for tonight in an open-air arena, has been postponed until Thursday night because of rain.

BOUTS POSTPONED.

[EXCLUSIVE DISPATCH.]

NEW YORK, Aug. 2.—The four ten-round bouts which were scheduled at Dyckman Oval tonight were postponed until Thursday owing to heavy rain. Mike Gibbons and Augie Ratner, the contestants in the main bout, are anxious to get started.

PIRRONE VS. THE GIANTS.

The Alexander Giants, who have been going great guns lately, will take on a tough proposition next Saturday and Sunday, when they hook up with Joe Pirrone's high-class semi-pro team at the Giants' park, Thirty-second street and Long Beach avenue. Pirrone, who will pitch Sunday, has won nine straight games in the box, and will be pitted against Johnny Baugh, who has thirteen straight wins to his credit.

A humdinger contest can be looked forward to. Pirrone's team is made up of a fast, hustling bunch of young fellows, as follows: Leon C. Pirrone, pitch; Ferraris, first base; Sheritt, second base; Stoloff, shortstop; Wilson, third base; Davis, left field; Rose, center field; Samis, right field; Hillman will be in the box on Saturday. The two teams will play a series of games, and as rivalry runs high between them, the games should be hotly contested.

BOXING CLUB UNDER BAN.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 2.—The New York Boxing Commission today formally revoked the license of the International Sporting Club because of the disorderly manner in which the Herman-Lynch fight recently was conducted at Ebbets Field, Brooklyn. Specific charges against the club were not preferred by the commission.

The sporting club was notified last week to appear before the commission today for a hearing. In answer to the summons the club returned its license stating it would hold all its future bouts in New Jersey.

Officials of the club declared that the conduct inside the arena was on the whole orderly and disclaimed responsibility for what occurred outside the grounds, alleging it was not responsible if too few police had been detailed.

Two hours after the appointed time today, Tex O'Rourke, representing the club, appeared before the commission. He was notified that the license already had been revoked. He made no protest, intimating however, that his club was seeking a renewal of the license at a future date.

JESS MAY MEET JACK.

[BY A. P. NIGHT WIRE.]

TOPEKA (Kan.) Aug. 2.—Jess Willard today said he had received a telegram from Tex Rickard asking for terms for a bout with Jack Dempsey, world's heavyweight champion pugilist, and will take the matter up with Rickard at once.

"I will wire my answer today, but probably no definite terms will be named until we have some negotiations back and forth," said Willard. "I will want four or five months for training. I am anxious to fight Dempsey and Rickard is my choice for promoter.

"I probably will do some training at my home near Lawrence in case I enter into a contract to fight Dempsey, and may do most of it on the Coast, at Los Angeles probably. I have my Lawrence property on the market and expect to make my home in California if I sell."

Willard said he also would wire his former manager, Ray O. Archer, to open negotiations with Rickard and indicated Archer will act as his agent in drawing a contract for the proposed bout.

TOPEKA (Kan.) Aug. 2.—Jess Willard of Lawrence, Kan., former heavyweight champion, tonight sent two telegrams to New York asking Tex Rickard, promoter, and Ray O. Archer, Willard's business manager, to hold a conference. The telegrams were in response to Rickard's message last night asking Willard how long it would take him to get into condition to fight.

The Largest Retailer of Shoes West of Chicago

The Greatest Shoe Sale in Los Angeles

$5.85

5557—Here is a wonderful shoe investment. English model of mahogany calfskin, single oak tanned sole, and rubber heel attached. $7.50 value.

Willie Hoppe, Billiard King, to Play in Annual Tourneys; St. Louis Crowns Boston Twic

CHAMP ALTERS HIS DECISION.

Hoppe, Cue Monarch, Will Play in Tournaments.

New Rules Have Been Made in Games for Title.

Next Contest for Emblem to be Held in Chicago.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 3.—Willie Hoppe, world's champion billiardist, does not intend to withdraw from tournament competition, it has been announced in explanation of his recent declaration that all of his future matches for the title would be played on a winner-take-all basis.

In the annual tournaments Hoppe realizes his manager, R. B. Benjamin stated, that second and third prizes should be given, and he has no objection to the tournament rules. He has established a precedent, however, by appearing a willingness to meet all comers on a winner-take-all basis, and his announcement has brought a change in the rules for championship play, both in tournament and challenge matches.

ONCE A YEAR.

Under the rules in vogue for about four years, champions in the three modes of play, balkline, three-cushion and pocket billiards, have been called upon to defend their titles only once a year and then in the championship tournaments. They were not expected to entertain any challenges.

Billiards now returns to the conditions existing before the tournament idea was adopted.

Under the revised conditions tournament games will be at 400 points each, as in the past, but in the event of a tie the deciding game will be at 800 points. Challenge matches played after the tournament will be at not less than 500 points, and at as many points more as the rival players may agree upon.

FOR WORLD'S TITLE.

The next championship tournament will be held at Chicago from November 14 to 19. It is expected that the meeting will be more of an invitation affair with only the leading balkline players requested to complete. The tournament this year probably will be for the world's championship rather than for the national title.

In announcing further conditions for Hoppe's challenge matches, Manager Benjamin stated that challengers would be required to post as a side bet, $1000 for every 1000 points comprising the match.

REGATTA STIRS YACHTING FANS.

(Continued from First Page.)

go snorting up to Santa Barbara in the Hurricane.

Commodore Claude Putnam's Newport Harbor crew of fourteen or fifteen boats are to leave the home moorings Saturday morning at 9 o'clock. They are to race to the scene of action, but not by sail alone. The course is a dead beat all the way and unless there are invigorating breezes it will take two days to get there. To avoid any such stalemate the boats will race catch-as-catch plan, using both sail and power, and there will be special prizes for winners in each class.

The schedule at Santa Barbara calls for a full week of sport, August 7-13, inclusive.

SOME SCHEDULE.

Monday will be given over to trimming ship, getting acquainted and the arrangement of the racing schedule, Tuesday, Wednesday, Thursday and Friday are set aside for four days of racing. Friday night comes the grand ball and finale of the official regatta, and on Saturday there will be a fleet cruise to Santa Cruz Island and a grand slam for home ports.

Entries already received by Admiral Soiland follow: Spray, Ansemone, San Juan, Jubilo, Ardath, Wasp, Trilby, Caprice, Alert, Irene, Hana, Albicore, Gretchen, Iris, Dreamer, Billiken, Joy (Commodore Claude Putnam of the Newport Harbor Yacht Club;) Hawaie, Loafer, Spindrift, Mischief I, Mollilou, Trojan, Corsair, Comfort, Henrietta, Lady Luck (Commodore Walter Brown of the Los Angeles Yacht Club;) La Sirena, Uneas, Viking IV (Admiral Albert Soiland;) Hurricane, Rainbow and Ding (Commodore Dustin Farnum of the Los Angeles Motorboat Club.)

INTERSTATE TOURNEY REACHES THIRD ROUND

[BY A. P. NIGHT WIRE]

SIOUX CITY (Iowa) Aug. 3.—Play in the seventh annual interstate tennis tournament being held here advanced to the third round in the singles event today. Few upsets occurred during the day's play, the defeat of A. R. Dickinson of Kansas City, by W. F. Hanson of Sioux City, being the only surprise afforded the gallery.

Harold Godshall of Los Angeles, joint holder of the national junior doubles championship, and Harry Coffin, also of Los Angeles, who will pair with Godshall at the national tournament in Boston, had little trouble in winning their way to the third round. Should Coffin defeat R. M. Enright of Deli Rapids, S. D., in his third round match tomorrow, he probably will meet Wray Brown of St. Louis in the fourth round.

Play in the doubles and juniors tournament will start tomorrow.

CANADIAN TITLE WON BY DETROIT GOLFER.

[BY A. P. NIGHT WIRE]

TORONTO, Aug. 3.—W. V. Trovinger of Detroit, today won the Canadian open golf championship with 293 for the seventy-two holes. Mike Brady, also of Detroit, was second, with 296.

It was the third consecutive year that the event was won by an American, as J. Douglas Edgar of Atlanta, won it in 1919 and 1920. The cards for the leaders were: Trovenger, 149-144—293; Brady 148-148—296.

NATIONAL LEAGUE.

NEIS'S SWAT WINS.

[BY A. P. NIGHT WIRE]

CINCINNATI, Aug. 3.—A batting rally in the ninth won for Brooklyn over Cincinnati today by 4 to 3. Myers and Schmandt singled. Hood running for Schmandt. With two out, Taylor singled and Janvrin ran for him. Neis, then batting for Cadore, sent in the tying and winning runs with a drive to left. Score:

SEALS TO MEET TIGERS TODAY.

(Continued from First Page.)

Essick, with an eye on the first division, hopes to have this standing on more of fifty-fifty basis by the end of the present brawl.

According to the latest quotations, base hits are worth only about a dime apiece. Batters with a percentage of .300 or better are as plentiful as fleas on an orphaned pup in hot weather. Statistical columns are common carriers of .300 percentages.

This plentitude is as marked as was the paucity of such averages a few years back. One season, I believe, the Coast League did not boast one .300 hitter among the regulars, and five or six probably was the average.

Some attribute the change to inferior pitching, due to the elimination of trick deliveries, and others claim to discern in the situation a livelier ball. Still harsher critics claim that the present crop of pitchers are not the equal in arm or head of the old-timers, but one is inclined to be skeptical regarding these comparisons of the past and present.

Baseball should have advanced. Isn't it just possible that the game as a whole is now played so well, and the right play at the right time of such common occurrence, that it is accepted as a matter, of course, and that in the old days smart plays were so rare that they stood out? That is not a statement of fact, but a question.

However, most of the managers, who come out of the older school, maintain that few players devote the same thought and effort to the game as those of a decade ago.

Regarding claims of a livelier ball, Julian Curtis, president of A. G. Spalding & Bros., makes the following statement to John A. Heydler in reply to a query from the president of the National League:

"Permit me to state most emphatically there has been no change in the manufacture of this ball. The rubber and cork center we make ourselves, and it has remained unchanged since this great improvement was introduced into baseball. The leather, as usual, is the most carefully selected horsehide, and is tanned in exactly the same way that it has been for twenty-five years. Every yard of the yarn is spun in our own yard mill. It is possible that the quality is a trifle better than last year. There is nothing of the freak about this ball."

Release of Rube Benton by the Giants marks the passing of a unique figure from the majors. Benton was a characteristic left-hander, and temperamental in the extreme. Viewed in action at a little distance he struck one as almost a double of Harry Ables, formerly a headliner on the Coast. They were approximately the same size, very alike in delivery, and both had the same tremendous curves.

Benton, like Ables, had the trick of occasionally breaking the ball down so sharply, that it struck the ground in front of the plate. This was most noticeable early last season. In short, at that time, Benton seemed to be having difficulty in putting the necessary amount of stuff on the ball and still making it carry to the catcher. Later, he got started and pitched some sensational ball, particularly when he defeated Earl Hamilton in seventeen innings, in Pittsburg, last August. On this same road trip the writer saw Benton allow Cincinnati twelve hits and still shut them out. The major league record, I believe, is thirteen hits and a cipher.

MOONLIGHT GOLF FAD IN DEL MONTE.

[BY A. P. NIGHT WIRE]

DEL MONTE (Cal.) Aug. 3.—Moonlight golf is here the latest fad. It was started recently when one player bet another it was impossible for his opponent to play nine holes in the moonlight without losing a ball. Under the full moon, all nine holes were played, no ball was lost, and now several couples have taken to the links on clear moonlit nights.

Mormons Are Belted Hard by Portland.

[BY A. P. NIGHT WIRE.]

PORTLAND, Aug. 3.—The suddenly rejuvenated Beavers made it three straight wins today by defeating Salt Lake, 7 to 4. It was the first time this year that Portland has taken three games in succession. Both Polson and Kallio, former Beaver flingers, were greeted enthusiastically by their old teammates, who pounded the ball hard. Score:

Why This Tidal Wave of Buying Overland Cars?

Men are buying them for business.

Families are buying them for pleasure.

All are buying them for *profit!*

Buying them for the immediate saving of $200.

Buying them for the consistent saving in upkeep, gasoline and tires.

Buying them because Overland averages better than 25 miles per gallon.

Buying them because Triplex Springs make Overland a *comfortable*, light car.

Because the all steel body—and its baked enamel finish will last for years—and look new for years.

Because the brakes and steering are safe, the controls are convenient—the starter and electric light are designed with the car.

Buying because the Overland fits comfortably with a million incomes and offers health and happiness to a million homes.

SAVAGE TIRES
HISTORY OF THE RED MAN SERIES

THE FIRST MASKED BATTERY

BY "INDIAN" MILLER

Much of the history of early days in our Far West has not been written. We recall the days when the picturesque prairie schooner creeped across the landscape of the west; and uneasy Indians watched the encroachments of civilization. They saw in those long trains of vagrant schooners of the paleface a menace to their peace and their happiness. They moved their squaws and their papooses back from the traveled trails into secure strongholds, in preparation for the wars they knew could not be averted. They knew the paleface's firestick very well now; and they had obtained a few. They might capture more ammunition for their empty firesticks, and even more firesticks. They waited for the palefaces to open hostilities; watching them warily from a distance, just out of range of firesticks. They had never heard of fire-wagons (artillery).

One day the palefaces came, with many prairie schooners, drawn by cattle. Some of the schooners were different from any they had ever seen before; and the Indians were puzzled. The white men were anxious to try these firewagons; and so they demanded that the Indians bring them supplies of corn and meat, giving the Indians too short a time in which to comply. Indian scouts surrounded the wagon train at a distance to watch it.

And then the surprise! Noise like thunder. Noise twenty times as big as that of a firestick; and smoke like that of a hundred fires enveloped the camped palefaces. They began to shoot with wagons! The first shot hit between two Indian scouts who were reconnoitering. It was indeed a great surprise.

Even today the paleface likes to spring a surprise. The noise and din created by The Spreckels "Savage" Tire Company with their D type fabric tire had hardly cleared before the announcement of their new Cord tire told of a still greater achievement.

The ways of modern business are truly a series of surprise attacks. In releasing the Savage Cord a new standard for quality tires was set at which others will shoot. Withstand the attack this mighty tire will, for it is Built to Excel.

NEW TEES FOR TITLE MEETING.

Four Are Being Constructed for State Championship.

Added Distance Will Make Severer Golf Test.

Del Monte Whipping Things Into Splendid Shape.

[EXCLUSIVE DISPATCH.]

DEL MONTE, Aug. 2.—Work is progressing on the construction of four new tees that were recommended by the tournament committee of the California Golf Association for the State amateur championship on September 3 to 11.

The new championship tees will be at the ninth where fifteen yards will be added, the eleventh with approximatey thirty-five yards, the thirteenth with thirty yards and the eighteenth with sixty yards. The committee has also practically decided to use the long tees on the second and sixth, which will make respectively seventy and forty more yards.

By adding this distance it is figured that a more exacting test of golf will be presented to the candidates for the highest golfing honors of the season. A number of new bunkers and traps have also been put in since last year and the prediction is made that golfers will be agreeably surprised to note the extensive improvements that will be in evidence.

Perhaps the most radical change that has been made in the changing of the tees is at the eighteenth. It was contended last year that the eighteenth was a woefully poor finishing hole. A raised tee, however, is being put in sixty-five yards back and this will call for a shot over a rocky inlet of the bay. Two good shots will be required to get home whereas at the old hole any two kind of shots would have done the work. The eleventh and thirteenth will also be made more difficult and the long tees on the second and sixth will favor the high-class player.

The historic Del Monte course, which will be used in conjunction with Pebble Beach for the qualifying rounds has undergone many changes that have been highly complimented. The fact is the first nine holes are said to compare favorably with any in California. The thirteenth tee is also being moved back and this will correct the weakness in practically the only poor hole on the entire course.

Everything is going to be whipped into shape for the championship. The prospects are that a record entry will be received and no complaint will be forthcoming on the condition of the course.

COAST BATTING AVERAGES.

BY LEO MORIARTY.

Jim Caveney, San Francisco shortstop, climbed back into the lead over Coast League batters who have played in more than seventy games. Caveney today has an average of .366, having gained one point during the week.

Hack Miller lost nine points, his average now being .337. Jimmy O'Connell, sensational Seal first baseman, and Jack Knight, Oakland second baseman, are tied with marks of .333. Leaders of the other clubs are: Kenworthy, Seattle, .350; Brown, Salt Lake, .348; Hale, Portland, .342; Crawford, Los Angeles, .340; Schneider, Vernon, .337, and Ryan, Sacramento, .325.

Pete Compton failed to land a homer last week, but still leads with fifteen to his credit. He is closely followed by Knight of Oakland and Biglin of Salt Lake with thirteen each. Dixie Carroll leads in three-base hits with seventeen. McGaffigan of Sacramento leads in stolen bases with thirty-four.

The averages compiled to date are as follows:

CLUB BATTING.

Club—	G.	A.B.	R.	H.	2B.	3B.	H.R.	S.H.	S.B.	P.C.

JURORS ACQUIT ALL BLACK SOX.

(Continued from First Page.)

State insisted upon going to the jury with them.

The indictments on which the defendants were tried contained twelve counts, but the State dismissed three after presenting its evidence. The remaining counts charged:

TO OBTAIN MONEY.

Statutory conspiracy to obtain divers sums of money from divers persons by means and use of the confidence game.

Statutory conspiracy to obtain divers sums of money from divers persons by false pretenses and to cheat and defraud the same.

Common law conspiracy to injure the business and reputation of the American League Baseball Club.

Statutody conspiracy to obtain from the public generally and any individual whom the defendants might meet divers sums of money by means and use of the confidence game.

Statutory conspiracy to obtain from the public generally and any individual whom the defendants might meet divers sums of money by false pretense.

Statutory conspiracy to obtain from the public generally divers sums of money by false pretense and to cheat and defraud the same.

Statutory conspiracy to obtain from the public generally divers sums of money by means of the confidence game.

TO DEFRAUD.

Common law conspiracy to cheat and defraud the American League Baseball Club of large sums of money by causing and inducing the players improperly and erroneously and not in accordance with their skill and ability to execute plays re... of them.

Common law conspiracy to cheat and defraud Ray W. Schalk out of $1784 by causing the ball players not to execute plays required of them with their best skill and ability.

Prior to the trial, Abe Attell beat extradition proceedings in New York to bring him to Chicago. Hal Chase was arrested in California, but was never brought here. Ben Franklin, another of the defendants from St. Louis, became ill and could not be brought to Chicago for trial, while Fred McMullen, utility infielder for the White Sox, was not apprehended on the second indictment, although he gave bond on the first. Rachael Brown and "Sport" Sullivan were never apprehended.

During the trial, the name of Arnold Rothstein, an alleged New York gambler, was frequently brought out. It was charged he financed the conspiracy which was said to have originated in New York and was then consummated in Cincinnati and Chicago.

"Bill Burns," a defendant, turned State's evidence and took the witness stand to tell of the plans made to throw the games. He was corroborated by William Maharg of Philadelphia, who said he accompanied Burns on all of his alleged dealings between the ball players and the gamblers.

Burns asserted Cicotte and Gandil were originators of the scheme to throw the series for $100,000. According to Burns, Abe Attell, who was supposed to be the lieutenant of Rothstein, double-crossed the players and gave them only $10,000 of the promised $100,000.

During the trial the defendants' attorneys contended Ban Johnson, president of the American League, had instigated the prosecution because of a feud between himself and Charles A. Comiskey, owner of the White Sox.

During the trial it became known that the original confessions said to have been made by Cicotte, Williams and Jackson, along with the immunity waivers they had signed, had been stolen from the State's Attorney's office. It was charged eastern gamblers had made up a pot of $10,000 to obtain these documents.

OREGON AGGIES TO PLAY EIGHT GAMES.

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Aug. 2.—At least eight football games will be played by the Oregon Agricultural College team this fall, Kimmie Richardson, manager of athletics at the Corvallis (Or.) school, declared while here recently.

Mr. Richardson announced the Aggies' schedule as follows:

Oct. 1—Chemawa Indians at Corvallis.
Oct. 8—Multnomah Club of Portland at Corvallis.
Oct. 15—Willamette University at Salem.
Oct. 22—University of Washington at Corvallis.
Oct. 25—Stanford University at Stanford.
Nov. 11—Washington State College at Corvallis.
Nov. 19—University of Oregon at Corvallis.
Nov. 25—University of Southern California at Pasadena.

Wardrobe Trunks
Which Involve Many of the "Conveniences of Home"
Priced Surprisingly Low
at Barker Bros.

Here is a Wardrobe Trunk which is constructed to withstand long and hard service, being built of three-ply veneer wood, covered with heavy vulcanized water-proof fiber.

Among its many desired features for making careful packing easy are:

—Ten hardwood hangers.
—Continuous row of shoe pockets.
—Telescope trolley.
—Three-ply riveted-in partition between second and third drawers.

$64.00 is the price of this wardrobe trunk with SPECIAL LOCKING DEVICE and IRONING BOARD.

$59.00 Is the price of this same trunk with special locking device, but without ironing board.

$39.50 is the price of this trunk with ironing board, but without special locking device.

$34.50 is the price of this same trunk, minus the special locking device and the ironing board features.

Barker Bros.' Trunk and Luggage department is the HEADQUARTERS for the BEST in traveling equipment. Trunks, Bags and Suitcases of all desired types, styles and sizes.

All Trunks Guaranteed

The Flavor Lasts!

You'll get somewhere with a pipe and P. A.!

Start fresh all over again at the beginning! Get a pipe—and forget every smoke experience you ever had that spilled the beans!

For a jimmy pipe, packed brimful with Prince Albert, will trim any degree of smoke-joy you ever registered! It's a revelation! You never puffed such delightful, satisfying flavor; or, such fragrance! Why—you just want to eat the zephyry smoke—it's so fascinatingly good!

Put a pin in here! Prince Albert can't bite your tongue or parch your throat. Both are cut out by our exclusive patented process. So, just pass up any old idea you may have stored away that you can't smoke a pipe! We tell you that you can—and just have the time of your life on every fire-up—if you play Prince Albert for packing!

What P. A. hands you in a pipe it will duplicate in a home-made cigarette! Gee—but you'll have a lot of fun rolling 'em with Prince Albert; and, it's a cinch because P. A. is crimp cut and stays put!

Prince Albert is sold in toppy red bags, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

FOX STUDIO BUSY.

NEW DIRECTORS AND STARS ADD BRILLIANCE.

By Grace Kingsley.

They're certainly snapping into it over at the Fox studio these days. Two or three directors have just been added, and plans for extended production are going forward.

Winfield Sheehan, general manager of the Fox Film Corporation, is expected West about October 1, and Studio Manager Sol Wurtzel is preparing to show him what enterprise and industry will do for a picture studio.

Jack Ford, formerly of Universal, has just signed a contract with Fox, and is to direct Shirley Mason in her next offering. At present Miss Mason is spending her few vacation days getting new clothes, reading stories, and doing the other things which a picture star is required to do while popularly supposed to be resting, dancing and otherwise leading a butterfly existence.

Jacques Jaccard, recently signed with Fox, is directing Buck Jones in a western drama being filmed at Victorville. Jack Gilbert a recently made Fox star, is shortly to start a new picture under direction of Jack Dillon, with Jacqueline Logan playing the leading feminine role, and Richard Tucker playing second lead. William Russell is playing in a picture called "The Desert Shall Blossom," with Art Rossen directing, and Helen Ferguson playing opposite. In the cast are Charles Spear, Elsie Cooper, Wilbur Higby and Willis Roberts.

Barbara Bedford, recently made a star with Fox, is still looking for a story as her first vehicle. Howard Mitchell is to direct, and it is expected that a choice of three stories now in the hands of Fox readers will shortly be made.

A circus picture is the thing which Tom Mix has in mind for his next vehicle. He has discovered a small circus, "but enough for atmosphere," which is spending several weeks in and around San Bernardino, and this will be used in the picture. Of course Tony, Tom's horse, is in the picture. Eva Novak is playing the lead in his current picture.

Dustin Farnum is making a picture directed by Bernard Durning, with Mary Thurman playing opposite him. The picture is called "The Primal Law." Appearing in the cast are Philo McCullough, Rosita Marstini and others.

The picture will be completed this week, and just in time for Mr. Farnum to sail to Santa Barbara on his yacht "Ding," and take part in the great regatta which will be staged there next week. Farnum, by the way, is having a new motor boat built to replace the one which was burned several months ago. It will not be ready for use for another six weeks, however.

It looks as though there were another star in the making at Fox studio. She is Dulcie Cooper, 17 years old, and pretty as a picture, who has been doing such excellent work that she probably is to have a chance within a short time, say the Fox heads, to sign on the dotted line of a nice contract.

The young lady has been playing parts around the studios for several months. One of these parts was a role of a cripple girl in the Robertson-Cole feature, "Live and Let Live," directed by Christy Cabanne. The way she got the part is amusing. Miss Cooper, having been told she looked too young for pictures, did up her curls on top of her head one day, and went out to apply for the role in the Cabanne picture. "But you look too old for the part," declared Cabanne.

So she went home, said nothing, but next day let her curls down, went to see Cabanne again, got the part, and probably he doesn't know to this day that the little girl who got the cripple-girl role is the same person as the young lady whom he turned away the day before!

Tom Mix Saves His Wife.

Probably it isn't a bit romantic to save your own wife's life. But that's what Tom Mix did, the other day, when he and Mrs. Mix were in swimming down at one of the beaches. They had gone away from the crowds, and Mrs. Mix was floating on an improvised life-saving apparatus made from an inner tire tube, when the contraption suddenly burst. She was floating a long distance from shore, there was something of an undertow, and though she swims a little she doesn't do it well enough to make the required distance.

Tom Mix was swimming some distance away, but as she threw up her arms and called as loudly as she could, a cramp overtook her, and Mr. Mix might have been a fascinating widower today if he hadn't reached her just in time to haul her safely to shore.

Goldwyn Signs Miss Logan.

Looking at new faces, especially such new faces as are naturally furnished by picture girls can't be a very painful duty, under any circumstances; but when in addition those new faces are to be made to beam with joy at offer of picture contracts, why the duty becomes a very pleasant one indeed. So the casting director at Goldwyn is finding the job.

The latest pretty face to be made to so beam is that of Jacqueline Logan, who has just signed up to play leads in Goldwyn productions, her work to begin about the middle of September.

Clara's Dad in Pictures.

Bringing up father as a picture actor is the pleasant duty these days of Clara Kimball Young. Mr. Kimball, Miss Young's father, has been appearing in her pictures for some time. Now he is about to be launched in a Harry Garson Production in which he will be the featured player.

The picture will be a film version of "Old Man Proudie," and work on it is to be commenced in the near future.

Glen Anders Among Us.

That rising young star, Glen Anders, who used to speak pieces on Friday afternoons at the Los Angeles High School, but who went east to become a Broadway actor a few seasons ago, has achieved his purpose. Now he's visiting his parents here during his summer vacation, and isn't worrying a bit about an engagement for next year inasmuch as before leaving for the west he signed up a contract to appear in A. H. Woods's productions in New York next season.

Charlie Ruggles Visits Brother.

It's a lively time for the clan of Ruggles these days. Not only has Wesley Ruggles just returned from Mississippi, where he has been directing scenes for "Slippy McGee," but now he has been joined by his equally famous brother, Charlie Ruggles, musical-comedy star. Charlie Ruggles has lately come west to spend his vacation.

And it's always ladies' night when Charlie Ruggles is around.

While Mr. Wesley Ruggles was in Mississippi, filming his picture, his wife, known professionally as Virginia Caldwell, improved the shining hours by making personal appearances at the theaters in and around her home town of Detroit, Mich.

Ralph Graves Comes Home.

After two years' absence from Los Angeles, Ralph Graves, star of D. W. Griffith's "Dream Street," has returned to play the role of Donald McKaye in R. A. Walsh's photoplay version of Peter B. Kyne's "Kindred of the Dust." Mr. Graves arrived from New York yesterday.

Mr. Walsh has been negotiating with Mr. Graves for some time regarding the "Kindred of the Dust" role. Following his success in "Dream Street," the actor received innumerable offers from producers bidding for his services, but rejected all in order to be able to join the Walsh organization.

Robert Hichens to Write.

Robert Hichens, famous English novelist, is to write an original story for screen adaptation by Famous Players-Lasky British Producers, Ltd., according to word just received at the Lasky studio. Just what the story will be, of course remains to be seen. Many of his stories, including "The Garden of Allah," "Bella Donna," and others have been filmed, but this is the first time he has written directly for the screen.

Jack Holt's First.

Now comes Jesse L. Lasky, first vice-president of the Famous Players-Lasky Corporation, and announces that Jack Holt's first starring picture will be "The Call of the North." Joseph Henabery will be the director. The original is by Stewart Edward White, and the screen version will be made by Jack Cunningham.

Gloria to New York.

Flitting to New York in search of new clothes and in order to see new plays is the pleasant prospect to which Gloria Swanson is looking forward. Miss Swanson is just completing "Don't Tell Everything," at the Lasky studio.

"GIRL IN TAXI" REPEATS.

The first run of "The Girl in The Taxi," will be continued at the Alhambra Theater next Saturday, according to an announcement. The reason for the two-day showing at the Kinema Theater was the necessity of closing the house for remodeling and repairing. That a full first-run be accorded the comedy, it was immediately booked for the Alhambra screen.

STARLET IN PERSON.

Baby Peggy Jean, the 2-year-old pet of Century Comedies, will make a personal appearance at the Superba Theater this evening, with her pony, Tiny Tim. The starlet is scoring a hit in "Third Class Mail," the comedy which augments the feature attraction "Thunder Island," in which Edith Roberts is appearing. Baby Peggy Jean simply "hello'd" her way into pictures. She came into the Century offices one day and everybody fell for her on the spot. From then on she has been working steadily.

"SECOND HAND ROSE."

Oliver Wallace continues to delight at the Rialto with his organ rendition of "Second Hand Rose." The Rialto orchestra is playing an exit medley of considerable pep, including Sid Grauman's "Sweet Little Bon-Bon."

SANTSCHI FINISHES SIXTH.

Tom Santschi has just completed filming "The Spirit of the Lake," the sixth picture of his new series for Pathe release. The cast is practically the same as in his previous picture, "The Honor of Ramirez," including as principals, beside Santschi, Ruth Stonehouse, Bessie Love, Eddie Hearn and Tom Lingham. Bob Bradbury, as usual, wrote and directed, and Bert Longenecker photographed the picture.

TALKS THE LANGUAGE.

T. Roy Barnes, leading man for Ethel Clayton in "Exit the Vamp," says that the first time he saw a bag of golf clubs he laughed because he thought they were some new fangled kind of fishing tackle. "Now," he says, "I don't laugh at 'em, I swear at 'em." He has become an ardent golf fend.

Achieves Favor in Drama.

Leading Woman in Universal Films.

Gertrude Olmstead.

Tearful Skies Puts Damper on Racketers.

[EXCLUSIVE DISPATCH.]

NEWPORT (R. I.) Aug. 2.—Everything came to a complete damp stop, in the invitation lawn tennis tournament on the turf courts of the Newport Casino today and there was nothing for the players to do but sit around the casino in the forenoon, and listen to the rain falling, and their arteries harden. Never so dreary tragedy as a tennis tournament on a rainy day.

The sixteen men who reached the third round yesterday may be called upon to play two rounds of singles tomorrow to bring them into the semifinal round, and twenty-eight pairs will begin playing in the men's doubles.

The outstanding teams appear as Washburn and Williams; Johnston and Willis Davis; Craig Biddle and Sam Hardy; Vincent Richards and S. Howard Voshell; Robert and Howard Kinsey, and Ichiya Kumagae and Zenzo Shimidzu of Japan.

The first-named teams appear in the upper half and the other three in the lower section. Williams and Washburn and Johnston and Davis should meet in one semifinal, and probably Wallace Johnson and Nathaniel W. Niles and either one of the Richards-Voshell, Kinsey-Kinsey or Kumagae-Shimidzu, in the other.

The development in singles brought out by Monday's play has practically blasted the hopes of big Willis Davis of gaining a place on the Davis Cup team this year. The Californian's straight set defeat by Lawrence Rice, following his humbling by Niles at Longwood last week has been a severe blow to Davis, and only a sensational series of victories at Seabright, Southampton and Longwood, can pull him up from the ruck.

SENTENCED AS SLAVER.

Mexican Charged With Bringing Minor Niece to Los Angeles.

David Peralta, a young Mexican from Calexico, was sentenced to one year and a day in the Federal penitentiary on McNeil Island yesterday by U. S. District Judge Trippet, on his plea of guilty to a violation of the Mann Act.

It was shown that the young woman in the case, Refugio Castro, his niece, is but 16 years of age, and that he brought her to Los Angeles, where they lived together as man and wife. It was stated in court that she is about to become a mother.

CORPORATION SEEKS TO CHANGE ITS NAME.

The Culver-Hammel Corporation, Central Building, Sixth and Main streets, has applied to the State Commissioner of Corporations for permission to change its name to the Culver Corporation in view of the fact that the interests of M. J. Hammel and J. W. Sutphen have been purchased by the other members of the organization. E. J. Culver is president, R. W. Cox, vice-president and F. A. Lowe, secretary-treasurer of the corporation.

THREE YOUTHS HELD AS GIRL'S ASSAILANTS.

Three youths were held to answer yesterday by Justice Hinshaw on a charge of committing a statutory offense against Pearl Smith, age 15. They are Vernon Jones, Glenn Shortridge and Joe Cooper, all of Long Beach. Bail was fixed at $3000 and the defendants, except Jones, were committed to the County Jail in default of bail. Jones was allowed his liberty because he is the sole support of a widowed mother.

Good Reason.

Owens: I don't think I'll go any place this summer.

Oke: Why not?

Owens: Well, you see all my creditors have left town and I think the city will be just about as cool a place as I could strike.—[Boston Transcript.

RADIOS.

THEY'RE SERIOUS NOW.

SENNETT BEAUTIES HAVE TRY AT DRAMATIC FILMS.

By Edwin Schallert.

Comedy beauties need have little concern as to their future, even if the fun films should endure a steep depression, judging by the experience of three fetching young ladies of the Sennett studios. For said young ladies have found that even if there is no particular opportunity in their own line, the drama is ready to use their talents. They are Harriet Hammond, Mildred June and Kathryn McGuire.

Having already filled one or two other engagements in dramatic productions, Miss Hammond is now busy at the Metro studio. Miss June is taking part in the Selig special, "The Rosary," while Miss McGuire has just finished in the H. O. Davis picture, "The Cross Pull," adapted from Hal Evarts's novel.

It is well known that comedy training fits picture players very admirably for dramatic work. The line of progress is, in fact, generally from the humorous short-reeler to the serious five-reeler, though it is probable that all three of the comediennes will return to the Sennett studios in the fall, they now feel qualified to succeed in either the serious or the humorous photoplay.

In view of the fact that Mr. Sennett is anticipating more serious productions at his own studios, the training the girls have received during their "vacation" is expected to prove valuable to the organization as well.

Dexter at Goldwin's.

Quite an interesting announcement is to the effect that Elliott Dexter has joined the Goldwyn forces to appear in the leading role of "Grand Larceny" by Albert Payson Terhune. Mr. Dexter's association has always been with the Famous Players-Lasky company heretofore, he having played in a number of important pictures like "We Can't Have Everything," "The Squaw Man," "Don't Change Your Husband," and "Something to Think About." He has just finished an important role in "The Affairs of Anatol."

Muse Hovers Over Pageant.

The Pilgrimage Play is well supplied with poets, it would appear. No less than three of them are engaged in the production, their names being Don Travers, Jimmy Near and Charles Stevens. At this rate many ballades and roundelays should be written between scenes of the pageant drama.

Hazel Dawn in "Devotion."

Misunderstandings make many a motion picture but it takes a whole hornet's nest full to contribute to the plot of "Devotion," starring Hazel Dawn, which is showing this week at the Alhambra Theater. The feature is the main attraction on a bill which also presents for a second-run showing Harold Lloyd's comedy, "Among Those Present."

Were its story not so hopelessly involved, with everybody suspecting everybody else of something or other, "Devotion" would be a first-rate picture. The tangle doesn't smooth out very evenly, however, and you have to grope for a satisfactory solution.

Still the ground is laid for a very excellent drama in the opening episodes where the wife of the convict, thinking she is free, weds another man, and then learning her mistake, sacrifices her personal interests for the second husband by disappearing. Here was a theme that had possibilities, but it is lost to sight in a second plot which is developed about a young business man's jealousy of his wife.

Miss Dawn registers the poise of the experienced trouper. Her interpretation reflects the finest sincerity. E. K. Lincoln and others capably support her.

New Combining of Talents.

Josephine Hill, the blonde screen ingenue, is to have the leading feminine role with George Larkin, serial star, in "Man Trackers" next week at the Superba Theater. This will prove an interesting combining of talents.

The film story deals with the exploits of the Northwest mounted police.

Ray as Guest.

Charles Ray is to be honor guest Saturday evening at the reopening of the Kinema Theater, according to announcement by the management. The Kinema has been closed for remodeling and redecorating, and is to have a gala housewarming.

Stars of the screen and stage world, beside prominent studio officials and exhibitors from all over the country, are expected to be present.

Wins Difficult Role.

Colleen Moore has been selected to play the leading role in "The Wall Flower," Rupert Hughes original story, which is to go into production under the direction of E. Mason Hopper at Goldwyn studios. This is an unusual distinction because her selection follows the considering of nearly every available screen actress for the part. The difficulty in casting the role lay in the fact that the lead must be a wall flower at first but must later blossom out into a beautiful charming girl. Mr. Hughes and Mr. Hopper pronounced Miss Moore to be ideal.

Shannon Day has also been selected for an important part, that of the sister of the Wall Flower.

Arbuckle Normal.

Roscoe (Fatty) Arbuckle, appearing in "Crazy to Marry," at Grauman's, has regained the seven pounds he lost in Chicago when he went there to do scenes for "Freight Prepaid."

"My only regret is that folks no longer greet me with: 'Hello, Wally!' as they did when I first came back," grins Fatty.

Back from "Arabia."

Ferdinand Earle has brought his assassins, tribes people, harem beauties and horses back to the Hollywood studio after a week in the hills of Arabian Cahuenga, where they filmed spectacular scenes for the Rubaiyat of Omar Khayyam.

Nice Birthday Cake!

Wanda Hawley, Realart star, unguardedly referred, a short time ago, to the approach of another birthday. As a result her company pulled a surprise luncheon on the fatal date, of which the piece de resistance was a cake with sixteen candles—and a question mark.

Wanda is still gunning for the bright individual who thought of the latter decoration.

Included in the party were the players and technical staff now making "The Love Charm," with Miss Hawley.

CENSORS TO SEE "FOOLISH WIVES."

"Foolish Wives," reputedly one of the most expensive pictures ever produced, will have its first screening the 15th inst. The reason for the early projection of the feature is the arrival of the censors at Universal City as guests of Carl Laemmle. As a result, Erich Von Stroheim is working at night on the editing of the film, this schedule enabling him to avoid both heat and visitors. "Foolish Wives" was nearly a year in the making. The official release date has not yet been set.

ATHLETIC STAR PRESENT.

George Walsh, the athletic star of the Fox films, comes to the Hippodrome today in a picturization of Louis Tracy's novel "Number 17." An entertaining bill of vaudeville includes William Dick, "The Singing Musician;" Alf Ripon, the premier ventriloquist in "Jiggs in a Night at Dinty Moore's;" "Fallen Stars," a humorous rural act with a cast of five talented artists; Bobby and Earl in "Oh, Doctor," a comedy skit replete with songs and dances; the Apollo Trio, in a reproduction of Roman and Grecian masterpieces in bronze, and Mykoff and Vanity in a classy dance revue. A Fox Sunshine comedy completes the show.

ABIE PLAYS STRAIGHT ROLE.

Henry Sherr, the comedian at the Pantages Broadway, has been the recipient of many compliments for the clever manner in which he is handling the part of Abie Cohen in "Clear and Cloudy," which is the title of the offering at that theater this week. Patrons are used to seeing Sherr in the role of a low-brow Hebrew, but this week he is playing the part of a well-to-do business man, which calls for some real legitimate acting. "Clear and Cloudy" will run for the remainder of the week up to and including Sunday night. "Abie at the Carnival" will be the title of the show opening Monday.

SONG TO INVADE WEE SMA' HOURS

With Eva Tanguay programmed to carol her "I-don't-care" and various other stars permanently engaged, the Midnite Frolic show is to make its debut under the supervision of Elmer Floyd, formerly of the Greenwich Village Follies, tomorrow night. Only one performance will be given by the entertainers, beginning at the stroke of twelve.

Dancing will occupy the early part of the evening. Miss Tanguay will put on a series of costume numbers as a feature of the opening show. Appearing with her will be Lew Bordon and "Sir" James Dwyer, who are regularly engaged.

The musical prima donna of the program is Miss Ray Tonielli, who has sung in opera in the East. The remainder of the program will be made up of dances and musical comedy novelties, with a chorus and ballet. The orchestra will be under the direction of Johnny Cook.

HAYAKAWA FILM PRAISED

Sessue Hayakawa, Robertson-Cole star, has been receiving many telegrams of congratulation this week upon the special presentation of his new starring vehicle "Where Lights Are Low," at the Capitol Theater in New York. A. S. Rothacker, manager of the theater, arranged a special program. The picture will shortly be seen in Los Angeles. A feature of the production is that Hayakawa is supported by one of the most remarkable Chinese casts ever assembled.

RETURNS FROM YOSEMITE

George Chesebro has returned from Yosemite locations where the Morante Company spent three weeks shooting exteriors for the screen version of J. Inman Kane's book "The Recoil," in which Chesebro is featured as an eastern college man who goes into the great Northwest, joins the Royal Mounted Police and later discovers that the criminal he must deliver to justice is his younger brother.

"SHAM" AT DE LUXE

Ethel Clayton's picture, "Sham," is to have a showing today and tomorrow at the De Luxe Theater. The film is a light comedy in which Miss Clayton's talents find delightful expression. Clyde Filmore plays the male lead.

CALIFORNIA COTTON FORECAST REVEALED.

[BY A. P. NIGHT WIRE]

WASHINGTON, Aug. 2.—Cotton forecast production by States, issued by the Department of Agriculture from conditions on July 25, with the 500-pound bale as a standard, includes:

Arizona, 50,000; California, 40,000, and Texas, 2,442,000.

Production in Lower California, Mexico, this year, not included in the United States total, is forecast at 32,000 bales.

SHOULD SUPPRESS THE DICTATORS OF STYLE.

NOW THEY'RE GOING TO SPRING NEW HATS MONTHLY AMONG OTHER FOOLISH IDEAS.

[EXCLUSIVE DISPATCH.]

CHICAGO, Aug. 2.—Sad tidings for the poor old pocketbook.

Milliners now plan to change the styles of hats every month, so hubby, who is bent double trying to buy two to four a year and all that goes with them will now be soaked for a round dozen. And there will be no bargain sales, for the milliners attending the Retail Merchant's Association meeting here, gleefully boast that the department stores will not be able to get the styles and hats fast enough to cut prices.

Formerly styles changed twice each year—spring and fall—with occasional concessions to winter and mid-summer but now they are to change every thirty days.

Also some disturbing news filtered from the meeting of the Woman's Apparel Association, which is staging a display of forthcoming fashions with supple, lissome live models. Briefly these changes from present modes include these items:

Blouses will completely displace the frugal and popular shirtwaist.

Stockings must be silk all the way; no more cotton tops.

Monkey fur will be all the rage for trimming.

Kimonos will be exceedingly transparent and orange is to be the favorite color.

Six of the models who went on strike were dismissed today. They had been receiving $150 a week and demanded extra pay for rehearsals.

At the Pageant of Progress on the municipal pier, 5000 young women are being weighed and measured daily and the experts on this job say the United States has it on every nation in the world, not excepting France, for shapely and perfect girls. Sixty per cent of those so far examined are ideally proportioned and they are far more graceful than the French girls or the languorous beauties of Spain.

TOO MUCH JAZZ BAD FOR ADULTS, 'TIS SAID.

NURSES TOLD TO REFRAIN FROM SPEED AND UNBALANCED RATIONS, ALSO.

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Aug. 2.—Children who play too hard do not get proper nourishment so they should lie down in the middle of the morning and listen to classical music to soothe their nerves and stabilize their digestive system, Miss Edith Bryan of the public health nursing department of the University of California, told the State Nurses' Association convention today.

Miss Bryan said she had experimented successfully on Berkeley school children and given them a dish of ice cream at the end of half and hour for a reward. Martial and "jazz" music, she said, excited and disturbed the nervous system of children.

"Too much jazz and speed, unbalanced rations and other excesses" overtax the nervous system of adults, also, according to Dr. William C. Hassler, city health officer of San Francisco. He said life insurance companies and health officers view the situation with alarm.

RANCHER IS SHOT ON HUNTING TRIP.

[BY A. P. NIGHT WIRE]

HEALDSBURG, Aug. 2.—George Shelford, rancher of Alexander Valley, ten miles north of here, and prominent throughout this district, was shot and perhaps fatally wounded at Pine Flat, near Alexander Valley, late last night, while returning from a deer hunt with a number of companions. According to the authorities, Roy Warner, a companion of Shelford, had started to unload his gun, when it was discharged and the bullet entered Shelford's abdomen.

EX-COMPTROLLER MAKES CHARGE.

Attacks Federal Reserve Policies Before Committee.

Declares Favoritism Shown in Lending Money.

Williams's Assertions Are Challenged by Mills.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Aug. 2.—Policies of the Federal Reserve Board during the last eighteen months or more were attacked today before a joint Congressional commission by former Comptroller of the Currency Williams, who charged that the board had displayed undue favoritism in lending to New York banking groups while southern and western borrowers were unduly curtailed. There was "abundant ground for complaints of discrimination by farmers generally," he added.

The Congressional commission was appointed to inquire into the agricultural situation and summoned Mr. Williams in connection with its investigation into credit facilities for farmers.

Many of Mr. Williams's assertions were challenged in cross-examination by Representative Ogden Mills, Republican, New York, a commission member. The clashes required many commission rulings.

OPPOSES POLICY.

"I did not agree with the policy of the reserve board in indiscriminately raising interest rates in 1919," Mr. Williams said, "nor did I agree with it previously in a policy of making prodigal advances to institutions in the East, to the disadvantage of the West and South.

"I found that the board in 1919 was advancing directly and indirectly a total sum of $1130,000,000 to a single institution in New York City."

READS STATISTICS.

Mr. Williams read statistics which he said showed New York, Chicago and other large city banks were getting more reserve loans than all the country banks during the period. He was asked to present 1921 figures, too, and promised to do so.

The New York Reserve Bank, Mr. Williams said, always was a tremendous borrower, "to the extent of four times its capital" "for speculative operations and promotions."

It was developed that the reserve board established "basic lines," compounded from resource totals of banks, which controlled the amount of rediscounts.

"On Dec. 24, 1919, the report showed the New York Federal Reserve Bank had lent to one New York bank $130,000,000," Mr. Williams said.

He said he had protested to the board at the extent of the credit because "the bank was conspicuous for its speculative activities."

"This was not a national bank?" Chairman Anderson asked.

INVESTMENT REFUSED.

"It was not," Mr. Williams returned. "I asked a special examination of its condition but it was not allowed on the ground that the board's intervention might alarm the State banking authorities."

Senator Harrison, Democrat, Mississippi, asked if the reserve law did not forbid "speculative borrowings." Mr. Williams said it did.

"But that does not prevent an institution from borrowing $10,000,000 in Liberty Bonds," Mr. Williams added, "and rediscounting it with the reserve system, and then lending the money to its president for speculative operations.

"The reserve board has always loaned largely and at low rates of interest" Mr. Williams continued, "to certain New York institutions, and maintained the practice in good times and hard times alike, when the board was forcing liquidation at immense subscriptions to borrowers in Richmond, Atlanta and Dallas districts."

SHEEP MEN PROTEST HAWLEY'S REMOVAL.

DECLARE IT A MISTAKE TO TRANSFER FEDERAL BUREAU MAN FROM CALIFORNIA.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Aug. 2.—Sheepmen of California are protesting removal of Dr. Hawley, who represents the Federal Bureau of Animal Industry, and who has made a great success there in combatting the sheep scab in California. Through the instigation of someone, Dr. Hawley was induced to accept a transfer to Sioux City, Iowa, and the Federal representative there is to go to California to take over Dr. Hawley's work. It is understood here that the change was approved by Dr. J. E. Ivoner, State Veterinary.

Now come a number of protests, led by H. A. Hastro, president of the State Board of Agriculture, who declares it would be a mistake for Dr. Hawley to be transferred at this time. His protest has been presented to the Secretary of Agriculture, and the matter has been held up pending a definite conclusion as to who is dominant in California agricultural matters and the honors for the present seem to be with President Hastro.

PURPORTED ROBBER OF BANK IN CUSTODY.

MAN WANTED FOR FALL RIVER MILLS' JOB TAKEN AT PORTLAND.

[BY A. P. DAY WIRE.]

REDDING, Aug. 2.—Joseph Lang, who was being sought in connection with the robbery of $1032 from the bank at Fall River Mills, Shasta county, last Tuesday by two masked bandits, is in custody in Ashland, Or., according to word received here today. J. L. Herbert and P. McMillen, former employees of the Pacific Gas and Electric Company construction camp here, who are also wanted in connection with the robbery, are believed to still be in Redding after having fled here, supposedly, from the scene of the robbery.

The police found that Lang attempted to ship a trunk from a Redding rooming-house to himself in Portland, Or.

Lang was seen on the streets here by a newspaper man yesterday and the authorities were notified. He escape dfrom the town, however, but a telephone message to Ashland from Sheriff Richardson caused his apprehension there.

WOMAN KICKED HIM TO DEATH?

Machine Gun Inventor's End Laid to Wife by Police, After Autopsy.

[EXCLUSIVE DISPATCH.]

SHARON (Mass.) Aug. 2.—According to Medical Examiner Magrath, Levi W. Lombard, aged 65, Long Hill inventor, came to his death from a kick in the abdomen, a kick the Sharon police allege was inflicted by his wife, Kate G. Lombard. The medical examiner's finding is based on an autopsy. The police say that last Wednesday after supper Lombard wanted to take his two young sons to a show. Mrs. Lombard is said to have objected. When the older began to cry, she is said to have taken a switch to punish him. Lombard, according to his own statement, remonstrated and his wife kicked him. Lombard had invented a machine gun that was bought by the British government.

TEXAS BILL HITS AT SECRET SOCIETIES.

KLAN IS MADE VEHICLE FOR DRIVING HOME ARGUMENTS FOR LAW ENFORCEMENT.

[EXCLUSIVE DISPATCH.]

AUSTIN (Tex.) Aug. 2.—Gov. Neff has made the Ku Klux and the anti-Ku Klux movement in Texas vehicles for driving home arguments in support of his law-enforcement campaign, in the opinion of many Texans.

Gov. Neff said today his request for laws making it a felony for whites and negroes to cohabit, and a felony for a man to desert his wife and children, while not directly affecting the Ku Klux, would assist greatly in removing causes which have apparently brought about an organization of citizens to remedy conditions which they doubtless thought were not sufficiently covered by the existing laws.

Gov. Neff also proposed legislation directly affecting the Ku Klux Klan by requesting a law which would bar members of any secret organization, masked or unmasked, who attempted arbitrarily to enforce the laws of the State, from holding office.

Several days ago forty-nine members of the House petitioned the Governor to submit anti-Ku Klux legislation, as this is a special session and only such matters as the Governor submits may be acted upon. In transmitting the recommendation that the three foregoing laws be enacted, the Governor urged the Legislature to repeal the suspended sentence law and enact a special law that in liquor cases a man selling liquor may be convicted on the unsupported evidence of the buyer of liquor. Both of these measures the Legislature declined to enact at the regular session early in the year.

A bill aimed at secret societies operating under cover of masks was introduced in the House today by Representative Patman. It would fix a penalty of a fine of not less than $500 or more than $5000 and imprisonment of not less than one nor more than ten years, or both, for two or more persons to conspire to injure, threaten, oppress or intimidate any person, the same penalty to apply to any person disguising himself.

HAVE GOODS ON MAIL ROBBER TRUST HEAD.

SUIT CASES REVEAL LOOT FROM DEARBORN STATION, TOLEDO AND NEW YORK JOBS.

[EXCLUSIVE DISPATCH.]

CHICAGO, Aug. 2.—That the government made no mistake when its agents arrested John W. Worthington, alleged brains and head of a gigantic mail robbery trust, was proven today when the seizure of two large suit cases, from his office in the "Central Securities Company" yielded bonds and securities worth at least $300,000. Some of them have already been identified as some of the Dearborn-street station loot, some were stolen in the Toledo raid and it is said there are some of the oil stocks recently stolen from the Sinclair Company's office in New York.

Bonds for Worthington and Evans have been set at $50,000 each. Under a new Federal court regulation, real estate worth four times this amount must be scheduled before the man can be released. When additional indictments are returned, it is planned to increase the bonds. "Lefty" Lewis, said to be one of Worthington's lieutenants, is said to be under arrest in Detroit. He recently made a sensational escape from a jail in San Francisco while awaiting trial for murder.

Worthington was brought in from Waukegan today. He had forgotten his false teeth and was in ugly humor. To a reporter who sought to interview him he replied:

"Fade away, boy, fade away; you give me a pain. These charges are bum. They haven't a thing on me."

More evidences of Worthington's activities came to light today when the Alma Development Company of Alma, Mich., petitioned the Federal court to declare Worthington bankrupt. It is claimed he failed to turn over $16,700 for first mortgages he had sold for the company.

FREIGHT RATES ON FURNITURE REDUCED.

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Aug. 2.—Permission to publish reductions on furniture rate, which in some instances, will be 45 per cent, has been granted the transcontinental carriers by the Interstate Commerce Commission. It was announced today by G. W. Luce, freight traffic manager of the Southern Pacific company.

Publication of the reduced rates asks to make the reducations effective.

Hold Clerk as Embezzler.

[BY A. P. NIGHT WIRE.]

DALLAS (Tex.) Aug. 1.—A Federal charge of embezzlement of $10,000 from the Southwest National Bank of Dallas has been filed here against James Lyons, Jr., a clerk in the bank's transit department. Lyons has been missing several days, government agents said today.

A Little Study in Home-Making

THIS is a copy from an actual photo of a living-room. Its furnishings, although inexpensive, show taste, discrimination and appreciation of the beautiful. There is but one discord: the upright piano is not in keeping with its surroundings.

HERE is the same room transformed from the commonplace to the artistic, dignified and harmonious, by the Francis Bacon Baby Grand.

The FRANCIS-BACON Baby Grand — $795

Occupying practically the same space as your upright, the Francis Bacon Baby Grand will add beauty, harmony and dignity to your living-room. Let us send you, without obligation, a free paper pattern showing the exact floor space occupied by a Baby Grand.

Dependable Baby Grand prices begin at $625. Your upright will make a substantial first payment. Balance payable in small monthly amounts you can easily afford.

EVERYBODY GETS A BIG PROFIT.

Here's Where Money Goes When You Buy Liquor.

Last to Handle Bottle Satisfied With 200 Per Cent.

Takes Cash Though to Pay Large "Salaries."

[EXCLUSIVE DISPATCH.]

NEW YORK, Aug. 2.—When you pay $15 for a pint of liquor worth 60 cents, where does your money go?

It helps to pay salaries, running expenses and dividends of what is rapidly becoming one of the big industries of the United States—the business of bootlegging.

This is the story of one particular pint of "hootch" called Scotch whisky, traced to its source up the miry stream of illicit liquor, which is flowing in ever increasing volume into and through the country.

BOUGHT AT CABARET.

The pint was bought at a cabaret, a few doors off Broadway, in the heart of the "white light" district.

The proprietor charged $15 a pint. He bought the liquor at $120 a case. His profit was 200 per cent, or $10 on the pint. He says he sells about thirty pints a night on an average. Out of his profit of over $2000 a week, he pays $300 for "protection," while "hush money" incidental to his having "hootch" on hand costs him $200 more. On an average of once a week a genuine raid forces him to send his supply gurgling down the sink at no profit whatever.

VIA RAINCOAT ROUTE.

This pint reached the particular cabaret in the sewn up sleeves of a raincoat carried carelessly over the arm of a furtive-eyed messenger. The "retailer," less than three blocks away, paid $80 a case for this whisky because it was "good stuff" in genuine bottles, with real labels and stamps. His profit was 50 per cent, or about $1.67 on the pint under discussion. But he sells about 500 pints a day on "good days." His headquarters, thinly disguised, cost him "something terrible," he says, in the way of "protection."

Every day or so trucks drive up to his warehouse with their liquid freight. A syndicate, which bottles the stuff in a well-concealed plant, not 3000 miles from Times Square, pays the drivers of these trucks $100 a week. It pays high wages to its workmen, buying science as well as skill. It pays as high as $1.50 and $2 a piece for "genuine, non-refillable bottles" and a slice of the profits goes to expert counterfeiters of internal revenue stamps.

"FLUNG OVERBOARD."

The whisky with which we are concerned, which was delivered to the retailer, c.o.d. at $80 a case, cost the syndicate $3.50 a gallon f.o.b. that is, "flung overboard" from a sailing ship, in from the Bahamas. The foreign crew, which had brought the liquor along at their own risk, was content with a profit of 100 per cent.

Our pint of whisky cost 60 cents at the source. The business of bootlegging transferred it from producer to consumer at a profit of 2400 per cent.

FIVE MILLION WORTH.

Intoxicating beverages imported into the United States during the fiscal year were valued at more than $5,000,000 as compared with about $500,000 in the previous year, according to reports issued last night by the commerce department. Wine was the largest item in the list of intoxicants entering during the year, amounting to more than 2,000,000 gallons as compared with 28,000 in 1920.

Whisky came in larger quantities in the past year, with a total of 195,000 gallons, as compared with 32,000 gallons in 1920.

Great Britain shipped in most of the whisky, France practically all of the champagne, and Spain the greater part of the other wines.

DROP in for breakfast, luncheon, dinner, supper, after-the-theater—any hour of the 24. Gus Mann's Pot and Spigot Grill, 311 South Spring.

Philharmonic Auditorium, 5th at Olive.

Leave your car one block west at the GRAND CENTRAL GARAGE, on the corner of Fifth and Grand, and forget it until you are ready to use it again. You will know that everything left in the car will be safe and that when you are in a hurry to go home you will be able to drive out without delay.

MEXICO INVITES
LOS ANGELES

to her greatest commercial achievement,
symbolic of her present peace and prosperity

EXPOSICION COMERCIAL INTERNACIONAL del CENTENARIO

during the Cenennial Festivities of Mexico, commemorating the one hundredth anniversary of her independence from Spain

SEPT. 12 to OCT. 12

Mexico, the "Land of Today", and the Country offering most opportunity for American enterprise and commercial expansion, particularly wants Los Angeles people to be there, and particularly wants Los Angeles manufacturers to be represented at this, the largest International Commercial Exposition ever held in Latin America.

Does Los Angeles know that in point of Mexican population, she is the fourth city in the world, and that Mexicans know and love her better than any city in the world with the exception of New York? Does Los Angeles know also that when the uncompleted eighty miles of railroad down the West Coast is finished, she will be the closest industrial city of importance to a prosperous consuming market of 18,000,000 people?

The Centennial Festivities and the Exposition will bring every business man of importance in the Republic to Mexico City, which is both the business center and playground of the nation. The Exposition is being held in the new National Legislative Palace. Mexico's $5,000,000 wonder building, the largest in Latin America suitable for the purpose.

Manufacturers of Los Angeles, don't overlook the richest undeveloped country in the world. There is only 20,000 square feet of floor space allotted to Los Angeles. Ship your exhibit at the Industrial and Trade Exposition of Los Angeles, direct to Mexico City. Material for exhibits must arrive at El Paso before September 1st. ***From there they go by Government special trains to Mexico City, free of Consular fees, Duties and fully insured.***

THIS .. YEAR'S .. SUMMER .. CAPITOL.

Where President Harding is Now Sojourning.

A New View of Secretary Weeks's Bungalow on Mt. Prospect, At Lancaster, N. H. The caretakers have refurbished the place from cellar to garret, even the tip of the flagpole being gilded and the tennis courts freshly leveled.

PRESIDENT IN NEW HAMPSHIRE HILLS.

[BY A. P. NIGHT WIRE.]

LANCASTER (N. H.) Aug. 2.—President Harding came into the White Mountains of Northern New Hampshire today for the first real vacation since his inauguration. At a little lodge high above the reach of the heat wave, the President and Mrs. Harding, with close friends, will be guests for the remainder of the week at least. Complete rest with, perhaps, some golf, fishing, and mountain climbing mixed, will occupy their first attention.

The house selected by the President for the vacation is the country home of Secretary Weeks. It is on the summit of Mt. Prospect, 2000 feet above sea level.

Nearest telephone facilities are at the mountain's foot, two miles from Lancaster.

The Presidential party arrived late today after a picturesque motor trip of more than 1000 miles from Portland, Me., where they had left the yacht Mayflower in the morning.

Besides Secretary Weeks and the President, and Mrs. Harding, the party includes Senator Hale of Maine, Senator Frelinghuysen of New Jersey, and Mrs. Frelinghuysen, Senator New of Indiana, and Mrs. New, Senator Phipps of Colorado and Mrs. Phipps, and Secretary Christian. Mrs. John W. Davis, Secretary Weeks's daughter, is hostess in the absence of Mrs. Weeks in Europe.

When the President passed through White Field, the last town before reaching the Weeks estate, he found a crowd of several hundred waiting there and rewarded them with a little speech, in which he repeated the hope he had expressed yesterday at Plymouth, that the coming disarmament conference would lead to a new era of world peace.

MIDDLE WEST NEWS IN BRIEF.

[EXCLUSIVE DISPATCH.]

OMAHA, Aug. 2.—Mrs. C. J. Claassen and children, Ruth and Randolph, have gone to La Jolla, Cal., where they will spend the remainder of the summer.

John Beno, 50, oldest son of the late John Beno, founder of the Beno store and pioneer merchant of Council Bluffs, is dead.

Mr. and Mrs. Edward Megeath have gone to Denver to visit Mrs. Megeath's parents, Mr. and Mrs. John Wallwork. They will spend a month in Colorado.

DENVER.

DENVER, Aug. 2.—Information that "moonshine" whisky has dropped from $20 to $7 a gallon in some sections of Denver was obtained early today by Federal dry agents following seizures of what appeared to be the oldest whisky still thus far confiscated around Denver.

Mrs. Charles H. Hannington and Mrs. Orlando Ward, her guest, left today for Grand Lake for an extended visit.

Mr. and Mrs. Gordon String of Chicago are visiting Mrs. Charles Dennison.

ST. LOUIS.

ST. LOUIS, Aug. 2.—Miss Bessie Shupp of Raymond avenue and Miss Gertrude Dell of Enright avenue left for a trip through the West. They will spend most of their time at Los Angeles, San Diego and the beach resorts near there.

Mrs. T. J. Jones and daughter, Miss Catherine Jones, Waterman avenue, expect to leave this week for a tour of California returning about the middle of September.

Dr. and Mrs. George Dock of North Kings Highway Boulevard and Dr. and Mrs. Willard Bartlett of Westmoreland, with their three sons, are spending several weeks touring the West.

AKRON.

AKRON, Aug. 21.—Relief of the housing situation is to be discussed at the convention of the Ohio Building Association League, August 23, at Cedar Point. Secretary of Commerce Hoover has been asked to present figures on the house shortage.

Mr. and Mrs. W. E. Cleave, Franklin street, have returned from the Pacific Coast where they have been spending six months.

Mrs. J. R. Griffith and daughter, Elizabeth, West Miller avenue, are spending a month at their cottage at Pawpaw Lake, Mich.

KANSAS CITY.

KANSAS CITY, Aug. 2.—Dr. and Mrs. L. J. Beattie, Mr. and Mrs. Hugo Brecklein and Mr. Joseph Brecklein will leave Tuesday to spend the remainder of the summer at Glenwood Springs, Colo.

Mr. and Mrs. F. M. Seymour and Mr. and Mrs. J. W. Wood are spending the summer at Prospect Lake near Colorado Springs.

INDIANAPOLIS.

INDIANAPOLIS, Aug. 2.—Mr. and Mrs. Robert Lieber, Center avenue, and daughters Louise and Clara, who have been spending several weeks in California, returned home yesterday.

Dr. and Mrs. R. S. Bigger of Woodruff Place will leave September 5 for Los Angeles to be gone until the latter part of October.

MILWAUKEE.

MILWAUKEE, Aug. 2. — The number of building permits issued for the week ended on Thursday was 614, for an aggregate of $477,177, contrasted with 488 permits, for $363,249, for the corresponding week in 1920.

Mrs. Frederick P. Ruges and daughter Betty Winn are the guests of Mr. and Mrs. Guido J. Hansen at their summer home at Pine Lake.

Mr. and Mrs. A. C. Umbreit have left for Cleveland to attend the wedding of Miss Ethel Jones and their son, Stanton Umbreit, which will take place this week.

ST. PAUL.

ST. PAUL, Aug. 2.—The city of Stillwater will receive a bequest of $75,000 from the estate of the late Mrs. Meta Toner Mitchell of St. Paul, who died in that city recently.

A shortage of harvest hands is threatened in North Dakota with the wheat harvest becoming general in all parts of the State, according to advices received here yesterday.

Dr. and Mrs. Harry B. Zimmermann, Portland avenue, will go this week to Cottage Park, White Bear Lake, where they will spend the month of August.

MINNEAPOLIS.

MINNEAPOLIS, Aug. 2.—One of the biggest land deals in the Northwest in recent years was closed when Col. Joseph M. Kelly and John Kelly of Devil's Lake sold their 12,000-acre tract of land surrounding Knox and Pleasant Lake, N. D., to a Southern Minnesota syndicate. Approximately $500,000 was involved and twenty-eight complete farms changed hands.

To visit their son-in-law and daughter, Mr. and Mrs. C. S. Avery, at their country home at East Hampton, L. I., Mr. and Mrs. John B. Gilfillan of Clifton avenue left today for the East.

Mrs. Charles B. Lyon, Oak Grove street, left yesterday for her home, "Hickory Grove," at Marquette, Mich., where she will remain until September 1.

DETROIT.

DETROIT, Aug. 2.—Judge Harry B. Keidan in Municipal Court held that police officers, unless in possession of a search warrant, have no right to peer through windows of a private home to ascertain whether the prohibition laws are being violated within.

Sailing from Vancouver today will be Dr. and Mrs. O. W. White and their son Ward of 1465 West Boston Boulevard, for a trip to Alaska. They will return to Detroit about September 1.

Walter Thompson has returned from Pasadena, Cal., for a brief visit with his father, Mr. J. W. Thompson of Putnam avenue. He will return to his family about August 10.

TO TEACH VETERANS BY CORRESPONDENCE.

KNIGHTS OF COLUMBUS DECIDE TO FORM GREATEST SCHOOL IN UNITED STATES.

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Aug. 2.—A decision to establish what it terms the "largest correspondence school in the United States" which shall be devoted exclusively to the education and general welfare of former service men, and announcement that the order had increased by 87,660 since last year made up the outstanding features today of the opening session of the Knights of Columbus thirty-ninth annual supreme convention. Supreme Secretary William J. McGinley outlined the correspondence system, which will have its headquarters in the new building which the order is erecting in New Haven, Ct.

"No limit will be placed upon the number of former service men seeking enrollment in the correspondence school and no limit will be set upon practical subjects in the course of study," McGinley reported. The system, he said, will cost approximately $1,000,000 to establish and will call for a full year enrollment of 100,000 students.

Supreme Knight James A. Flaherty reported that approximately $4,000,000 had been expended by the Knights in the past year in maintaining 132 free night schools and 500 university and college courses for former service men.

"We shall stay with the veterans until the end," he said.

On June 30 the total membership of the Knights of Columbus was 758,155 and New York led the States with 107,649 members, McGinley reported. The Knights were instrumental in raising $4,000,000 for charity during the year, principally for Herbert Hoover's relief work, relief in Ireland and Cardinal Mercier's rehabilitation fund. He expected that the order would have 1,000,000 members in another year.

The convention was formally opened with a religious observance which was a combination of military and Papal mass, in the convent gardens of the old Mission Dolores. It was preceded by a pageant which wended its way through the downtown streets from the Union Ferry to the convent gardens.

INDUSTRIAL BODY FORMED IN NORTH.

BAY CITY ASSOCIATION PROGRAM IS TO MAINTAIN SOUND AND STABLE RELATIONS.

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Aug. 2.—Formal announcement was made here today of the creation of the Industrial Association of San Francisco, with its announced object "to effect and maintain sound and stable industrial relations, to keep San Francisco constantly attractive to those engaged in constructive enterprises, whether as workmen or investors."

The association announced that it recognized public interest as foremost in serious industrial disputes, and would maintain an organization for study and investigation of industrial conditions looking to prevention rather than cure, for disputes. Atholl McBean, former president of the Chamber of Commerce, and head of its industrial relations committee which has led an open-shop movement in the building industries, heads the new organization. The open-shop movement in this group of crafts was indorsed.

BUGLE'S CALL STARTS HOUSE ARGUMENT.

MEMBERS REQUEST FOR LEAVE OF ABSENCE TO ATTEND

[BY A. P. NIGHT WIRE]

CAMP STARTS DEBATE.

WASHINGTON, Aug. 2.—A request from Representative Fitzgerald, Republican, Ohio, for a month's leave of absence from the House because he had been "ordered" as a reserve officer to military duty at Camp Knox, Ky., precipitated a tilt in the House today. Representative Lanham, Democrat, Texas, objecting to granting the request while Representative Garrett, acting Democratic leader, held that "a serious question" had been raised and requested that action be deferred.

"I would like to know what power can order a member of Congress away from his duty in peace time?" Mr. Lanham said.

Representative Greene, Republican, Vermont, a Republican of the House Military Committee, said the request had been worded "crudely" and explained that "no reserve officer in time of peace can be ordered to camp except at his own request."

With half a dozen members clamoring for recognition, Representative Mondell, Republican leader, ended the argument by moving adjournment.

LOTS AT ANAHEIM LANDING.

FOR OVER SIXTY YEARS ANAHEIM LANDING has been one of the most famous watering resorts in Southern California. The old-timers selected it on account of its quiet bay, full of shell fish, a true arm of the sea. For the first time in all that period, lots can now be purchased right on the bay. Paved streets, water, gas and electricity are being installed. Less than seventy-five lots are for sale. R. D. Richards, agent, at the Landing. Postoffice address, Seal Beach, Cal.

Complete Clearance Sale of Clothing Hats-Furnishings

THE ALEXANDER & OVIATT semi-annual sale is a merchandising event of the utmost importance to men who desire to effect a saving in their apparel cost without sacrificing either quality or style. Our clearance sale this year will far surpass all former efforts, as we have determined to completely clear our present lines, and have included practically our entire stock at the most drastic price reductions — offering complete and unbroken lines of the highest grade merchandise at sale prices.

We are pleased to announce that on our recent European buying trip we completed arrangements to represent the most famous and exclusive foreign makers, and we are turning our present stock into money and making way for this incoming merchandise.

Sale Starts Today, 9 o'clock

MEN'S SUITS $48.00 OVER COATS

These are suits which formerly sold from $65.00 to $85.00. They are made in our special models from our own importation of English and Scotch woolens. Included in this lot is a special purchase from Hirah Wickwire of two hundred fine suits which were built to sell at $85.00. The overcoats represent our regular stock of English coats and also a splendid lot of lightweight coats purchased from Aquascutum and other English makers at less than manufacturing cost. These coats are just out of the custom house and are remarkable bargains. This is a splendid opportunity to effect a saving on your fall coat.

$62.00

At this price we offer suits and overcoats which formerly sold from $90.00 to $100. We have no hesitation in saying that this is the finest clothing produced and is on a par with the best work of custom tailors.

SHIRTS

$4.00 Shirts $2.35
$5.00 and $6.00 Shirts $3.35
$7.50 Shirts $4.35
Odd lot silk shirts, values to $15.00 .....$5.35

NECKWEAR

$1.50 and $2.00 Ties....95c
$2.50 and $3.00 Ties..$1.35
$3.50 and $4.00 Ties..$1.95
$5.00 and $6.00 Ties..$2.95
Knitted Silks and Irish poplins included.

HOSIERY

75 dozen fancy silk, $2.50 and $3.00 values..$1.35
50 dozen French lisles, $3.00 and $4.00 values..$2.25
100 dozen Shawknit silk, plain colors 55c

PAJAMAS

$7.50 Pajamas now ...$4.95
$12, $15 Pajamas now $7.95
$20 Pajamas now $12.95
$35 Heavy Silks $22.50

Collar Attached Shirts

A special lot of white Oxford and fancy colored collar attached shirts. Regularly $4.00 and $5.00 values—

$2.35

WOMEN'S COATS and SILK SWEATERS

Women's English motor coats—sport coats and silk sweaters at ..... Half Price

Men's Silk Lounging Robes ..... Half Price
White and Fancy French Linen Handkerchiefs, $4 Values $2.15
French and English Linen Handkerchiefs, $2.50 and $3.00 values $1.15

KNOX and MOSSANT Soft Hats

Broken lines Knox and Mossant felt hats, values to $12. One sale $4.00

Your choice entire stock of Knox and English straws, values to $12.00, now $2.00. Panamas ..... Half Price

English Cloth Hats, regularly $7.50 and $10.00, on sale $5.75.

Entire Stock of English Caps, formerly $5.00 and $7.00 ... $3.75

The Truth, the *Whole* Truth, and Nothing but the Truth

About Newspaper Leadership in Chicago

As to Circulation—

The Circulations of the Chicago daily newspapers for the six months ending March 31, 1921—the latest figures issued—reported by their publishers to the Audit Bureau of Circulations, the "A.B.C.," are as follows:

	Total City and Subs.	Total Country	Total Circulation
The Daily News	389,831	22,473	412,304
The Daily Tribune	313,353	147,386	460,739
The American	314,937	69,272	384,209
The Herald and Examiner	241,995	92,078	334,073
The Post	34,818	9,203	44,021
The Journal	Makes no report to the "A. B. C."		

From which it appears—

1. That The Daily News' city and suburban circulation of 389,831 exceeds that of the second largest (314,937) by 74,894 copies, or over 23 per cent, and that of the third largest (313,353) by 76,478 copies, or over 24 per cent.
2. That The Daily Tribune's country circulation—147,386—exceeds that of every other Chicago daily newspaper.
3. That The Daily News' country circulation—22,473—is next to the smallest in the list, and therefore.
4. That The Daily Tribune's circulation in North Dakota, Wyoming, Arizona and other outlying sections of the country, having the advantage of the twelve extra hours of night mail service common to all morning papers as compared with evening papers, far exceeds the country circulation of The Daily News. So much so—
5. That The Daily Tribune's total circulation (460,739) exceeds that of The Daily News (412,304) by 48,435, notwithstanding—
6. That The Daily News' city and suburban circulation (389,831) exceeds that of The Daily Tribune (313,353) by 76,478.

From all of which it appears that—

The Daily News Is "First in Chicago" in Circulation

and that The Daily Tribune Is First in Country Circulation.

As to Advertising—

The total volume of advertising printed by the Chicago daily newspapers during the six months ending June 30, 1921, as reported by The Advertising Record Co.—an independent audit bureau supported by all the Chicago newspapers—is as follows:

	Number of Columns (measuring 300 agate lines)		Number of Columns (measuring 300 agate lines)
The Daily News	30,974.25	The Herald and Examiner	7,736.56
The Daily Tribune	23,552.73	The Post	8,331.90
The American	13,260.72	The Journal	7,525.89

From which it appears—

1. That The Daily News published during these six months 30,974.25 columns of advertising, as against 23,552.73 columns by the second highest paper—an excess of 7,421.52 columns or over 31 per cent; and as against 13,260.72 columns by the third highest paper—an excess of 17,713.53 columns, or over 133 per cent.
2. That The Daily News prints over one-third of all the advertising appearing in the six Chicago daily newspapers.
3. The total volume of advertising printed during the same period of six months, according to the same authority, was: The Sunday Tribune, 15,566.76 columns; The Sunday Herald-Examiner, 7,373.94 columns—an excess for the Sunday Tribune of 8,192.82 columns.

From all of which it appears that—

The Daily News is "First in Chicago" in volume of advertising six days of the week, and that The Chicago Tribune is First in Chicago on one day of the week—Sunday—on which day The Daily News does not issue.

Therefore—

As to daily circulation in Chicago and suburbs, and as to volume of advertising printed by the daily newspapers of Chicago

The Daily News Is "First in Chicago"

DAILY TRADE TALK.

Los Angeles Economist Listens to Lions Roar, but, Like Pilgrim, Finds That the Beasts Are Chained.

BY CHAPIN HALL.

For this morning's Trade Talk is going to step to the sidelines and let the other fellow tell the first story because it is a good story—constructive, optimistic and analytical. It will take us into the marts of trade where big business has its roots and where we may properly look for the initial evidences of fully restored stabilization.

The viewpoint coincides closely with the day-to-day review of the situation which has appeared in these columns, and without coloring or exaggerating seems to point the way inevitably to a steadily improving status which will ultimately find expression in restored production, stimulated commerce and normal functioning.

The communication is from L. M. Maynard, chief of the economic research department of the Citizens' National Bank, now in New York, one of his objective points on a trip of research and study.

"I have not written you before," says Mr. Maynard, "because I felt I was misinterpreting the general situation. The things I would hear generally would not prove to be a truth when I traced them down by getting the consensus of opinion in whatever line I happened to be working. I find we are all reasoning from distorted premises and that things generally are psychologically out of joint rather than physically so.

"I am but a few minutes from the office of a very able thinker and writer, Theodore H. Price, a cotton authority, an economist and a man of letters and in answer to my question, 'Mr. Price, how is business as you see it from your conning tower,' he replied: 'Did you ever read Bunyan's "Pilgrim's Progress"?' The part of it where Pilgrim starts up the hill of Difficulty accompanied by his two friends, Timorous and Mistrust, and do you remember that his friends forsook him when they heard the roar of the lions, but he went on and later found that there were lions there just as his friends had feared, but they were chained and not able to do Pilgrim any harm?' Mr. Price told me he believed that story re-read today by the American public would wake it up to a condition they do not realize but one by which they are being influenced strongly.

SURPLUS STOCKS LOW.

"Thus far I am unable to find surplus stocks of finished goods. There are plenty of raws in ever so many lines, but as you will recall we have mentioned many times heretofore in our summary there is no large amount of consumable goods ready for delivery. I find that the things which statistics and just plain unbiased reasoning indicated to be a fact, really are a fact. To illustrate what I mean in a practical way—turn your attention to the refined sugar situation. There is plenty of raw sugar but stocks of refined are under a strain and as a consequence the price has advanced. Canned goods are very short of normal needs and this is showing particularly in some of the lines we had large stocks of a year ago—viz: tomatoes, peas, corn and salmon. Stocks of potash are running low, coal (bituminous) is right now signaling that a fall and winter shortage is inevitable unless contracts for later consuming demands are speedily placed and the actual coal taken into storage.

"I was dumbfounded at the 'opening sale' of next spring's cotton goods to see how free the buying was. Even up to the time I left Boston other mills than the Amoskeag—mills in fact that had been strongly in favor of postponing the usual 'opening' until what seemed to be a more appropriate time arrived—have come into the market with their production and the event is a decided success. I find the streets of all the larger cities unusually gay with women wearing the good old-fashioned home-made cotton dress. This picture alone has a strong tone of optimism in it for the cotton grower, for it is not a far cry from the cotton boll to milady's back.

LOS ANGELES ABROAD.

"It is interesting to note what an impression Los Angeles as an industrial center is making upon the eastern thinker. Of course, it is difficult for him to see some phases of our industrial propaganda, but I do know that our seed is maturing.

"I am more than delighted with my trip thus far. It is not to be one that is merely a matter of corroborating reports. My short study at the Harvard bureau of economic research at Cambridge, Mass., in itself, places me in possession of information and methods of computing data that will be invaluable to the business interests of the Southwest. My study both here and in Washington will be of a practical as well as a theoretical and technical nature and just as far as the value in orderly arranged data is appreciated, just that far will the work that I am now doing bear fruit to those to whom it is willingly available.

"I shall write you again for I am to be at a conference of cotton men and something along the line of developing co-operation between the cotton grower and the economic status of the industry will be put under way. The work to be undertaken will make complete a chain of sound business methods that have long been needed to take care of the intervals between the seeding and selling of the commodity. It will make the Federal cotton warehouse law still more useful and from all that is evident thus far, it will help put cotton, which is 85 per cent an American industry, on a more stable basis both for the grower and for his financing."

OUR GROWING PORT.

Very interesting and very suggestive are the figures just made public of the port business running through the harbor of Los Angeles.

A suggestion made ten or a dozen years ago that in 1921 Los Angeles would be in second place on the Pacific Coast and pressing San Francisco close for first honors would have been deemed the ravings of a miscast mind. Yet that very thing has come to pass.

In June Los Angeles did 62 per cent more business than Seattle with a gross of 395,000 tons compared with 244,245 tons for the great Northwestern port, and of this latter total 75,000 tons represents local business on Puget Sound, a trade in which our harbor has no comparison. Based on this figure it is shown that Los Angeles did 135 per cent more business than the port of Seattle.

The San Francisco tonnage representing both offshore and intercoastal trade, but not including Pacific coastwise business, figures for which are not available, was 363,602 tons. This indicates that Los Angeles is running close to the chief seaport of the Pacific and is a more serious competitor than Seattle.

The vision and foresight with which the wonderful home-made harbor was planned and built, and the importance of extending this great work cannot be too highly commended and supported, for it means the uncorking of a new outlet and inlet through which the commerce of the world will ebb and flow, and which is destined to make this city a great maritime factor.

POWER FINANCING.

Can California finance the stupendous electrical development needed to take care of the State's demand for power that is not now being met, the cost of which is estimated at $750,000,000?

The question has been answered in the affirmative by Arthur S. Bent, of Los Angeles, before the Senate Committee on Banking and Currency, together with a statement that all of the potential electrical energy in California will be needed within the next ten years if the railroads electrify their lines and within fifteen years if they do not.

"It is pretty widely agreed," Bent told the committee, "that the Pacific Coast is to be the center of the greatest drama of history. In that favored and portentous region lies 50 per cent of the hydroelectric possibilities of the country. When we should be conserving and preparing this strategic region for its great destiny, we are wasting its resources and tearing down its defenses."

There is approximately 2,000,000 horsepower of electric energy developed and digested in this State and 3,000,000 of potential power which has not been touched. It is to the harnessing of this mighty force that the attention of finance and commerce will be definitely directed during the next decade for with an ample port and transportation facilities, plus good roads, cheap power, unfettered labor, an all year 'round climate, high food production and a happy and contented citizenry, the pathway to attainment will be well blazed.

AUTOMOTIVE CONDITIONS.

Continued orderly improvement of fundamental financial conditions, despite the customary seasonal slump in sales, is the dominant feature of an official survey of the automotive industry submitted by the Motor and Accessory Manufacturers' Association.

A statistical chart shows that month-to-month purchases of vehicle manufacturers from parts makers held their own in May as against April, but declined 15 per cent in June, reflecting the normal seasonal condition of the industry.

In May the total past due accounts showed a decrease of 15 per cent. In June there was a 4 per cent increase as against May. The third curve, showing the total of notes outstanding, registered a healthful trend downward in both months, declining 16 per cent in May and 10 per cent in June.

Production of car and truck factories for the three-month period ended June 30 was 87 per cent of the corresponding period in 1920. The automobile manufacturer with the largest production is operating at 136 per cent of the 1920 basis. All the others average 57 per cent, or more than double the rate of the first quarter of the present year.

A significant feature of the present trend in automotive circles is the orderliness of the adjustment process. Rigid prudence in purchases, revitalized merchandising machinery, renewed faith in the basic soundness of the automotive industry, and above all, a highly encouraging production record for the second quarter of 1921, are salient elements in the industrial diagnosis.

NEW YORK METAL MARKET.

[BY A. P. NIGHT WIRE]

NEW YORK, Aug. 2.—Copper unsettled; demand brisk, spot and nearby, 12; later, 12¼@12¾. Tin easier; spot and near-by, 26.50; futures, 26.50. Iron nominally unchanged. Lead steady; spot, 4.40. Zinc quiet; East St. Louis delivery, spot, 4.20@4.25. Antimony, spot, 4.50.

BUSINESS NEWS.

During the past few days there has been a distinct strengthening of confidence among the investment bankers, most of whom agree that the long anticipated upturn has actually set in and that the present outlook is most encouraging. As this comes two or three months before the ordinary change in seasonal conditions, and at a time when the market is usually at low ebb it presages, in the opinion of these wiseacres, an excellent early fall business.

B. M. Wotkyns, of Stephens and Company, was discussing this phase of the business yesterday, and ventured the opinion that everything possible should be done to impress upon the investing public the fact that a great opportunity exists today for the profitable investment of idle funds.

"I really believe," said Mr. Wotkyns, "that the market has reached its lowest levels and is substantially on the mend to the end that we will eventually find ourselves in that long sought for position of normalcy.

"It was pretty generally thought that the recent reduction of the discount rate by the Federal Reserve Bank would have an immediate effect in increasing the price of bonds. The effect was not immediate and some may have the impression that bond prices have not stiffened by reason of the lowered discount rate, but a comparison of standard issues today as against the date of the reduction of the discount rate will be illuminating. Gradually and steadily they are rising. The low of bond prices was passed some weeks ago, and in my opinion will not be seen again for many years, if ever.

"Doing business at a money cost such as has been experienced during the past year is proceeding on an unsound foundation. Inflation is ever dangerous and leads business into over-expansion. The investor with available funds who waits longer to employ them will be the loser by the delay. Bonds are still cheap enough to be highly attractive."

GOES TO SANTA BARBARA.

The Santa Barbara County National Bank and Trust Company is establishing a bond department this month. W. G. Paul, associated for some years with the Los Angeles, as well as the San Francisco office of Blair and Company, will go to Santa Barbara August 15 to take charge of the new department.

EQUIPMENT BONDS.

The Empire Tank Line Company is issuing $2,500,000 equipment trust 8 per cent gold certificates under the Philadelphia plan. Stevens, Page and Sterling are among the local participants in this issue, and announced yesterday that they are expecting a ready sale on account of the popularity among investors of this particular form of short-time obligation.

During the history of the operation of the Philadelphia plan, it is claimed that no default has ever occurred on bonds so issued. Under this plan the title for the equipment is lodged with a trustee and the equipment is leased back by the corporation from that trustee for a sufficient amount to pay the interest on the equipment bond issue and to retire an agreed amount of the bonds each year.

Usually bonds up to 80 per cent of the value of the equipment are issued, leaving a good margin against the purchase price of the rolling stock. With the title for the equipment actually in the bondholders hands, there is no need for litigation to gain control of the property in case payments are deferred.

In the present instance of the Empire Tank Line Company's equipment issue, 2027 all-steel standard tank cars, the total replacement value of which has been conservatively estimated at $4,443,820, form the security for the $2,500,000 issue. This equipment has been fully covered by insurance under policies deposited with the truste for the benefit of the certificate holders.

The certificate holders are further protected by the guarantee of the Empire Gas and Fuel Company of the prompt payment of principal and interest of this issue. The Empire Gas and Fuel Company is one of the largest oil-producing companies in the country, and is the most important subsidiary of the Cities Service Company.

Stevens, Page and Sterling have priced the issue at 99½ to yield 8.10 per cent. The bonds are dated June 1, 1921, payable ten years from date.

ALFALFA MARKET.

There were 1030 tons received on the Los Angeles tracks the week ended July 30, according to the weekly market letter of the Alfalfa Growers of California, Inc., with 390 tons held over. Prevailing prices are $19 per ton for No. 1 dairy, and $15 for standard alfalfa hay, f.o.b. Los Angeles. This compares with $15 for No. 1 dairy and $14 for standard in San Francisco.

NEW SCHOOL BONDS.

A forthcoming municipal bond issue is that of the Hayward school district, Alameda county; $150,000, bearing 6 per cent interest. It will be put on sale August 8.

RICHMOND COMPANY.

Two hundred and twelve acres and 4723 lots located in the city of Richmond, Cal., are security for the $200,000 first closed mortage, 7½ per cent serial gold bonds issued recently by the Richmond Company, Inc., offered locally by the William R. Staats Company. The property of the Richmond Company, forming the mortgage basis for this issue, lies within the growing community of Richmond for residence subdivision, and in touch with the manufacturing and industrial development.

Besides the property security for the issue, the company is required by reason of the trust agreement to pay to the trustee liberal percentages of collections on contracts of sale of the land existing at the date of this mortgage and on contracts to be made in the future. The balance due to the company on these contracts from land buyers aggregates $511,882, or two and one-half times the amount of the present issue. The total assessed value of the company's property and contracts is equal to almost five times the closed mortgage of $200,000.

The William R. Staats Company is offering the shorter maturities at prices to yield 8 per cent. The longer maturities from Jan. 6, 1924, to Oct. 6, 1926, are being sold at par, yielding 7½ per cent.

PERSONAL MENTION.

Herbert M. Worcester, connected for over fifteen years with William R. Staats & Co., has been recently made sales manager of that company. Mr. Worcester is a veteran bondman of this territory and is well known locally.

FOOD IN STORAGE.

Cold storage report for the week commencing August 1 shows the following volume of commodities held in Los Angeles warehouses:

Commodities—	Last year.	This year
Eggs (cases)	94,700	142,913
Butter (pounds)	595,724	644,307
Cheese (pounds)	602,619	1,566,182
Poultry (boxes)	4,917	10,005
Potatoes (sacks)	3,240	27,800
Onions (sacks)	230	

FAMOUS PLAYERS-LASKY.

Preliminary earnings of the Famous Players-Lasky Corporation, for the second quarter of 1921, show net profits, after taxes, of $1,558,000. After allowing for preferred dividends, balance remaining for the 206,849 shares of common stock was equivalent to approximately $6.54 a share.

This is about $40,000 better than the $1,519,947 net, after taxes reported in the first quarter of this year. Net in the first three months equaled $6.36 a share, after taxes and preferred dividends.

Famous Players' rentals from pictures are showing good gains, and the six months' total was considerably above the same period of 1920. Receipts at the theaters controlled by Famous Players, however, have shown reductions.

NO PROFITEERING.

Throughout the war and now, utility service has been the cheapest commodity necessary to life. The Illinois Committee on Public Utility Information bases this statement upon government tax figures, and its bulletin contains the following:

"Government figures indicate that the public utilities are about the only business whose operating sheets did not record payment of excess profits taxes during the war. No charge of profiteering can ever lie against them. Utility rates did not advance comparatively with other commodity prices during the period when farmers, laborers, retailers, manufacturers and property owners' profits were soaring 'sky high,' says a government expert in explaining the situation. 'That being true, they have but little room for reduction of rates even if the cost of coal, labor and materials used by them got back to prewar prices. Utilities earnings were anchored to earth by regulation. They were not permitted to earn profits of 100 per cent and over in the war years as many other businesses did. The utilities were granted increases only when absolute necessity required and then were permitted to earn only 6 to 8 per cent on their actual investments. Utilities through the war period, and now, are the cheapest commodities necessary to life on the market today.'"

"It is essential to the growth and prosperity of the territory served by the Central Arizona Light and Power Company, that it be permitted to earn sufficient return upon its investment to enable it to pay sufficiently high rates for money so as to attract a ready capital into its business to maintain itself financially sound."—Arizona Corporation Commission.

Under such favorable regulation we offer First and Refunding Mortgage fifteen-year 8% gold bonds of the Central Arizona Light and Power Company.

This Company supplies gas and electricity to Phoenix and surrounding territory. The dependable service of this Company has been a vital force in the upbuilding of the community. For over twenty years the gas supply in the city of Phoenix has been uninterrupted. Electrical energy has been supplied continuously for over fifteen years. Under these conditions the city has had prosperous growth.

The agricultural region surrounding Phoenix has a dependable and adequate water supply. The soil is rich and deep. The growing season is eleven months long. This region offers remarkable opportunities for future growth.

The Company has high standing in the community. Electric rates are lower than in most large cities of the United States, and much lower than in any other Arizona city. Despite this fact the net earnings of the Company for 1920, based on rates fixed by the Corporation Commission, were 2.95 times full year's interest charges on all outstanding bonds, including this issue. The safety of these bonds lies in large and adequate equity established by the Commission.

Decide today to invest in these bonds. Priced at 99 and interest to yield 8.10%. Call at our office, write or telephone for full information.

50,000 Barrels Daily

—of oil are handled by the GENERAL PETROLEUM CORPORATION, one of the most efficiently operated companies in the United States. Approximately 15,000,000 barrels annually!—fuel that is required for American ships and the country's greatest industries.

Total Assets
Nearly
$60,000,000

The 10-Year 7% Sinking Fund Gold Notes of this large Company constitute a closed first mortgage on its entire assets. The net assets also are more than three times the amount of the Notes. Earnings were over four times interest requirements of this issue, for the 5-year period ending Dec. 31, 1920.

SINKING FUND—$500,000 to be retired annually at 105 and accrued interest, with the same price provision for all notes at maturity. We recommend these Gold Notes as a fundamentally sound investment.

Buying Brazilian Bonds In England To Sell In America

A client of ours asked us why we went to England to buy bonds of the United States of Brazil to sell in Los Angeles. There was no question in his mind as to safety nor as to marketability. The wealth of Brazil satisfied the one, and the fact that these bonds came from England was evidence itself of a world-wide market.

We explained to this man that besides safety and marketability there were two more elements to be considered in every bond—and when you have all four you have the ideal bond.

One of these factors was yield or income, and being a seasonable loan, we knew that its interest had always been paid in cash when due. Besides, buying them in England gives the purchaser an opportunity to add to his income through the improvement in the value of the pound sterling, which, as it approaches normal increases the year to it approaches normal, increases the year to

And finally, we explained, a further feature attracting us to these bonds was the probability of selling them or having them redeemed at a much higher figure than the purchase price As the pound sterling goes back to normal the value of these bonds gradually increases so that if called or sold at a time when sterling is normal they will yield, by appreciation alone, over 100%.

These are two reasons why we bought these bonds and recommend them as unusually fine investments. Let us tell you the details of this offering.

The Best Investment Record
that we have been able to devise

For several months past our organization has been drawing on its experience to design an investment record book, which is now ready for complimentary distribution.

It gives the investor an opportunity to list his holdings alphabetically and by a system of colored sheets (one for each issue of stocks or bonds) shows him at a glance the months in which the various dividends are payable.

Call, telephone or write for this Record, specifying the number of sheets required for the various interest dates.

After the Fire—
What Then?

Will your income from your business cease while your plant is being rebuilt or repaired? There is a way to avoid this loss of net profits.

Business Interruption
Indemnity Insurance

Do you know that there is a form of insurance policy, known as "USE AND OCCUPANCY" that guarantees you the actual loss sustained of net profits from fire necessitating a total or partial suspension of business?

Use and Occupancy Insurance is becoming more widely recognized every day as fundamental good business. It is one of the valuable features of our service as Insurance Brokers that we provide this protection for our clients.

We appraise your property and keep it appraised—advise you in every step of your insurance precautions—see to it that you are neither over-insured nor under-insured. We represent the insured, rather than the insuring company. Let us explain to you the advantages of our ADDED INSURANCE SERVICE.

NEW YORK STOCK EXCHANGE.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 2.—Stocks were again in good demand today with bidding most active for the standard rails. The upward movement of yesterday was carried forward steadily and gains were well distributed.

Trading was not begun until 1 o'clock, the opening having been postponed by fire which resulted in filling the board-room with smoke, flooding the floor and damaging the electric signalling apparatus. Business was on a fairly active scale, transactions in the two hours being 310,000 shares.

There were no outstanding developments to which the rise was attributable. It appeared to be due largely to the favorable technical position in which the market was placed as a consequence of the recent extended selling movement. Coupled with this was a moderate amount of investment buying, attracted by the low levels to which the standard dividend payers have been marked down.

Railroad shares held the leadership. Quotations of the representative rails were run up from one to nearly three points. The Hill stocks and coalers were favorites. Northern Pacific crossed 60, showing a gain of more than nineteen points from the low of the year, Great Northern preferred rose 2½ to 76¾ compared with the year's low of 60.

Industrials were less conspicuous, although sugar equipments, tobaccos, steel and oil shares figured in the day's rise. There were a few soft spots in the list, including General Electric, International Harvester, Central Leather, Chandler and United Drug.

Call money renewed at 5 per cent, compared with 4½ yesterday and later advanced to 5½ per cent. The movement in the foreign exchange market was narrow and irregular with marks showing heaviness.

There was continued activity in the bond market on a rising scale of prices. Liberty Bonds shared in the upward movement. Total sales, par value, $8,400,000.

THE CITY AND ENVIRONS.

For State Officers.

State officers of the W.C.T.U. will be guests of the Los Angeles W.C.T.U. from 2 to 4 p.m. tomorrow, at 357 South Alvarado street. Because of this reception the weekly meeting in the First Christian Church will not be held.

War Mothers to Meet.

After a month's vacation, the War Mothers will resume their activities on Friday, when the first meeting of the season will be held. The organization will meet every first and third Friday of the month. Plans for future work will be made this week, and those heading the organization urge every mother who had a boy in the World War, and those who are interested in the work, to attend. It was stated that a large number of former soldiers and sailors need the assistance of every mother.

Red Governor of Petrograd Quits Soviets.

[BY CABLE AND ASSOCIATED PRESS.]

LONDON, Aug. 2.—Confirmation of recent reports that G. S. Zinovieff, governor of Petrograd had severed relations with the soviet government, was given in the House of Commons today by Maj. Sir Philip Lloyd-Graeme, parliamentary secretary of the Board of Trade. In answer to a question regarding Russia, Sir Philip remarked that Zinovieff "has ceased to be a member of the soviet government."

Early in July advices from Moscow stated that Zinovieff had been unanimously re-elected chairman of the executive committee of the Third Internationale.

Mrs. Agee Is Acquitted.

[BY A. P. DAY WIRE.]

PORTLAND (Or.) Aug. 2.—A circuit court jury here last night returned a verdict of not guilty in the case of Mrs. Louise Agee, charged with the murder of her husband, Harry Agee, last June. The verdict was returned after twenty-nine minutes of deliberation.

Fail to Wait For Decision.

[BY A. P. NIGHT WIRE.]

ROCHESTER (N. Y.) Aug. 1.—Several thousand building construction workers, who have been on strike here since April 1, returned to work today without waiting for a decision on the new wage schedules being considered by the arbitration board recently appointed.

Assails Child With Hammer.

[BY A. P. NIGHT WIRE.]

PEORIA (Ill.) Aug. 2.—John O'Hara, a hired hand, assaulted the 9-year-old son of his employer, Don Wickham, Greenview farmer, with a hammer as the child slept last night and escaped. Hundreds of farmers formed in a posse, are searching for O'Hara.

ROME, Aug. 2.—The Senate yesterday voted confidence in the government 142 to 17.

The Chamber of Deputies recently voted confidence in the government by its approval, 302 to 136, of the government's declaration of policy.

FIX PRICE OF FARM PRODUCTS.

South Dakota Man Has Plan for Stabilization.

Suggestion Indorsed by Bankers Now Before Senate.

Government Would Guarantee Production Cost.

[BY A. P. NIGHT WIRE.]

PIERRE (S. D.) Aug. 2.—A plan, which its exponents claim would stabilize the prices of farm products, has recently been presented to the Senate Agricultural Committee at Washington. It has likewise passed the lower house of the South Dakota Legislature and has been indorsed by financial and farming associations.

According to Will H. Lyon of Sioux Falls, S. D., the plan's author, it will not only stabilize the price of farm products, but will go farther and stabilize business in general, to a great extent.

In explaining the plan, Lyons says:

EXPLAINS PLANS.

"The stabilization plan would have the national government guarantee to farmers the average cost of producing staple, nonperishable, crops, plus a reasonable profit, by agreeing to purchase whatever surplus remains on hand at the end of the crop year, delivered at certain central terminals and at a stipulated minimum price.

"This surplus in every staple crop, except wheat and cotton, is so small that the amount of money required would be insignificant in comparison with the value of the entire crop.

"If the surplus of any crop should prove excessive, the stabilizing commission, fairly representing both producers and consumers, appointed by the President, would probably reduce the price for the following year and increase the price of other products in which a shortage might exist and thereby induce our farmers to increase production of flax, wool and sugar which we now so largely import, at a cost of several hundred million dollars a year.

CONTROL OF IMPORTS.

"The government under the plan must necessarily control the imports of such products and through the stabilizing commission would purchase abroad at the world price level, any deficit required and sell to our manufacturers at not less than the guaranteed price (except that intended for export) thereby making a profit of the difference between the cost and selling price. Speculation in food products so abhorrent to the general public would, of course, be automatically eliminated below the guaranteed price.

"Now, when the farmer succeeds in producing a crop he does not know whether to sell for fear the price will go down, or hold for a better market. Knowing in advance the guaranteed minimum price of the various products, the farmer can use his land and ability to the best possible advantage and the rental and salable value of land will be largely stabilized. The guaranteed minimum price, of course, should not be made sufficiently high to induce speculation in farm lands or produce an excessive surplus.

"Under the stabilizing plan the farmer would receive the same price regardless of road conditions. Under the present system the highest price usually prevails when roads are bad or elevators congested and delivery is difficult or impossible. When these conditions improve the price goes down."

ENCKE'S COMET IS ON WAY HERE.

Argentine Astronomer Saw Visitor July 23; Comes Every Three and Half Years.

[BY A. P. NIGHT WIRE.]

CAMBRIDGE (Mass.) Aug. 2.—Encke's Comet has sent out advance notices of its approach to our planetary system. Harvard University Observatory announces that it has received a cablegram from Prof. C. D. Perrine, director of the national observatory at Cordoba, Argentina, stating that he had seen the visitor on July 23. Encke's Comet, discovered in 1879, visits our solar system every three and a half years, but never comes near enough to theearth to permit inspection by the naked eye.

FOREIGN BRIEFS.

[BY CABLE AND ASSOCIATED PRESS.]

DUBLIN, Aug. 2.—Jorn J. Egan who had been incarcerated in the Limerick jail was liberated Sunday and has reached his home.

Egan was under sentence of death but last week, the master of the rolls in habeas corpus proceedings ordered that the prisoner be brought into court. Failure to comply resulted in writs of attachment being issued against Gen. Sir Neville MacReady, commander of the British troops in Ireland.

RIGA, Aug. 2.—While the aid committee is doing its utmost for the relief of the starving populations in the provinces in the stricken country the soviet government is preparing to prevent a failure next year, in Russia's granary, the Volga provinces. To accomplish this end, 12,000,000 poods (a pood is about thirty-six pounds) of grain for winter sowing must be delivered at the latest by September 1.

The area where crops have proved a failure was expected to furnish 60,000,000 poods of the government's 240,000,000 requirements by the natural tax, hence the scale of taxation will be raised in the fruitful provinces.

Migration of peasants from the famine districts, except where it is organized by the government, has been prohibited by an edict of the famine committee, according to the Moscow Pravda.

BOMBAY, Aug. 2.—A huge bonfire has been made of large stock of foreign cloth and cotton goods recently arriving here. The Nationalist leader, Ghandi Bughandi, himself started the conflagration in the presence of thousands of people and the delegates to the all-India Congress.

Ghandi has thus carried out by direct action the threat embodied in the boycott proclaimed against all foreign importations of this kind as part of his nonco-operative movement.

Find Body of Drowned Man.

[BY A. P. NIGHT WIRE.]

MARYSVILLE, Aug. 2.—The body of D. Studd, supposed by the authorities to be a resident of Sacramento, was found by searchers today in the Feather River, in Yuba City, five miles west of here, after his disappearance yesterday. It is supposed that he drowned while in swimming.

KILL BUTLER WITH WOMAN.

Sinn Fein Executed and Buried Mrs. Lindsay Beside Servant; Ireland Silent on Peace.

[BY CABLE AND ASSOCIATED PRESS.]

DUBLIN, Aug. 2.—Mrs. J. W. Lindsay, widow of a Cork landowner, who was executed some months ago on conviction of being responsible for the execution of five Sinn Feiners by the British authorities, was accompanied to her death by her butler, J. Clarke, it is announced by the Minister of Defense of the republican government. Following their execution the bodies were buried in the same grave, it is declared.

LONDON, Aug. 2.—Ireland still preserves sphinx-like silence on Great Britain's peace proposals, and it is likely it will continue to do so for another week or more.

Eamonn de Valera has consulted practically all of his colleagues of Dail Eireann, as well as many local leaders of the Sinn Fein, and all that remains to be done is to lay the proposals before a full meeting of the Dail Eireann.

This, a report from Dublin today said, probably will be done some time this week or early next.

It has been definitely decided that there will be no partial meeting of the Dail, which means that before such a momentous gathering can take place, the thirty-six members now imprisoned or interned must be released.

RELEASE A CRISIS.

Release of these men, then, will be the final signal that a crisis in the negotiations is approaching.

De Valera refuses to ask formally for their release, because this, he thinks, might be construed as acknowledgment of Great Britain's right to imprison them, but it is an open secret here that Great Britain is willing to waive that point and would consider an order by De Valera summoning to a full meeting the men in jail as a request for their release.

SEIZE BRITISH RUM SHIP.

Schooner Taken Outside of Three-Mile Limit With Heavy Cargo of Liquor on Board.

[BY A. P. NIGHT WIRE.]

NEW YORK, Aug. 2.—Federal officials claimed tonight to have evidence of a rum-running conspiracy involving prominent persons in various cities along the Atlantic seaboard, which would go far toward clearing up the mystery of phantom ships. This claim was made after the liquor-laden schooner Henry L. Marshall had been seized off Atlantic City and brought here with four of her crew by the Coast Guard cutter Seneca. Her captain and mate escaped in a motor boat.

Federal agents intimated that more than one vessel was engaged in landing liquor. Firm belief was expressed that these were the lightless crafts which mariners declared had been sighted and refused to answer signals.

No specific complaint has been lodged against the schooner Marshall, which, with her cargo of more than 1500 cases of liquor, is being held by armed guards pending investigation.

If such a meeting is called it will be held in the Mansion House at Dublin and the sessions will be private.

In the meantime it is reported that Mr. Lloyd George and Mr. De Valera have been in frequent communication on minor points, the messengers being trusted lieutenants who go and come quietly without recognition.

ULSTER PROBLEM CRUX.

Ulster, of course, is still the crux of the problem, but much is hoped for from Sir James Craig's visit to London tomorrow.

The British House of Commons is becoming impatient over the continued secrecy in the Irish affairs.

Replying to Col. Archer Shee, a leading Tory, this afternoon, who had asked whether, in view of the fact that Mr. De Valera had made the proposals known at a secret meeting of Dail Eireann, Mr. Lloyd George could not do the same at a secret session of Commons, Mr. Austen Chamberlain said merely that the Premier hoped to make a statement before the end of the session.

Replying to another question, Mr. Chamberlain said it had been agreed between the Premier and Mr. De Valera that in the event of the negotiations breaking down, fair warning would be given of the end of the truce.

JAP STRATEGY IS EXPLAINED.

Economic Blockade is Feared by Nippon.

America Bought Entire Silk Output Last Year.

Freedom of Seas Important Question at Issue.

[BY CABLE—EXCLUSIVE DISPATCH.]

TIEN-TSIN, Aug. 2.—Japan's apparent change of strategy and the expressed willingness to reduce its program of capital ships, but without saying anything about auxiliaries, is believed to be due to the realization that it would be forced to submission within a year or eighteen months without having fired a shot from one of its big ships—and this through the medium of an economic blockade.

A few figures by Baron Goto, Mayor of Tokio; Ikalo Fujiyama, president of the Tokio Chamber of Commerce, and other influential men of the nonbelligerent type give some explanation of this apparent revision of Japan's naval intentions.

Japan in 1920 sold 100 per cent of its silk to the United States. In normal years the United States buys 85 per cent of Japan's silk. It also sells to the United States 90 per cent of its tea and 70 per cent of its porcelains. It buys in the United States 90 per cent of its cotton and probably 50 per cent of its steel. These are the main raw materials necessary for Japan's great trade with China and India. As Baron Goto phrased it, "just cut off even our silk trade and see what will happen to Japan."

BLOCKADE GREATEST FEAR.

So Japan's greatest fear is a blockade and to keep its seas open a great force of auxiliaries, such as submarines, destroyers, airplanes and fast cruisers of great range is essential, rather than battleships or battle cruisers.

But here comes up a delicate question regarding the freedom of the seas, and having a side effect upon the Anglo-Japanese alliance. The question of the freedom of the seas was unsettled when the United States entered the World War, and was not renewed by President Wilson, owing to his faith in the League of Nations. There are some who believe that in the possible event of a break between the United States and Japan, Great Britain, in an effort to capture the trade lost to both countries while it was busy at war, will insist upon revising its late view of the freedom of the seas and will try to carry cargoes to Japan.

BRITAIN SETS PRECEDENT.

Great Britain set a precedent against itself by insisting, even while America was in the war, of diverting cargoes to British ports for search or detention, persisting in its right to do so despite opposing view of France. Whether it would be willing to permit a like search and detention by the United States in the event of a war with Japan many Japanese seem to doubt.

Therefore, the question is one that is likely to come up before the alliance is renewed, as Japan appears to be eager to be in a position to trade with its ally, even though Great Britain exempts itself from the obligation to come to the aid of Japan against the United States.

A member of the House of Peers pointed out that the seizure of a British vessel, as Canada or Japan might result in Great Britain's refusal to recognize the principle of search and detention and thus be brought into the war as Japan's ally, in spite of the agreement with the United States in this respect.

SHIPMENTS INCREASE.

Clovis Sending Out Seven Cars of Fruit Daily.

[LOCAL CORRESPONDENCE.]

CLOVIS, Aug. 2.—Fruit shipments from Clovis now average about seven cars daily, but will be much heavier this week. At the present time Buck, Setchel, Picneer, Stewart and the San Joaquin Fruit Growers are shipping peaches, with an occasional shipment of Thompsons.

The Peach Growers' Association of Clovis is preparing for the fruit season and has already shipped a car of figs to plant No. 9, Fresno. Hugh D. Rogers is acting as district manager and Clyde Gibson as house manager this season.

Landers & Mathews, grain dealers, are enlarging their place of business by the addition of a large brick building. They are also installing machinery for rolling and cleaning barley. Kennedy & Mills of Fresno have the contract for the erection of the building and installation of the machinery.

The Setchel fruit plant is busy packing peaches, and expects to handle a heavy shipment this week. L. D. McCormick is acting as field manager. Floyd Gibson, house manager, and Mrs. William Welborn, forewoman.

THE WEATHER

(Official Report.)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Aug. 2.—[Reported by H. R. Hosmer, Meteorologist.] At 5 o'clock a.m. the barometer registered 30.02; at 5 p.m., 29.94. Thermometer for the corresponding hours showed 62 deg. and 72 deg. Relative humidity, 5 a.m., 87 per cent; 5 p.m., 67 per cent. Wind, 5 a.m., west, velocity 3 miles; 5 p.m., southwest, velocity 5 miles. Temperature, highest, 76 deg.; lowest, 61 deg. Rainfall, none reported in 24 hours.

WEATHER CONDITIONS.—Local observations recorded yesterday in the lake region, the Upper Ohio and Missouri valleys, Kansas, Colorado and Utah, Cool weather continued from the Northern Rocky Mountains eastward across the lake region to the New England coast. In Southern California fair and cool weather prevailed Monday, with clouds in the morning. It was cloudy or partly cloudy at most stations yesterday morning. Mt. Wilson reported top of fog at 1,200 feet above sea level. Fair weather with moderate temperatures may be expected in this vicinity today, and clouds and possible thick morning.

SUN, MOON AND TIDES.—Los Angeles, August 3, sun rises 5:06 a.m.; sets 6:52 p.m. Moon rises 4:57 a.m.; sets 9:43 p.m. Los Angeles Harbor, August 3, height of tides, 5:15 a.m. and 5:31 p.m.; low tides, 12:09 a.m. and 2:43 p.m.

ORCHARD REPORTS.—Minimum and maximum temperatures in the orchards, reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Stations—	Max.	Min.
Los Angeles Harbor	74	62
Mt. Wilson	76	50
Pasadena	92	56
Pomona	92	56

SAN DIEGO TO HAVE MIDSUMMER CARNIVAL.

[EXCLUSIVE DISPATCH.]

SAN DIEGO, Aug. 2.—Local business men will hold a great midsummer carnival the 18th, 19th and 20th, inst., the plans for which were announced today. The nineteen committees working on the program plan to have something doing every minute of the three days. Sightseeing trips in the morning for visitors, with athletic events in the stadium, music by military and naval bands in Balboa Park and on the Plaza, are included in the program.

An auto parade, with a tea and reception in Balboa Park and an Army and Navy exhibiton on the water front, are planned for the first afternoon, with an Army and Navy ball in the evening at the Civic Auditorium in Balboa Park. Friday will be given over to trips to Rockwell Field, for the aviation events and an industrial parade and a fashion show in the evening, with live models in the downtown stores. For Saturday boat races, rowing and swimming races, and a water carnival are planned. Band concerts, moonlight organ recitals, and open-the Plaza, are included in the program.

QUESTION RIGHT OF POWER PLANS

Arizona Men Think City Has No Place Over Line.

Official Says Government, States Should Decide.

Two Conferences Today About Boulder Canyon Dam.

Today when representatives of Arizona, Nevada and the Imperial Valley meet with officials of the Bureau of Power and Light to discuss the Boulder Canyon dam project, Arizona will want to know by what authority the city of Los Angeles intends to jump the State of California and develop hydroelectric power in another State.

The conferences will take place during the day—one this forenoon with officials of the Bureau of Power and Light, the other this afternoon with officials of the Southern California Edison Company. Both will be informal meetings, at which all sides will be asked to lay their plans on the table. The general public will not be admitted.

U. S. Norvell, State Water Commissioner of Arizona, who sat in two conferences of Arizona, Nevada and Imperial Valley representatives yesterday, says that nothing can be done at this time beyond a thorough airing of views on the subject.

TO DELAY ACTION.

It seems that Arizona will take no action in regard to filings on Colorado River power sites until after the organization of the River Commission, authorized by the Legislature of seven States. It will consist of representatives of Utah, Wyoming, Colorado, Nevada, California, Arizona and New Mexico, together with two Federal government representatives.

The two Federal representatives cannot be named until the Mondell bill, which is now in the House, is passed to authorize their appointment. It is expected that the commission can be organized early this fall.

Last night, Mr. Norvell was doubtful as to the authority of the city of Los Angeles, as a municipality, to push another State in quest of power. Without saying that he was fully advised in the matter, he said he noted if the State of California should go into Arizona and develop power, such action would certainly have to be done by joint agreement of the States and the Federal government, he thinks.

RIVERSIDE'S ATTITUDE.

Ben Porter of Riverside told the Imperial power representatives recently that his city is committed to the loss of a big general power development plan, but has not gone

(Continued on Seventh Page.)

HURRY-UP SALE OF BONDS COSTS CITY BIG SUM.

Private, Unadvertised Disposal of Huge Power Issues Raises Protest; Suit Filed to Block Transaction.

The private, unadvertised sale yesterday by the city of $13,500,000 worth of municipal power bonds for $11,965,000 cost the people of Los Angeles at least $500,000 in hard cash, perhaps more, not counting discount and interest loss, according to the statement of local bankers after the Council had voted to accept the offer and a suit had been filed in the Superior Court to halt the transaction.

The money is for the purchase of the Edison company distributing system, but the Edison company will not accept the money for seven months yet, when the contract specifies it shall be paid. The city will therefore have to bank the money at 2 per cent interest and pay 6 per cent on it for seven months before it can be used at all, which figures an additional net loss to the city of some $280,000 on top of the discount of $1,535,000.

C. E. Woodside, department manager for the Citizens' National Bank, said local financial interests were surprised at the way the city put the deal through.

"We would have been glad of an opportunity to bid on the bonds ourselves," said Mr. Woodside. "For example, we have two groups of clients in the East on whose behalf we would have offered a premium for the $1,200,000 worth of harbor bonds to have been sold tomorrow. These bonds carry 5.75 per cent interest. For the 5 per cent power bonds we would not have been able to bid par, but I am certain the city could have realized at least $500,000 more than it did."

The power bonds, sold to Irving H. Hellman, acting for an eastern syndicate, are those voted by the people in 1919 for the purchase of the Southern California Edison Company's distributing system in Los Angeles and for some improvements. Under the provisions of the measure passed by the voters the interest was not to exceed 5 per cent. By means of a State law which became operative only a few days ago the Council asserts it has the authority to sell any bonds at a rate not to exceed 6 per cent to the investors.

DENOUNCES RUSH ACT.

Councilman Mushet bitterly opposed what he termed "snap judgment" and "one-minute stuff" forced on the Council by the presentation of the Hellman offer, to be accepted or rejected by 11 o'clock yesterday morning. Councilman Criswell, chairman of the Finance Committee of which Mr. Mushet also is a member, admitted on the floor of the Council chamber that perhaps he (Criswell) was the only member of the Council who knew anything about the definite offer until it was presented yesterday morning, even the other members of the Finance Committee not being advised. Despite the emphatic and spirited opposition of Mr. Mushet the Council passed, by a vote of 8 to 1, the resolution accepting the bid.

In defense of their majority report urging this action by the Council, Messrs. Criswell and Mallard declared the Board of Public Service Commissioners and the board special counsel, Attorney Mathews, had studied the situation thoroughly and believed this was the best bid the city could expect. Mr. Mushet, in protesting against the hurried action, had read into the record a letter from R. H. Ballard, vice-president and manager of the Southern California Edison Company, directing the Council's attention to the agreement under which the consummation of the sale of the company's distributing system is not to be made until March 1, 1922, seven months from now.

President Howard Robertson of the Public Service Commission, and Attorney Mathews, both said late yesterday that the bidding on the bonds was entirely private; that no advertisement of the bonds had been ordered; that the discussion with the Hellman interests had been going on for about two weeks, but that no notice, either formal or informal, had been sent to any possible bidders, but that the Public Service Commission believed it was the best bid the city could get. Representatives of the commission said as late as last Saturday night that no deal was pending for the sale of the bonds.

SUIT IS FILED.

The court action to prevent the completion of the transaction came when Attorney Ingle Carpenter filed a suit in Superior Court on behalf of Harry W. Anderson, a resident of Hollywood, for the purpose of holding the contract in abeyance until the entire matter can be threshed out in the Superior Court. That it is mandatory on the court to prevent the consummation of the contract during the present controversy is the contention.

The suit points out that the contract for the bonds calls for their sale at a loss of $1,535,000 from the face value, and that this is in direct violation of the agreement entered into with the people when they voted the bonds. The contract means that for every $100 of the bonds sold the city will get only $81.81, and will bring approximately 6 per cent to the investors, whereas they should bring not to exceed 5 per cent under the agreement with the people, the suit states.

Asserting that no emergency exists and that this is the worst time in which to sell the bonds, the plaintiff asks that the city be restrained from carrying out the contract. The complaint declares that under the present agreement under which the city is obtaining power and light from the Edison company at a fair rate, the city can continue to do so until such time as the bonds can be sold at par.

The suit filed yesterday indicates that the entire history of the power project, now one of the most important questions before the city, will be discussed legally with the spotlight of law thrown upon the terms of the agreement entered into between the Edison company and the Board of Public Service Comissioners, cating for the city.

WHAT ROBERTSON SAYS.

In discussing the statements of financial men that the commissioners and the Council acted precipitately in accepting the Hellman bid, Mrs. Robertson said, to a Times representative:

"The fact that the power bonds were to be sold was well known, even without the formality of advertising. There is no provision for all bonds to be advertised, and some of our largest issues have been sold without such advertisement.

"Anyone interested surely knew that the bonds have been for sale for some time, and had opportunity to submit an offer. It seems to me that it is very strange such remarks as you have quoted to me should be made now that the sale is completed, instead of having something tangible in the form of bids presented to the officials.

"The bid from Mr. Hellman was the only definite bid received. We believe it is the best the city could hope to get at this time. Mr. Hellman announced that he was able to extend the offer only until 11 a.m. because many persons were in the syndicate and must know one way or the other without delay. It was simply a question of having an offer and deciding whether or not to take it at once or to lose it.

"As for no other local persons knowing of the prospect of selling the bonds, we received tentative offers from a combination of Los Angeles, San Francisco, Chicago and New York men, and gave them every opportunity to make a definite bid. They failed to appear at the time set and so only one bona-fide bid was before us or the Council.

"Although the rate of interest under the sale today is more than the 5 per cent voted, it must be remembered that practically all the municipal bonds recently sold have carried a 6 per cent rate and that few bonds except the State highway bonds have sold as low as 5.75 per cent. The harbor bonds recently authorized for

(Continued on Eleventh Page.)

HEAR COTTON SELLING PLAN.

Explain Scheme to Export It to Czecho-Slovakia.

Mills There Would Forward to English Markets.

Californians Are Interested in Co-operative Move.

The project to ship California cotton to Czecho-Slovakia, where it would be manufactured and sold on the English market, all through a co-operative corporation, was discussed yesterday at a meeting in the Los Angeles Athletic Club, called to hear Charles F. Wood, vice-president of the Warrant Warehouse Company of Birmingham, Ala., which already has put into operation the co-operative cotton plan. Another gathering, attended by bankers from the Imperial and Salt River valleys, will be held Friday, when Mr. Wood again will relate the experience of the Alabama growers.

"The manufacturers in Czecho-Slovakia would have to pay $1300 a bale, because of the money exchange dates," said Mr. Wood. "Everybody knows the difficulties of the American growers. So we merely have put into practice the old plan whereby John Smith had some corn but no mill and Sam Brown had a mill but no corn. They did business on the barter basis. We have shipped 15,000 bales from Alabama on this plan and have other large consignments under way to Europe. We are doing with cotton very much as you California people have been doing by your co-operative handling of fruit."

The meeting yesterday was attended by a score of Los Angeles bankers and business men interested in cotton and several valley bankers, and by those who formed the Cotton and Fabric Corporation, the service concern that initiated the project here. The Warrant Warehouse Company of Birmingham will take over the functions of the Columbia corporation and, according to the proposal, ship the California cotton, see to its manufacture in Csecho-Slovakia and its marketing in England just as has been done with Alabama cotton.

A group of men interested in the project will go to Phoenix next week to interest Arizona cotton growers in the project. Among those identified prominently with the project are Herbert Law, retired merchant and banker of San Francisco; Victor Freeman of the Freeman & Sumner Company, engineers, and K. M. Turner, local cotton merchant.

The meeting yesterday was attended by a score of Los Angeles bankers and business men interested in cotton, and by members of the Columbia Cotton and Fabric Corporation, the co-operative concern formed to ship California cotton to Czecho-Slovakia, see to its manufacture and to the sale of the goods on the English market. Herbert Law, retired merchant and banker of San Francisco, one of the organizers of the Columbia Corporation, and K. M. Turner, local cotton merchant, California representative of the corporation, were at the meeting. Mr. Law, Victor Freeman of the Freeman-Sumner Company, engineers, and A. M. Friend of the Mississippi Delta Cotton Export and Trading Company, formed the Columbia corporation a few months ago.

It is planned to supply six of the old Austrian mills which have been making cotton fabric for generations. California growers had a record crop last year but have been unable to sell profitably.

AMITY IS KEYNOTE.

Anglo-American Friendship to Rule British Overseas Club Meeting.

Anglo-American amity is the keynote of the celebration to be held tomorrow night at the formal opening of the new headquarters of the British Overseas Club at 110 South Spring street.

The Los Angeles branch of the Oveaseas Club, with a membership of many thousands of former residents of England, Ireland, Scotland, Wales, Canada, South Africa, New Zealand, India, Australia, Ceylon and other British colonies, intends to devote much effort toward the maintaining of the good feeling which now exists between America and the countries of the British flag, it is said. To this end the opening celebration to be held tomorrow night will be a get-together affair at which Mayor Cryer will deliver the principal address, followed by "hands across the sea" talks by State Commander Pitts of the American Legion and Brook Hawkins, president of the Overseas Club. A program of entertainment, headed by the Los Angeles Scottish Pipe Band and concluding with a grand march of uniformed Allied veterans, will be followed by dancing.

Guests will include the local consuls of the Allied nations and presidents of the various British and British colonial societies.

TO HEAR PROTESTS.

Members of the California Anti-Vivisection Society and others interested in humane animal work are expected to be present in force at 1:30 p.m. today when the Finance Committee of the City Council will take up the protests against the request of the Board of Public Works for the transfer to it of eighteen of the old fire horses for garbage collection work.

While away on your vacation it will be fun to be a spectator, watching the procession of events through the pages of the

LOS ANGELES "TIMES."

Simply telephone your vacation address and the paper will be sent wherever you may go.

VETERANS SAY KIRK GUILTESS.

Declare Charges Against Officer Unfounded; Act to Aid Inquiry.

Roosevelt Camp, No. 209, United Spanish War Veterans, last night adopted resolutions declaring "unwaranted in fact and unjustified" the charges against Maj. R. E. Kirk, ranking officer of the National Guard here, which have been presented to the Governor by the Merchants' and Manufacturers' Association. The camp appointed a committee to confer with a committee from the Merchants' and Manufacturers' Association, or independently to look further into the matter.

The charges of radicalism against Maj. Kirk are unjustified, the resolutions set forth, because "Maj. Kirk's previous political opinions, though differing from those of most of us, never did involve disloyalty to flag or country, and that his service and sacrifice not only wrought a change within himself, but also called forth in us a realization of worth and of grateful indebtedness which would have more than bridged any differences in political opinions, even though his political opinions had remained unchanged."

It was set forth that Maj. Kirk had a brilliant record in the Spanish-American War and in the World War, that he is "a man born in America, and American in all his instincts and sentiments," and a member of the Spanish War Veterans, Veterans of Foreign Wars, and the American Legion.

The Roosevelt Post committee which offers to co-operate with a committee fro mthe Merchants' and Manufacturers' Association, is composed of Lieut.-Col. Howard W. Scager, Gen. Robert Wankewski, Judge Weller, E. A. Lane and A. C. Jewell.

ENDS LIFE BY GAS.

Man, Thought to be From Canada, Kills Self; Relatives Sought.

Police last night were endeavoring to locate relatives of a man thought to be William Burr, who killed himself by inhaling gas in his room at 148 West Eighteenth street. The body was discovered by John Penning, son of the proprietor of the rooming-house, who notified the University police.

The man left no note explaining the motive for the suicide. He had been a roomer at the Eighteenth-street house less than forty-eight hours when he ended his life, and neither the proprietor or anyone at the house could tell the police anything about him. He is thought to have come here from Canada.

Efforts were made by Police Surgeon Saverien at the Receiving Hospital to revive the man when he was taken there, but without avail. The body was taken to the George K. Willett undertaking establishment.

NEW JUDGE TO SIT.

Pasadena Jurist is Selected to Try Bank Case Here Today.

Edward Hahn of Pasadena, one of the three judges appointed by the Governor, will sit in today as Superior judge protem in one of the vacant departments. He has been selected by the attorneys and litigants to try the suit of the Continental National Bank against Louis O. Compton. He will not be sworn in as a Superior Court judge until later.

WHITE PLAGUE VICTIM.

Ex-Soldier, Accused of Stealing Flag, Turned Over to American Legion.

R. H. Smith, a former soldier, charged with having stolen the flag of the Ninth Regiment, while stationed at San Diego, will be turned over to the American Legion for attention.

When the young man was arraigned before U. S. District Judge Trippet yesterday, it was stated that he is a victim of acute tuberculosis and that he is in need of a major surgical operation. He pleaded not guilty to the charge.

OWNS SHE'S MOTHER OF DEAD BABY.

Woman Found at Hemet Says Infant Hid in Suit Case Was Lifeless at Birth.

Brought here from Hemet at midnight last night, Medora privette admitted, Ventura county officials say, that she is the mother of the baby whose naked body was found Monday afternoon in a suit case hidden in a clump of bushes beside the Rincon highway near Ventura. The woman was found at Hemet by deputy sheriffs at 8 p.m. and was rushed here by automobile. She is under technical arrest, the officers state.

Four officials from Ventura county, Undersheriff Allen Pope, Dep. Dist. Atty. R. M. Sheridan, Coroner L. R. Hathaway and Deputy Coroner F. F. Hamm, were grilling her at an early hour this morning. She asserts, the deputies say, that the baby was dead when born; the Ventura county authorities, although they have not performed a formal autopsy because of the decomposition of the body, say this probably is true.

They stated that an inquest will be held today, and meanwhile no charge will be placed against Miss Privette.

LAWYER IN SURPRISE MARRIAGE.

James G. Scarborough Weds Society Woman; Couple Leaves on Honeymoon.

James G. Scarborough, well-known attorney of this city, was married yesterday to Mrs. Margaret E. Jenkins, society woman of Philadelphia and Southern California. The ceremony took place in St. Paul's Pro-Cathedral at 11 a.m.

Immediately following the marriage, the couple left for an extended honeymoon. They will be gone about three months, according to James G. Scarborough, Jr., and it is said that the trip will include visits to many eastern cities.

Only members of the immediate families of the pair attended the wedding. The service was read by Dean MacCormack of the Pro-Cathedral. The romance has been kept a secret and it was not known by friends of the couple until yesterday that marriage was planned. Mr. Scarborough is a member of the firm of Scarborough and Bowen in the Washington Building. The bride is 43 years of age, and the bridegroom is 50.

SAY PLOT CONFESSED.

Police Assert Many Robberies Were Planned by Suspects.

Oliver Tyndall and Douglas Treunnett, held in the City Jail as skylight burglars, confessed yesterday, according to the police, that they had intended to loot several Los Angeles stores and sell the stolen goods in San Francisco. A woman, thought to have been a member of the gang, is sought by the police.

The men were taken into custody late Monday night by Police Detectives Vail and Thompson while in the act of burglarising a store at 723 West Seventh street. According to the officers, the prisoners had rented a room in a hotel next door to the establishment they had intended to rob and had then broken out the skylight of the store.

Police were notified by several persons in the hotel that thieves were working on the roof of the store and the arrests resulted.

ARKANSAS FLOODS BANKS.

[BY A. P. NIGHT WIRE.]

PUEBLO (Colo.) Aug. 2.—Reports from the West are to the effect that the Arkansas River at Canon City is the highest ever known at that place. It was reported that the water was fifteen feet high at Canon City, and at Florence the cellars in the town were filled with water.

Western Union officials here declare that water is running three feet over the railroad tracks in the Royal Gorge. Telephone and telegraph communication with Canon City is down, and definite information concerning the situation there is unobtainable.

Canon City is thirty-five miles west of Pueblo.

DILEMMA LAID TO SPITEWORK.

Woman Who Chastised Child Accuses Busybodies.

Nabbed Here on Misdemeanor Charge; Will Fight.

Purposes to Sue Those Who Caused Her Arrest.

"Neighbors who have never learned to mind their own business—that is what this is all about. Persons who have nothing to do and just can't keep their noses out of other people's affairs. I am not sure what I have been arrested for, but believe I am charged with whipping my little daughter, Alice."

This is what Mrs. Dessie Davis, 23 years of age, wife of Lester Davis, an Indio railroad man, told the local police yesterday when they took her into custody on a misdemeanor warrant issued in Riverside county. Ten minutes after her arrest she was released by Police Judge Richardson to appear in Riverside in one week.

From what Police Detectives Simpson and Shy, who made the arrest, were able to learn from Mrs. Davis and from Sheriff Wilson of Riverside county, Mrs. Davis is charged with having whipped her daughter, Alice, 6 years of age, about two weeks ago. The child was punished for running away from home.

SPITEWORK CLAIMED.

"The whole charge against me is the outcome of spitework," stated Mrs. Davis. "Little Alice is a very good child in most ways, but she has one very bad habit: She will not stay at home and, unless I have my eye on her all the time, she leaves the house and takes up with the first stranger she sees on the street. I talked the matter over with my husband and we at last came to the conclusion that we would have to punish Alice so that she would not forget it. About two weeks ago she ran away again and when she was recovered I switched her with a small whip. The child screamed and cried and neighbors heard her. I thought nothing more of the matter and was pleased to see that the punishment had done some good.

ARRESTED HERE.

"Last week, on account of the heat in Indio, I came to Los Angeles with Alice to spend a few days. This morning I received a letter from my husband stating that neighbors were attempting to make trouble on account of the switching that I had given our daughter. The next thing I knew I was arrested."

After Mrs. Davis had been released by Judge Richardson she declared she would take the next train for Riverside and fight the matter in the courts. She added that after she has been cleared in the courts of the charge against her, she will institute a civil suit against the persons responsible for the complaint against her.

IN BANKRUPTCY COURT.

Alva B. McNutt, doing business at Fresno and Corcoran, filed a petition in bankruptcy in the United States District Court yesterday. The schedule places his liabilities as $14,498.55, and his assets as $9655.34, of which $8000 is the listed value of the stock in trade.

GASOLINE PRICE CUT TWO CENTS.

New Price in Force Today, Asserts Representatives of Company.

The Union Oil Company beginning today will sell gasoline for 23 cents a gallon, a 2-cent cut from the current price, according to an announcement last night by representatives of the company.

While local officials of the Standard Oil Company could not be reached last night, announcement of a 2-cent cut by that company, effective in all Pacific Coast States, was made in dispatches from San Francisco. The price of fuel oil to the consumer will be reduced 25 cents a barrel, while a similar reduction will be made in the price paid the operators for crude oil, according to the dispatches.

A 2-cent reduction in the price of gasoline was effective on May 25, when the Standard Oil Company took the initiative in the reductions. There had been 27-cent gasoline since October 1, when the price jumped to that figure from 24 cents.

CINDERELLA ROOF OPENS.

Three Thousand at Hospital Benefit; Mayor Welcomes Guests.

Three thousand persons, including many society leaders and motion-picture stars, attended the opening last night of the Cinderella Roof, Sixth and Olive streets. There were a ball and several numbers by dancers. The proceeds will go to the Children's Hospital.

Mayor Cryer made the opening address, welcoming the guests and praising the management for the addition to the city's amusement places. W. E. Kreiter, the manager, welcomed the visitors.

The Cinderella Roof has a large dance floor. The decorations were done by Howard Verveck and the hand-painted walls show the noted maiden of fable in many scenes of her life.

WIFE SUES D'ALERIA.

Organist, Who Wed Senator's Widow, in Tangle Over Antiques.

Count Armand d'Aleria, pipe organist, who married Mrs. Katherine Nixon, widow of Senator Nixon of Nevada, was made defendant yesterday in a claim and delivery action filed by his wife against A. A. Byrnes, dealer in antiques.

The wife asserts that her husband disposed of about $5000 worth of antiques which she had merely permitted him to keep at his residence, 2226½ Sunset Boulevard. He declares that he owned part of them and that she gave him the rest. He is now in the East.

MULLEN & BLUETT

QUALITY IN MEN'S WEAR SINCE 1883

Big,
But Not Too Big

There are many advantages in being a big store.

Being able to dictate our own terms of quality and workmanship to manufacturers—being able to maintain close connection with European centers—these are advantageous to our patrons.

But beyond a certain size an establishment loses its human relationship to its customers. We are not too big to still keep alive that friendly spirit of individual interest which has kept us "human" for over 38 years.

ESTABLISHED 1880.

GIRLS, HAVE YOU A BOO KOO BOY?

Here's Very Latest Endearing Term: Sweetie, Daddy Will Go in Discard.

[EXCLUSIVE DISPATCH.]

NEW YORK, Aug. 2.—The very latest in endearing names hereabouts — and Broadway claims the distinction of originality—is "Boo Koo, Boy." In 200 or more letters of love received in six months, Frances Mink, a Broadway showgirl, says Eugene Sulzer, musical comedy director, signed himself with that phrase, prefaced with "Your." And, because Frances says she found that Sulzer has a wife, she wants $25,000 to ease the loss of "Boo Koo Boy." To prove her case, the showgirl exhibited letters and some of the excerpts are:

"I am all for you, because you are you, and that is all."

"Every day seems an eternity, but each eternity brings me nearer to you and that's something to be thankful for."

CRIME GROWTH IN CITY SHOWN.

Intoxication, Auto Crashes Increase in July.

Statistician Reports More Thefts and Hold-ups.

Traffic Accident Total Near Eighty Per Day.

Crime of all kinds, intoxication and automobile accidents are on the increase in Los Angeles, according to the monthly report filed with Chief of Police Jones yesterday by Police Statistician Lyons. Arrests by the police are also on the increase, the report states.

During the past month, 515 persons were arrested on intoxication charges, compared to 476 in June.

Persons living in the city reported 198 burglaries, compared to 165 for June.

Hold-up men operating in the city robbed seventy-seven persons during July. Seventy-three persons were robbed in June.

Five persons were murdered in July and the same number were reported as murdered in June.

Pickpockets operating on the city streets robbed fifty-three pedestrians in July, whereas in June only eighteen persons were so robbed.

Automobile thieves stole 336 automobiles on the city streets during July. In June 316 were taken. The police recovered 165 machines in July.

Traffic accidents for July reached the total of 2464 in July, compared to 2036 in June.

Statistician Lyons's report shows that 356 persons were injured in traffic accidents on the city streets during July, whereas 326 were injured in June. The killed reached a total of twenty-five as compared to twenty-six in June.

In the city and county together thirty-two persons were killed as the result of traffic accidents in July.

According to figures given in a dispatch from St. Louis, Los Angeles is about as unsafe a city for pedestrians as there is in the country.

Based on the number of automobile accidents per 1,000,000 population, the race in St. Louis is the lowest, 121.2. Rates for other cities announced were: New York, 134.7; Milwaukee, 160.6; Pittsburg, 161.4; Chicago, 196.9; Detroit, 169.5; Cincinnati, 179.9, and Los Angeles 384.6.

ALL-YEAR AID GIVEN BY CAFES.

Nearly Three Thousand Dollars Added to Fund by Day's Report.

First returns yesterday from the special hotel committee which is soliciting the support of the restaurants and cafeterias for the All-Year Club program to advertise the year-round delights of Southern California, indicated that this group may be counted on to furnish a substantial share of the all-year fund. The Apartment-house Owners' Association also has appointed a special committee to secure contributions from its members for the work, it was announced yesterday.

Nearly $5000 in pledges was added to the treasury in reports returned by Walter E. Smith, Lee Holladay, R. W. Colburn, W. J. Dodd, W. C. Reordan, J. M. Styles and Daniel H. Jones, at the meeting of the executive committee. Yesterday's contributions came from the Blue Bird Cafe, Ye Bull Pen Inn, W. R. Davis, the Triangle Cafeteria, T-Bone Riley, the United States Potash Company, Golden State Portland Cement Company, Platt Music Company, Nelson & Price, Inc., Tropico Potteries Company, Metallic Brick Company, Gladding McBean & Co., Western Brick Company, Los Angeles Investment Company, Harry Johnson, J. B. Weaver, Clarence Woodcock, F. N. Dukit, C. A. Pullias, Harry Beckham and Harry Fink & Co.

Chairman Smith of the hotel committee stated that with only one exception all of the restaurant men called on, were enthusiastic believers in the plans and purposes of the All-Year Club. The five pledges handed in yesterday from the first group of restaurant subscribers were all for substantial amounts.

The action of the Apartment-house Owners' Association followed a recent meeting of the association at which about 200 apartment-house men were addressed by Daniel H. Jones of the club's executive committee. The association indorsed the movement without reservation and a dozen members, who volunteered, were named as a special committee to secure contributions.

TRIAL IS CONTINUED.

H. R. Maurer, former choir boy in Chicago, obtained another continuance of his trial yesterday in Judge Reeve's court. Maurer is accused of driving an automobile while intoxicated. His case has been delayed from time to time and yesterday, by consent of both the defense counsel, John L. Richardson and William H. Anderson, and the prosecution, represented by Dep. Dist.-Atty. Fricke, the action was continued until October 11 for trial.

MUST GIVE UP SECRET LAND GAINS.

Veiled Profits Charged Against Glendale Trustee Are Revealed in Court.

A real-estate suit involving charges of secret profits in which Spencer Robinson, president of the Board of Trustees of Glendale, figured as defendant, was heard yesterday by Judge Hewitt, and resulted in a verdict for the plaintiffs.

The suit was brought by S. J. Reid, Mrs. Mary E. Shropshire and Mrs. E. M. Pierce, as stockholders of the Verdugo Land Company, against Mr. Robinson and F. H. Vesper for an accounting and for a recovery of the plaintiffs' proportionate share of purported secret profits obtained by Mr. Robinson from the sale of land in the Verdugo tract. This tract consists of 198 acres in Verdugo Pass.

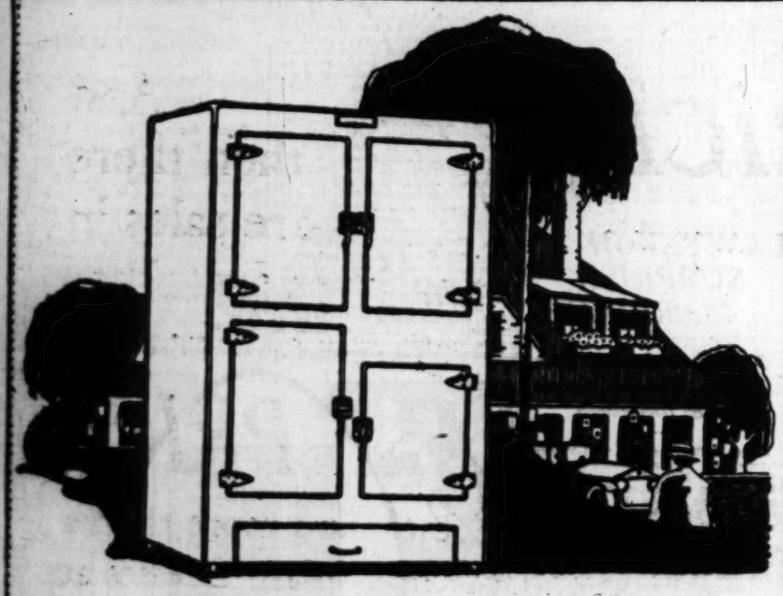
The testimony at the trial showed that the land ostensibly sold for $20,000, but really for $33,000. The court found there were secret profits made by Mr. Robinson as a director and officer of the Verdugo Land Company, with the knowledge and approval of Mr. Vesper, and gave judgment for the plaintiffs against both defendants in the sum of $6666.50, as their proportionate share of the profits.

The defendants asserted that the corporation knew all about the transaction and that they had a right to the money. The court found the corporation did not know about it and was not charged with the notice of it.

Mr. Robinson, who was recently elected a trustee of the city of Glendale and president of the Board of Trustees, was represented by Attorneys Oliver Clark and W. E. Evans. Attorneys George Greer and S. L. Carpenter represented the plaintiffs.

TWO MORE ARRESTED ON FORGERY CHARGE.

Albert E. Johnson, a young banker, and Jack Collins, a mechanician, both of whom are jointly accused with Justus M. Young and A. N. McDonald of forgery of a check for $400, were lodged in the County Jail yesterday by Deputy Sheriff Cochran, who brought them here from Everett, Wash., for trial. The four were indicted by the county grand jury on last July 19 on a charge of forging the name of Mrs. M. C. Gould to the check. Young and McDonald were also indicted for the asserted forgery of the name of Barney Terabina to a check for $300. The latter two have been arraigned and Johnson and Collins will be arraigned this week.



A Bohn Refrigerator
Means Much in the Home

The daily satisfaction you enjoy from a Bohn Refrigerator spread over the years of a lifetime make the cost of a Bohn seem insignificant. Easy to care for because the food chambers are one-piece porcelain lined with rounded corners so you can wash it out as easily as you would rinse a saucer. The Bohn syphon system of rapid air circulation keeps foods sweet and wholesome, overcomes the mingling of odors and reduces ice consumption. When you have a "Bohn" you know you are getting the most highly developed refrigeration system scientists have been able to devise.

Bohn Syphon, $115.00 to $617.50.
We also have the Bohn Sanitor at 70.00 to 157.00 and the Bohn Icyco at $56.50 to $75.50.
Other refrigerators as low as $17.50.

New LAMPS
$38.75--$47.50

200 Bridge Lamps with the personality that a beautifully furnished room requires—form a feature in Wednesday's offerings of fine furniture.

Bridge Lamps are more than ornamental — they throw the light where one wants it—over the left arm of the favorite chair or the end of the davenport perhaps.

100 of these Lamps come in the polychrome finish, in 8 different designs, with fixtures, arm brackets and regulation cords. Standard and Shade complete, $38.75.

120 Solid Mahogany Lamp bases and shades either Parchment or silk as per cut, $28.50.

FURNITURE

The August Furniture Sale is a yearly Event at Robinson's.

June Brides with misgivings about being able to make wedding gifts "do," transform those glaring empty spaces into cozy corners—

And Brides of former Junes rejoice at the opportunity to replace—and add and—make their homes just what they have wanted them to be!

Overstuffed

Karpen Furniture—Overstuffed Furniture at its best—forms a big feature of the Sale.

The group consists of Sets made up of a davenport and one or two chairs, chairs, rockers, settees, chaise longues and so forth.

Every piece has been bought and will be sold at Half Price.

Colonial

Days of long ago return in spirit in the charming pieces of Colonial Furniture now on sale.

There are Windsor Chairs, Spinet Desks, Gate Leg Tables, Martha Washington and Priscilla Sewing Cabinets and many other things.

And all are exceptionally low priced.

Rugs--Crex--Chinese

One generally begins with Rugs—

And the August Furniture Sale makes a right beginning possible and easy, for Rugs of all kinds are offered at lower prices.

Crex Rugs—Crex de Luxe Rugs are distinctive for their fineness of weave and smoothness of finish. The grass is twisted in the process of weaving, which imparts resiliency under foot and adds immeasurably to their wearing qualities.

Crex Rugs are made in a wide divergence of colors, designs ranging from Chinese, Cashmere, Beauvais, Assyrian and others with quaint and fancy figures, to the more sedate, plain and inornate borders with leaf, vine and floral decorations.

Prices for the August Sale will be: 27x54 Crex Rugs, $4.50; 36x72 Crex Rugs, $6. And so on up to 9x12 Crex Rugs, $21.75.

Chinese—for the dining-room. So runs runs the dream of the bride and so it continues to run until one day—maybe long, long after she first became a bride—

There is a Sale of Chinese Rugs!

And the dining-room comes into its own!

14 Chinese Rugs are now offered at modest dining-room prices.

Many sizes there are and colors and patterns that will fit in with any decorative scheme.

Prices begin at $18.00 and stop at $385.00.

SEVENTH FLOOR

Linen Turkish Towels Reduced

1200 Turkish Bath Towels—all heavy double thread Towels, the kind that feel so good, the kind that wear and wear and wear some more—have been reduced for the August Sale.

There are three sizes and three qualities:
Size 20x39 inches is priced at 35c.
Size 22x44 inches is priced at 55c.
Size 24x44 inches is priced at 85c.
Wednesday is Towel Day in the Linen Section.

SECOND FLOOR

Steamer Rugs

Steamer Rugs for campers, motorists and those who vacation-ize on the ocean fill a need for which nothing else is quite the equivalent.

Some are plaid, some plain, others are both—being reversible. Many are imported. All are fringed. Priced from $10.50 to $27.50. Less 25%.

SECOND FLOOR

Royal Doulton China 25% Less

That fine English Porcelain found only in homes where good taste reigns supreme—is to be had for 25% less than ordinarily.

Salad Sets are priced at $25.00 to $36.50.
Tea Pots, $4.50 to $8.00.
Sugar and Creamers, $6.50 and $7.50 a pair.
Cups and Saucers, $2.50.
Salad Plates, $2.25.
Bread and Butter Plates, $1.25.
Compotes, $6.50 and $7.50.
All Less 25% During August

BLUE AND WHITE BASEMENT

Pongee Blouses $3.75 and $3.95

Blouses to wear with sweaters—or coats—or with the hiking outfit, are those of Imported Pongee.

They come in four attractive models: Two-in-one collars for the miss who would outwit the sun—Buster Brown collars for the youthful face—shawl collars for every face! For nearly every face looks well in shawl collars.

All have plain or tucked fronts — and all long sleeves.

100 of them—$3.75 and $3.95 each.

THIRD FLOOR

A panoramic view of Los Angeles' $788,000,000 annual manufacturing output will be offered free to the public, August 15-20, at the Industrial and Trade Exposition, First Annual Market Week; 3500 factories have brought Los Angeles to 10th place industrially in the United States. This exposition, under the auspices of the Los Angeles Chamber of Commerce, offers everyone the opportunity to get acquainted with the products of the factories of Los Angeles.

Draperies

All Draperies over $1.00 a yard are made free of charge.

Kapock Silks—those silks found in homes of rare paintings, Oriental rugs, sterling silver (things that are the best of their kind)—are now to be had at Robinson's at August Sale Prices.

Kapock Silks are guaranteed sun-fast and washable. And they come in many beautiful weaves and patterns, among which are: Rainbow Stripes, Changeable Damask, Apollo Cloth, Undine Shaikai Cloth, Arras Gauze, Striped Halycon Taffeta and so forth.

Many of these arrived at Robinson's during the past week.

They are priced from $3.50 to $10.00 a yard.

And Other Draperies! They are too numerous and attractive to receive justice in so small a space. All are low priced for the August Sale. All are worthy of consideration.

SEVENTH FLOOR

Art and Gift 25% Off

Among the beautiful things in the Art and Gift Department on the Seventh Floor are Things for Men—And among these are

Smoking Sets and Humidors. The Smoking Sets come in cigar and cigarette sizes and are made of illuminated leathers, solid mahogany and bronze with silver trimming. They are priced at from $5.00 to $65.00. Less 25%.

The Humidors are of mahogany—some with polychrome finish. These range in price from $5.50 to $100.00. Less 25%.

SEVENTH FLOOR

Wool Sweaters $5.00

Here are three styles—all priced at $5.00.

The Ty-ons have kimono short sleeves, Tuxedo collar and self sash, and they come in all the staple colors.

The Slip-ons have both the plain and drop stitch pattern, they are collarless and have long sleeves. One may choose almost any color.

And the third style has the Tuxedo collar and self sash finished with tassel.

Good-looking Sweaters, every one, and inexpensive.

THIRD FLOOR

Nemo Corsets

Just received is this shipment of Nemo Self-Reducing Corsets—(welcome news indeed for the woman who knows Nemo Corsets.)

They are made of pink broche and coutil—low and medium bust with elastic tops, long skirts and six hose supporters.

Despite their splendid efficiency, these Corsets are low priced; ranging from $3.00 to $9.25.

FOURTH FLOOR

New Frocks at $49.50

One reason why The Summer Girl will be glad to change her name!

Coral buckles with Roman medallion centers on a blue grosgrain ribbon—henna georgette embroidered in black for "cuffs"—another touch of henna down the front—and blue Canton Crepe for—the rest how could the Summer Girl resist meeting Autumn half way!

And the Frock illustrated is only one of many.

A blue Tricotine dares to flaunt bits of red—right in the face of conservative simplicity—

And even more unexpected things happen among the Frocks that are making their first appearance on the

THIRD FLOOR

ACTRESS FACES STOCK TANGLE.

Suit for Oil Securities by Steel Magnate's Son.

Marriage Pact With Thomas Kimball Litch Denied.

Declares Property Demanded Was Christmas Gift.

Betty Mann, film actress, also known as Mrs. Betty Ormand, was cited into Judge Dehy's court yesterday on a claim and delivery suit brought by Thomas Kimball Litch to reveal the whereabouts of certain oil stocks asserted to be in her possession. Judge Dehy discharged her, however, holding that the examination could not be had under a claim and delivery action. It was stipulated that her deposition could be taken.

Mr. Litch is the son of a Pittsburg steel magnate, and his matrimonial career has furnished a number of proceedings in court. According to his attorney, P. C. Hill, Mr. Litch gave stock in the Massot Oil Company, valued at $675, to Miss Mann, also a Victrola and other things to hold for him.

It was understood, it is asserted, that she was to marry him after he obtained a divorce from his Pennsylvania wife. A short time ago Miss Mann married William Ormond. Mr. Litch sued for the recovery of the stock and Victrola. It was stated in court that he got back the Victrola and declares that Mrs. Ormond retains the stock.

According to her attorney, William Barnes, there was no love affair between herself and Mr. Litch; further, that he gave her the stock and Victrola as a Christmas gift. She was in court with her mother.

IN CASE OF
FIRE
It has long been the custom for the owner of a house damaged by fire to be called on by some one who tells the owner that he, the caller, can get more money from the insurance company than the owner can for which he wants a commission on what is recovered by the owner.
Comes another person saying insurance company will repair the damage. No insurance company repairs damage, nor has it done. A local contractor does the work, the insurance company pays the owner and the owner pays the contractor.
Is it fair to represent to the owner that the insurance company pays the contractor, when the owner will find out, anyway, that he has tied himself to a contractor who says he is working for the insurance company and may refuse to do what he really should do?
Is it not better to call a reliable contractor at once and be rid of all this juggling?
You do not need to pay an adjuster.
We make estimates for owners or insurance companies free.

FAMOUS ARTISTS PLAN PAGEANT.

Sunday "Times" Will Tell Story of the Unique Celebration.

The Times will publish next Sunday the story of a pageant to be held in the near future and which will be so unusual in many ways that it will equal in novelty any similar event ever held in Southern California.

The story is of interest because it relates how a large number of artists have been quietly and unostentatiously—without the aid of a press agent—planning for many weeks a celebration which will bring them intimately in touch with many persons who have not known that the pageant makers were residing in the Southland.

Full details of the pageant, which will include in its cast notables whose names are legion to readers of books and magazines, to lovers of music and art, will appear in next Sunday's Times.

PIONEER IS CALLED.

Daniel Merriam Came Here When City had Eight Thousand People.

Condolences were being received yesterday by the family of Daniel E. Merriam, whose death and cremation Saturday removed a pioneer merchant and citizen of Los Angeles.

Mr. Merriam, who was a native of New York, came to Los Angeles in 1876. The city's population then was 8000. Mr. Merriam established a confectionery store in the Temple Block, then the center of the town. Later, he moved to 127 South Spring street, remaining there for twenty-nine years. He was a member of the Chamber of Commerce and the Merchants' and Manufacturers' Association.

He leaves a widow, Ella Lucy Merriam; a son, William B. Merriam; a daughter, Mrs. Charles C. Thompson, and one grandson, R. Bruce Merriam, all of Los Angeles.

ARRAIGN ASSERTED THIEF.

Accused of robbing Mrs. Robert Montgomery of the Alexandria Hotel of a ring valued at $20, Otto K. Rousin was arraigned yesterday before Justice Baird, acting as presiding justice. Bail was fixed at $2000 and the defendant was committed to the County Jail. The case was set for hearing on Saturday morning.

TAKES HAND IN STUDIO LABOR ROW

Government Names Captain Connell to Settle Film Workers' Wage Difficulties.

The government took a hand in the local strike of motion-picture carpenters, electricians and mechanics yesterday when the Department of Labor appointed Capt. Charles T. Connell, Federal mediation commissioner, to act to settle the wage difference between the producers and the strikers.

The strike has been in progress for some weeks, but both factions have refused to meet with each other to discuss a possible amicable settlement.

Walter E. Reynolds, secretary of the Motion-Picture Producers' Association, stated last night he would be pleased to confer with Capt. Connell, but added the producers have nothing to mediate. He would not state whether or not the producers would be pleased to meet the strikers' committee face to face to discuss a settlement of difficulties.

Capt. Connell did not call upon representatives of either side yesterday.

DROPS McCOMB CASE.

Federal Agent Will Not Prosecute Man in Mullicane Affair.

F. M. Sturgis, in charge of the local Department of Justice office, said yesterday that he will take no action against W. Elmer McComb of Lebanon, Mo., connected with the case of Erie Mullicane, recently acquitted here of the slaying of her infant. He said the informal charges had not shown that Erie Mullicane was brought here by McComb, and that if the Mann White Slave Act has been violated it is for Department of Justice agents in Missouri to take action.

WOMAN LAWYER WEDS.

Miss Myra Watton Becomes Bride of E. E. Moore, Contractor.

Miss Myra Watton was quietly married to Edward E. Moore yesterday afternoon in the chambers of the District Court of Appeal. The ceremony was performed by Justice Craig.

Mrs. Moore is an attorney at law, having been admitted to the bar in California in 1905. She is also a graduate of the law department of the University of Southern California. She has resided in Whittier and later in Redlands. She recently returned to live in Los Angeles. Mr. Moore is a local contractor and builder.

Mr. and Mrs. Moore will reside at 3622 South Flower street and hereafter Mrs. Moore will be a housewife rather than a practicing attorney-at-law.

The Broadway Closes at One o'Clock Every Saturday Throughout the Year

21st Annual Department Managers' Sale

For Men and Young Men I Am Featuring in a Three-Days' Offering Four Groups of

Fine Suits at $24.50, $29.50 $34.50 and $39.50

On Sale Thursday, Friday and Saturday

A. E. Bellow, Mgr. Men's and Boys' Clothing.

—The models, materials, colorings and lastly, the prices themselves, are so interestingly varied that choosing from these four feature-groups should be particularly attractive to men who are out to buy new suits for present and fall wearing.

—There are suits designed for the high school lad, for the young man and for older men.

—In selecting these suits I made a point of studying the quality of material used, the styles and workmanship embodied in each.

—I consider this announcement one of the most important that I've made this year.

—Second Floor—Men's Clothing Section.

Boys' Good-Looking Suits at $13.95

Each With Two Pairs of Knickers

—And you have my word for it, they are exceptional, indeed, at the price.

—Cassimeres and cheviots are the splendid materials used in the making of these new Norfolk styles. Every suit has two pairs of lined knickers.

Boys' Wash Suits, $2.95
—In sizes 2½ to 10 years. Regatta make. Fast colors. Sailor, middy, Peter Pan and Oliver Twist styles. Lowered in price to $2.95.

Boys' Corduroy Knickers, $2.98
—Made with double seat and knee. These are the better qualities in knickerbockers. All are less at $2.98.

Tom Sawyer Blouse Waists, 95c
—For boys 6 to 16 years. Blue chambray and dark patterns in percale and madras. If I were to tell you the regular prices at which these sold you'd be surprised into buying at least half a dozen.

Kazoo Suspender Waists, 45c
—For boys of various ages; no sagging clothes, no wrinkled hose. These are away less at 45c.

Boys' Black Stockings, 25c—65 dozen, in sizes 7 to 10½, at 25c. —Second Floor.

The Broadway Department Store
Broadway—Fourth—Hill. Arthur Letts, President

JACOBY'S ½ PRICE
August Sales

Half Price!
Scores of Suits, Capes Dresses and Skirts Have Been Reduced to HALF PRICE!

—Imagine what an opportunity this sale presents!

—Buying Jacoby Garments at Half the prices for which Jacoby's is famous is like buying Bank Notes at a reduction.

—Because there are so many garments concerned, you are pretty apt to find just the very sort of one you have in mind—and at

HALF PRICE

Sale
Third
Floor

And then there are sales in nearly every other department, too, at

HALF PRICE

—You'll find more than a Hundred Girls' Wash Dresses at Half Price and all Straw Hats for Children at Half Price.

All Summer Hats at Half

—Several lines of Undermuslins, Corsets, House Frocks and Cotton Bathing Suits are now Half Price.

—Silk Skirtings, Black Satin Duchess, Organdy, Percales and various lines of Domestics go in this Sale at Half Price.

—Hundreds of pairs of Women's Shoes have been reduced to Half.

—Men's Shirts, Pajamas and Sox are to go at Half their former prices.

—Jewelry, Hand Bags, Ribbons, Art Goods, Laces, Neckwear, Veilings, Toilet Goods, Hair Nets and many other lines will also be found at Half.

And Even the Basement Features Half Prices

On Broadway — Jacoby Bros. — Between Third and Fourth

THE CITRUS CROP.

Now they are making vinegar out of oranges, but we don't see why they should. What's the matter with using lemons?

HORSEPOWER.

Henry Ford has been photographed on horseback with President Harding and camping party. Wonder what Lizzie thinks?

THE DOVE OF PEACE.

Looks as if there might be a real peace arrangement for Ireland, after all. But what will the Kellys and the Rileys do with it? Will they know how to behave in a truce?

THE ROPE SHORTAGE.

Reports from the Philippines are that there is only about half a crop of Manila hemp. Well, hanging has gone out of fashion and nobody cares to smoke the stuff, so who should worry about the shrinkage of rope?

WILL SHE GET OFF?

The mother of six children is in jail in Chicago for killing her rival. She admits having stabbed the lady to death for running around with her husband.

It will be a nice case for the jury in the light of recent precedents. And it will be interesting to see whether the counsel for the defense insists upon a masculine jury—which can prove so sentimentally magnanimous when some kinds of ladies are the culprits.

A THING OF BEAUTY.

Mayor Cryer is eager to beautify the Los Angeles River and make it both of service and glory. It might not be a bad idea to begin things by sprinkling the bed of the stream to keep the dust down. There is nothing more aggravating to the eyes than the dust from the Los Angeles River. To make a park and boulevard of the river would be fine, but we fear 'twould be right costly. Let the city talk it over with the railroads and see if a joint program cannot be devised.

AMONG THE DOGS.

Raymond Poincaré, former President of France, in his letters to his paper, is very enthusiastic over Jack Dempsey. He likens him to a Greek god and wants his statue reared in enduring marble at Olympus. He also sobs for some Homer to sing his praise and prowess. He needn't worry. Jack will never suffer for a press agent and if he wants to go on a bust he has the price. He doesn't care about going to Olympus for it. But if Jack Dempsey is a Greek god there is still hope for Bill Mapes.

ENSLAVEMENT OR LURE.

The ex-Sultan of Zanzibar is taking a little vacation trip and visited Durban, Natal, with his fifty wives. His Majesty holds that no respectable man should travel without his wives, although exigencies demanded his leaving his ninety-three children at home with nurse.

This gentleman, who has fifty mothers-in-law, is a remarkably serene specimen of domesticity. He is plump, well-nourished and imperturbable. He was once asked if all fifty wives ever quarreled among themselves and replied that he didn't know, but, of course, they never quarreled in his presence.

In these days of matrimonial problems it does seem a pity that His Majesty does not feel the urge to emulate W. L. George and Arnold Bennett and give the world the benefit of his familiarity with the species. But they probably have no Nineteenth Amendment in Zanzibar.

THEIR LADY SUFFERERS.

Leaders in the membership of women's clubs were invited into conference over the bill offered by Congressman Johnson which would forbid smoking by women in any restaurant, hotel or public place in the national capital. Of twenty ladies consulted nineteen opposed the bill. The sentiment appeared to be that it was just a bit of silliness. They were opposed to man-made laws for the private government of women, anyhow, and there was a suspicion that the Mississippi Representative was merely doing a little personal prohibition stuff. They don't want to smoke, but neither do they want any fool man to pester them with laws on the subject. They can take care of themselves. There are others who feel the same way concerning those who would regulate the private manners, morals, habits and religion of their fellows. It is being overdone.

NO SMOKING, WHOLESALE.

The largest "no-smoking" order ever issued has gone out from the Secretary of Agriculture. Nobody, not even Uncle Joe Cannon, may smoke in the Olympic National Forest's announcement does except in "improved places of human habitation and improved picnic grounds." The order applies to 1,600,000 acres.

Where now, oh, ye novelists of the broad open, is that stuff about the freedom of the forest? Here we have a wilderness, a jungle of fallen trees, a tangle of seven billion feet of timber—and the city man out for freedom is no more free from the rule against smoking than if he worked in a powder factory.

If the sanctity of the home, even there, may not smoke. Once again the home proves a victory.—[New York Herald.

ARCADE OR SUBWAY?

Street congestion for every growing city is a perpetual problem. Indeed, when the problem ceases to exist the city has ceased to grow. Petrograd, today, has no street-congestion problem. Los Angeles has. They illustrate two opposite extremes.

That Los Angeles faces a more serious street problem than possibly any other city in the world is the penalty she must pay for being the whitest spot on the industrial map.

Our streets are wide and commodious compared with many in Old World cities. Yet they are inadequate for the rush of human and mechanical forces poured every week-day through their teeming arteries in the flood of business and pleasure.

The neck has become too small for the bottle. To enlarge the neck so that the traffic can be poured through it without bubbling back and spilling over would be a Pantagruelian operation in scope and expense. Yet it is one the people of Los Angeles must tackle eventually. And if eventually, why not now?

The main neck to the Los Angeles bottle is our famous Broadway, through the naming of which New York has received another well-deserved honor. Now, as the main artery, our citizens must either make Broadway measure up with the size of Greater Los Angeles or we shall have to rechristen it "Narrow-way." And our people are averse to changing the names of their historic streets as they have shown on more than one well-known occasion.

The first point, then, at which we must tackle our progressive street-traffic problem is on Broadway between First and Seventh. Various plans from time to time have been suggested for relieving the congestion between these two points. All of them are feasible and all are expensive.

A suggestion, novel, unique and interesting, has been put forward by Engineer Osborne and tentatively approved by the Mayor. The idea, if approved, might be tested out on the Temple Block. It is too big an innovation to be accepted without careful preliminary experimenting.

The plan, briefly, provides for taking up the present sidewalks and constructing others in their place under the first story of the buildings, so that the space now occupied by the sidewalks would be available for vehicular traffic.

This would turn the new sidewalks into arcades under the shelter of the projecting first stories. By employing a system of ornamental arches, to support the buildings, thus ravaged of their ancient first-floor space, these new sidewalks could be installed as long, cool colonnades, refreshing to the eye and soothing to the spirit.

The landscape view of Broadway under such a transfiguration would certainly be unique in street architecture. Anyone who has visited Balboa Park, San Diego, and felt the charm of the arcaded street between the old exposition buildings will realize the artistic possibilities of this Old World construction scheme.

It speaks of quiet monasteries where such shaded corridors have held men's thoughts to the steady contemplation of nobler and higher things, where soul problems have been worked out by holy men devoted to the service of the Lord. It brings back the romance associated with Old World cities, where American visitors have often dreamed away pleasant hours among quaint highways, the half-timbered upper story forming a picturesque roof for the arcaded sidewalk beneath. Moreover, in storm or snow or blistering sunshine such cool covered-in sidewalks are a veritable boon to the pedestrian.

But one may well argue that these considerations do not apply to a busy, modern, progressive city like Los Angeles. We do not expect to employ our time on the Broadway sidewalk as the gray friars did in their solemn cloisters. We hardly look for the romantic glow of medieval Europe in the entrances and exits to and from our stores and offices. And Los Angeles is the last city in the world to need pedestrian shelter from heat or cold or tempests.

At the same time the psychological effect of the cloistered sidewalk might not be altogether without benefit to a people that confessedly suffers from high-strung nerves and the speed lever. Nor is an atmosphere of romance a detriment to a city that is loth to lose the spirit of the old mission days. And as for shelter we must admit that even in Southern California there are days when the majority hugs the shady side of the street.

All said and done, Engineer Osborne's new street-widening scheme is at least one that deserves a passing notice. Because we DO NEED RELIEF for street traffic in a city whose accident list tops the whole nation. And at least the arcade system would increase the neck of the bottle to suit more nearly its present dimensions.

Of course, when one comes down to the study of practical details, the figures would be all in favor of a subway to take the street cars off our main city highways and so give more room for pedestrians and motorists. Convenience, expense and beauty are the three chief factors in the street problem, important in the order named. Our people owe it to the City Engineer to view his novel street-widening plan from all possible angles, and if they find it impracticable to search around for a substitute. Because sooner or later—and on the score of economy, sooner—something must be done to relieve the street congestion along the seven chief blocks on Broadway.

THE NEW LIBRARY.

The City Planning Commission appears to be strongly in favor of the Fifth-and-Olive-street site for the proposed public library regardless of the plans to use a large proportion thereof for a $10,000,000 hotel. The commission is opposed to the use of any part of Pershing Square for the new library. They want the whole of it for a breathing spot. This is a question to be settled right, but without unnecessary delay. No philanthropic millionaire has indicated a wish to help Los Angeles in its library problems. They have been more thoughtful in Chicago, New York and other large cities.

TO STUDY AMERICA.

Twenty Russian students from the new Far Eastern republic have been designated to come to America for a complete education after American ideas. It was thought that they would go to Yale, Harvard and Columbia, but they all preferred the colleges of the Pacific Coast and so most of them will register in Los Angeles and Berkeley.

THE COLORADO RIVER PROJECT.

The project to control the waters of the Colorado River is the greatest single enterprise of its kind before the American people. Considering all the benefits that the controlled river would bring, it is doubtful if even the Panama Canal is a greater factor in promoting the development and increasing the wealth of the nation. Money invested in taming this hitherto untamed giant of the West would be directly returned to the people many fold and, indirectly, the returns would be so enormous that they cannot be calculated or even estimated.

With such vast potential wealth available to the people the important consideration is that the work be undertaken and consummated. Details of construction or financing or the agencies by means of which the waters that are now going to waste shall be put to work are secondary considerations. It is an asset of the people and the benefits will accrue to the people. The longer the beginning of work is delayed so much longer will the receipt of dividends by the people be postponed.

The Times was long since convinced of the superlative merits of the Colorado River project as a whole. It has for many years advocated the undertaking of the project. No other publication, probably, has done so much in securing information about the enterprise and its far-reaching ramifications and in making the information public. Beyond all reasonable doubt the control of the Colorado River will add substantially to the resources and strength of the nation. It will develop the growth of the great Southwest more than any other factor and Los Angeles, the metropolis and commercial center of the West, will benefit to an untold extent.

With so much at stake The Times views with alarm the controversy that has arisen as to whether portions of the project shall be undertaken by the power companies or the municipalities. Recognizing the necessity of discussion and preparation before a work of this magnitude can be undertaken, The Times nevertheless sees the danger that long-drawn-out and bitter controversy may block the project altogether and further postpone for an indefinite number of years the time when the people of the Southwest will come into their magnificent heritage and reap the benefits from it.

If the people of this day and generation would see the realization of one of the brightest and most practical visions of conquest in the amazing history of the growth of the United States they must get together in all seriousness and earnestness. They must work in harmony, arranging the details of control and distribution as wisely and equitably as possible, but with the one end in view to get the work started at the earliest possible moment.

The wisdom of controlling the river is not questioned. The vastness of the wealth that will accrue cannot be doubted. The value of the controlled river in stimulating business has never been denied. Then shall it be said of the people of the Southwest that this wonderful opportunity was lost to them because some of them wrangled so long and so loudly over the division of spoils not yet earned that the project was strangled in its time of conception? Yet this is a danger that threatens. Similar controversies between States and communities within States have held the project back in the past. Now, when the value of the controlled river would be greater than ever to the whole community and when the project is in high favor all over the country, is the time to end the controversial stage of the discussion and to devise, in a practical, businesslike way, how to begin the work and carry it through with the least possible delay.

Power is at a premium now. The supply of coal and oil is not inexhaustible, but the source of hydroelectrical energy is perpetual. Nature renews it every year in the natural course of events. That community which has a vast supply of cheap hydroelectric power will be far in the vanguard of industrial and commercial progress in the present and coming eras of development.

All the developed hydroelectric projects in the United States combined produce about 9,000,000 horsepower. The Colorado River alone will develop 4,500,000 horsepower. Consummation of the project, therefore, will add 50 per cent to the available hydroelectric power resources of the nation. With the Colorado River harnessed and put to work, energy will be produced to turn the wheels of countless industries throughout the West. The use of electricity in the homes will increase. All the innumerable factors of growth that follow in the wake of industrial growth that comes from cheap power will contribute to the upbuilding of the West and of the nation.

Building great dams to hold the turbulent waters of the Colorado will remove for all time the menace of flood. How terrible this menace is can only be realized fully by those who have spent sleepless nights and days, year after year, battling to save their all. And the floods do not menace alone those who grow their crops on lands affected, for all the people suffer when a crop such as that produced by Imperial Valley, worth $60,000,000 or more annually, is jeopardized or lost.

Besides producing power on a prodigious scale and removing flood menace the Colorado River, properly utilized, will provide water to irrigate millions of additional acres of rich lands that now are barren. Viewed only in the light of its ability to produce additional food, the Colorado River project is well worth while. With the water put to its full use on its fertile lands, the Colorado Basin can produce food enough, if need be, to feed the nation.

The report of every engineering investigation declares the project entirely feasible. Engineers regard it with enthusiasm. In a recent report on the Boulder Canyon survey Arthur P. Davis, director of the United States Reclamation Service, says the Boulder Canyon unit of the project is feasible. He says that bedrock has been found at a depth of 135 feet.

Director Davis says the Boulder Canyon dam would cost about $50,000,000. A dam 500 feet high would create an artificial reservoir with a capacity of 26,500,000 acre feet of water and capacity to produce 700,000 horsepower. Mr. Davis's report says the waters thus controlled would irrigate 2,000,000 acres of land, 60 per cent of which is American territory.

Mr. Davis's report forever settles the question that has been raised many times in the past as to the division of water between American and Mexican territory, for he states that the controlled river will provide more than enough water for all lands tributary to the river on both sides of the international boundary line.

The Boulder Canyon site is but one unit of the colossal project and is the site suggested by the late Franklin K. Lane. There are three other major sites, according to the opinion of some engineers, while others favor the ultimate building of many more.

The immediate goal of the people of the Southwest is the early beginning of work on at least one unit of the project and the ultimate harnessing of the river so that the full forces of the mighty stream shall be put to work for the benefit of this as well as succeeding generations.

A WOMAN'S GLORY.

The hairdressers of America have their national convention the same as the bankers or the plumbers. At their recent assemblage in Chicago the hairdressers let it be known that in another season the girls will not only be showing their ears, but leaving them right out in the open. The hair will no longer be used for ear muffs. It will be dressed high on the head. Only a flapper will be permitted to wear bobbed hair. In the Victorian Age queens wore their locks in much the same way as is announced for the fashion next year. Maybe the hairdressers' association can get away with it. There are a lot of girls who would like to get their ears back. But possibly they can't make it. Wait till we hear from the films. The moving stars are the ones who are likely to determine what happens to a woman's hair. If the queens of the screen wish to still hide their ears the rest of the world will do likewise.

RIPPLING RHYMES.

THE AGE OF BULLETS.

I sat tonight beneath a tree to read
Some gems of thought, and passing gunmen shot at me to try new guns they'd bought; a bullet hit me in the knee and I am sore distraught. Long years ago young men had guns, as lads have guns today, but then they sought the woodland runs to shoot the stag at bay, or in the evening brought home teas of rabbits in a dray. And when we heard a gun's report, in woodlands or in fens, we'd say, "The boys are having sport, they've shooting snakes or hens; 'tis well that hunters should convert among our dales and glens." Now, when we hear a firearm bark, we shudder and lament, for death, which loves a shining mark, has gathered in some gent; some gunman, creature of the dark, has shot him for a cent. We know that laws and things are wrong when'er a firearm booms, since bandits shoot the weak and strong and fit them for their tombs, and murdered men still fog along beneath the hearse's plumes. We have so many laws, ednbish! forbidding this and that, but statesmen do not seem to wish to squelch the bandit's gat; some buckaboo came just now, kerswish, and spoiled my Sunday hat. "Verboten" is the sign we see where'er we look, by heck! And divers kinds of liberty are made by law a wreck; but when I sit 'neath vine and tree, a bullet wounds my neck.

WALT MASON.

THREE-STORY STREETS.

BY FREDERIC J. HASKIN.

Given 16,000,000 automobiles, and the prospect of an increase of 1,500,000 each year; make allowance for the steady growth of population and the fact that the increases in both autos and people go largely to swell the city crowds; question—how to fit them comfortably into city streets already congested. This is the knotty problem which traffic experts and engineers are facing.

New York has recently made a revolutionary change by turning Broadway into a one-way street in the evening when cars crowd into the streets that contain 110 theaters. Chicago is making Michigan avenue a double-deck street in a part of the downtown section. And the critical situations in these cities are not so significant as in some others.

We are always hearing of congested streets in New York and Chicago. But when Indianapolis has to make its arterial thoroughfares one-way streets, carrying traffic only into town in the morning, and only outward at night; when underground parking spaces are being urged for Washington; when a tunnel for vehicles is planned for Pittsburg, and when almost every city of any size keeps its downtown traffic moving at rush hours only by one-way streets and a regiment of traffic officers, the situation can easily be regarded as coming to an acute stage.

Nearly all of our cities were planned or grew up when horses were the standard of traffic. There was no thought of arranging streets so that in some future swift decade motors could speed one way along one street and back along a parallel thoroughfare. Nor was there any engineer prophet to plan against the time when ten feet would be cut off each side of a street by long rows of parked cars.

Even when the automobile hove into sight and all sorts of extravagant predictions were made regarding its use, cities went on allowing monumental office buildings to be built close down to narrow pavements, so that widening business streets of a city is now almost impossibly expensive.

Some cities are widening streets by cutting down sidewalk space, but this is likely to cause sidewalk congestion.

DANGER OF WIDE STREETS.

At the other extreme, cities with very wide streets are having their difficulties, too. Washington attributes a large share of its accidents to the broad avenues where pedestrians have so great a distance to cover in crossing the street, and so many rivers of cars pass at a time. At one danger zone, Thomas Circle, the city is even considering a widening of the circle so as to narrow the roadway around it. A number of accidents have occurred there.

The model suggested for a city street system is a rectangular checkerboard of streets of moderate width in the center for a business district and streets radiating out from that in all directions. But plans to change existing contours, even those involving slight changes, are difficult to put into execution. For the most part cities will have to stay just as they grew, with streets narrow or wide, too straight or too crooked.

The problem of how to fit more people and vehicles into a given space will probably have to be solved eventually by using subway and elevated passages for them, just as they are now used for street cars. This is an old proposal. It was suggested for New York as far back as the '60s, and its possibilities have been explained any number of times since by inventive engineers. New York is at last about to try out the experiment.

A vehicular tunnel, long discussed, is soon to be built under the Hudson River to relieve ferry congestion, and a plan is being considered to reduce the width of the Fifth avenue sidewalk by half and to build either overhead or underground sidewalks to accommodate pedestrians.

The latter project, it is shown, would simplify street traffic by giving it about 33 per cent more space. It would increase the amount of space available for pedestrians, and further, it would vastly add to the value of the Fifth avenue business property.

With a second story or subway sidewalk another floor of the store buildings would become valuable as ground floor space. Stores fronting on the new sidewalks would have entrances at convenient levels and there would be double opportunity for window advertising.

Ventilation is a vital point in all subways and it is more important in the proposed subways for pedestrians and motorists than in the underground street car systems. In the street car subway, the swiftly moving car circulates the air; and, too, the passenger is not in the subway car long. Pedestrians, on the other hand, especially shoppers, might spend an entire morning in a subway and its shops.

TUNNEL VENTILATION.

In planning the New York vehicular tunnel, ventilation has been the most serious consideration. The carbon monoxide gas released from the exhaust pipes of a steady stream of automobiles passing through the tunnel would, without special precautions, render the atmosphere deadly in a short while. Carbon monoxide has no color, smell, nor taste. Yet 1 per cent in the air would render a man unconscious within a hnour.

The Bureau of Mines has been making experiments to test human limitations in breathing this gas, and it is now building a small experimental tunnel near Pittsburg to continue this work. Experts do not agree as to how much carbon monoxide can be safely withstood by children, invalids and other especially susceptible people, who would use a vehicular tunnel as well as would healthy workmen, on whom some tests have been made.

New York is expected to have twin tubes in its tunnel, a tube for cars going each way. Between the tubes there is to be a ventilation plant with ducts pending fresh air to the tubes and other ducts to carry off impure air. Boston and Pittsburg, as well as New York, expect to dig tunnels to relieve traffic congestion in busy districts.

These tunnels, if successful, may prove the most satisfactory method of dealing with automobile jams. The tunnel is obviously advantageous to the motorist in that continuous motion is possible without danger to any pedestrians.

There is a lot of talk just now about the bobbed-hair girl, but it is our unbiased judgment that a sensible, earnest girl remains the same when her hair is bobbed. A short-haired girl does not have to spend five or ten minutes to coil up long hair, because her coiffure is made for the whole day when her hair is cut. She isn't worried with hairpins, nets and other impediments. A refined girl will always be pleasing whether her hair reaches her waist or her neck.

PEN POINTS.

There are a lot of folks in Los Angeles who will never be President.

All is not lost in the South. We are boasting of a banner peach crop down there.

Old Dock Wiley says that bread is no medicinal value. Neither is cherry pie, Dock.

Illinois is doing its best to make things from getting monotonous in the news of the world.

The report that Leslie and Trotsky had opened a chain of barber shops in Siberia is officially denied.

Almost any garage will hold two cows. This is important information if you are thinking of retrenching.

Our idea of some job is the window athlete who construes to invisible machine to attract trade.

The individual who is content with a good balance in the bank and religion is the last one who should worry.

The improvements in the postal service are so many that it will soon be possible to get one's teeth filled by mail.

Now the archeosophraster to Chicago baseball scandal is known as the "little red-head." But who is the white horse?

It is now proposed to prohibit smoking in the Government forest reserve. This is a hit at nobody who has taken to the cigarette.

In order to comply with contracts the physicians have reduced their fees. In Los Angeles? Oh, no, in a small Pennsylvania town.

Isn't it about time for the Spanish royal family? We used to have the champion its prowess at least once a year.

President Harding has sent a message to Congress to the effect that the railroads must be treated fairly. The Chief Executive is no slouch at the theater.

It has been figured out that the age of the ocean does not exceed one hundred million years. But it must be admitted that it is quite large for its age.

It is a good rule for young women desiring to enter into matrimony to select their future husbands by the cut of their clothes. Don't let some tailor act as the arbiter of your fate.

Jack Johnson is being snubbed with much acclaim in the sporting circles of the East. But only those who want to darken contrast would honor an ex-criminal as a representative.

Mr. Edison has furnished another list of test questions for those applying to him for employment. Meanwhile we recall that his name flivvered on the first list he put out. That is some consolation.

The list of slackers has been withheld from publication for the present. There is some talk now of including the brave citizen who has a safe position in the grand stand and shies a pop bottle at the umpire.

In Russia they are now engaged in the task of making trade flourish without the aid of capital. It is hard to achieve arbitrary things without eliminating the causes. It is the old, old story over again, as aged as the world.

The recent bombing tests by the aerial corps have again demonstrated the fact that America must look well to the probability that the next war will be fought in the air. A leaf of naval history is being written in the recent experiments.

The appointments by President Harding of prohibition enforcement directors indicate that he is not afraid of the Anti-Saloon League or the political influence of that body. Neither is he suspicious of the honesty and integrity of everybody whose name does not go along with the gang of Wayne B. Wheeler.

The original copy of Edgar Allan Poe's "Annabel Lee" has been sold for $1200. But when Poe was called by a gentleman to come to his home for dinner he replied with extreme dignity that he could not accept the invitation because he was dressed as a beggar in the street, and when his child wife died the only covering she had was Poe's gentlemanly coat overcoat. The family cat also died of the warmth of its body to the dying woman.

WHERE A MAN'S A MAN.

Somebody at home? Well, maybe you are;
But as for the pride of birth—
What are kith and kin or the color of skin
Where the measure of man is Worth?

Here is the big, free, don't-care West
Where a man must fight to win
No help to him that his mother was good
Nor blame for his father's sin.

A man must paddle his own canoe
'Gainst currents swift and strong
Here he must learn to dare and do
And laugh when his luck goes wrong.

A man's a man for what he is,
Not what his father was—
Not for the thing he means to do,
But just the thing he does.

In the race he has an equal chance—
No matter his class or clan—
For wealth or fame. If he's always game
He can prove himself a MAN.

There are a lot of folks in Los Angeles who will never be President.

All is not lost in the South. They are boasting of a banner possum crop down there.

Old Doc Wiley says that beer has no medicinal value. Neither has cherry pie, Doc.

Illinois is doing its best to prevent things from getting monotonous in the news of the world.

The report that Louis and Trotsky had opened a chain of barber shops in Siberia is officially denied.

Almost any garage will hold two cows. This is important information if you are thinking of retrenching.

Our idea of some job in the store window: athletic who exercises on an invisible machine to attract trade.

The individual who is fortified with a good balance in the bank and religion is the last one who should worry.

The improvements in the postal service are so many that it will soon be possible to get one's tooth filled by mail.

Now the archenemy-tester in the Chicago baseball scandal is named as the "little red-head." But where is the white horse?

It is now proposed to prohibit smoking in the Government forest reserve. This is a hit at nobody who has taken to the cigarette.

In order to comply with conditions the physicians have reduced their fees. In Los Angeles? Oh, no, it's a small Pennsylvania town.

Isn't it about time for the stock to get busy in the Spanish royal family? We used to keep the story of its progress at least once a year.

President Harding has sent a message to Congress to the effect that the railroads must be treated fairly. The Chief Executive is no slapstick.

It has been figured out that the age of the ocean does not exceed one hundred million years. But it must be admitted that it is quite large for its age.

It is a good rule for young women desiring to enter into marriage not to select their future husbands by the cut of their clothes. Don't let some tailor act as the arbiter of your fate.

Jack Johnson is being received with much acclaim in the sporting circles of the East. But only those who want to darken oatmeal want it humor on experimental as a rose representative.

Mr. Gilbert has furnished candidates of test questions for those applying to him for employment. Somewhile we recall that his son figured on the first list he put out. That is some competition.

The list of shelters has been withheld from publication for the present. There is some talk now of including the brave citizen who, from a safe position in the grand stand, shins a pop bottle at the umpire.

In Russia they are now engaged in the task of making trade flourish without the aid of capital. It is hard to achieve arbitrary effects without eliminating the causes. It is the old, old story over again, as aged as the world.

The recent bombing tests by the aerial corps have again demonstrated the fact that America must look well to the probability that the next war will be fought in the air. A lot of naval history is being written in the recent experiments.

The appointments by President Harding of prohibition enforcement directors indicate that he is not afraid of the Anti-Saloon League or the political influence of that body. Neither is he capitulous of the loyalty of everybody whose mind does not go along with the mind of Wayne B. Wheeler.

The original copy of Edgar Allan Poe's "Annabel Lee" has been sold for $2500. But when Poe was asked by a gentleman to come to his home for dinner he replied with extreme dignity that he could not accept the invitation because he was dressed as a beggar in the street, and when his child wife died the only covering she had was Poe's semblance of an overcoat. The family cat also added the warmth of its body to the dying woman.

CLOSER TRADE UNION PLEDGE.

Japanese Liner's Arrival is Celebrated at Harbor.

Luncheon to Bind This City With Pacific Centers.

Distinguished Guests Lunch Aboard Rakuyo Maru.

Pledges of closer commercial relations between the Orient, South America and the West Coast of the United States, with Los Angeles the logical center of the Pacific trade, were exchanged at a luncheon given yesterday at the harbor on the Rakuyo Maru, new Toyo Kisen Kaisha liner, here on her maiden voyage to South American ports.

Welcoming the 18,500-ton ship as a new link that is to bind Los Angeles to the great trade centers of the world, Mayor Cryer and more than a score of city officials, railroad and shipping men were the speakers and guests at the luncheon, given by Nobuki Doi, general manager of the company, and Capt. J. Yawata, master of the Rakuyo Maru, and under the direct supervision of Samuel L. Foster, Los Angeles agent of the steamship line.

SPEAKERS AND GUESTS.

In addition to Mayor Cryer, the speakers included Mr. Kreider, Capt. Yawata, John D. Fredericks, representing the Chamber of Commerce; O. Oyama, Japanese Consul; S. Martinez de Alva, charge d'affaires of the Mexican embassy, Tokio, and Chief Engineer S. Tohyama.

The guest list included C. O. Gordon, president of the Harbor Commission; C. K. Adams, Santa Fe Railroad; H. C. Hallmark, general freight agent of the Southern Pacific; F. S. McGinnis, general passenger agent of the Southern Pacific; M. Eisaeser, president of the Merchants' Finance Company; Maynard McFie, former president of the Chamber of Commerce; F. G. Leonard, president of the Playground Commission; W. S. Wheaton, I. A. Pederson, traffic manager, Los Angeles Harbor; H. M. Reed, San Pedro; J. M. Canen, vice-president of the San Pedro Chamber of Commerce; R. H. Beaton, secretary of the San Pedro Chamber of Commerce; C. H. Eubanks, president of the First National Bank, Wilmington; C. T. Waite and J. B. Jonsen. The Japanese guests and newspaper men included O. S. Ono, U. S. Trading Company; Dr. I. Ono, H. Kariya, S. Sasaki, S. Fujii, Japanese Association of Los Angeles; I. Hatashita, T. Sassamori, T. Fukuda, H. Komai, F. Samura, G. Yuwasa and R. Tsuchiya.

Howard H. Adams, formerly of the Shipping Board, now associated with Mr. Kreider, assisted in the arrangements.

The Rakuyo Maru is the newest ship built by the Toyo Kisen Kaisha. She arrived in the harbor yesterday and will leave today for Central and South American ports. She brought nearly 200 first and second-class passengers, most of whom are on the way to Valparaiso, Chile, and 6000 tons of cargo, some of which was unloaded at the outer harbor dock yesterday. The craft is 480 feet long, has a gross tonnage of 9500 tons and accommodations for more than 700 passengers. Her speed is rated at sixteen knots an hour.

The regular ports of call for the liner will be in Chile, Peru, Panama and Mexico, Los Angeles, San Francisco, Portland, Honolulu, and Japanese and Chinese cities. On the maiden voyage she will cover more than 35,000 miles. Two sister ships, Rokuyo Maru and Ginyo Maru, are being built and will be added to the South American service, Mr. Kreider announced.

HIDDEN LOOT CLEW GIVEN.

Romance, buried treasure, plans for the escape of a convicted highwayman and a possibly worthless check for $200 all figured in the arrest last night of Louis A. Dangoise, French, dapper and 25. He is held under suspicion of committing a felony.

Dangoise left the County Jail Saturday under $3000 bond for asserted passing of worthless checks, having been arrested last May by Detective Sergeant Jones, now Chief of Police, on complaint of a number of victims of Dangoise's purported check-writing habit. Last night he landed in the toils again when Charles Gassion, manager of the City of Paris Antique Shop at the Ambassador, met Dangoise on the street, and, seizing him by the collar, yelled for help. Mr. Gassion told the police that he indorsed a check for $200 made out by Dangoise in favor of the Ambassador at Dangoise's request. The check was postdated the 3rd inst., and came back unhonored, Mr. Gassion says.

Interest in the check lagged at Central Station, however, when Detective Sergeants Hickey and Carr, while searching Dangoise, found a letter, supposedly signed by Jack Robinett, a prisoner at the County Jail, and addressed to one "Pinky."

The writer told of a plan to escape in the event of failure to secure a new trial on a charge of highway robbery. The letter went on to beseech "Pinky" to go to a certain spot in Hollywood and unearth some "stuff" which the police believe is loot hidden there by Robinett. A map of the locality where the "stuff" is supposed to have been buried accompanied the letter, which explained the location of the buried "treasure." Detectives started out last night to find the place described.

Dangoise, who asserts his father is paymaster at New York for a large steamship company, had a notebook containing a long list of checks which he is said to have issued before his first arrest last May. He told the police he is endeavoring to make good these checks as rapidly as possible and that he is expecting a draft from New York to cover them, as well as the check for $200, which he gave at the Ambassador Sunday.

The French youth's first downfall in Los Angeles came as the result of his attempt to purchase a ring for a fiancee who lives in Santa Ana. He purchased it with a check for a large amount at a Los Angeles jewelry shop. The manager said later that the check was worthless and Dangoise's arrest followed.

Society Woman from Chicago Sues Husband.

Mrs. Lauretta O. White, said to be well known socially in Chicago, filed suit for separate maintenance in this city through Prescott & Prescott yesterday, charging that her husband, Kenneth White, deserted her on June 1, 1920, after nine years of married life. They have one child.

Besides an income of $700 a month as agent for an eastern firm, Mr. White is said to have large property interests, a part of which Mrs. White desires the court to have declared community property. She declares that her husband has not provided for her for the past six months, because of his purported idleness, profligacy and dissipation. In addition to a liberal support for herself and child, Mrs. White asks $1000 attorneys' fees.

SUMMONED IN FRANCE.

Body of Los Angeles Boy Who Died Overseas Due Here Friday.

Word was received here yesterday that the body of Private Walter J. Smith, Three-hundred and Sixty-second Medical Corps, Ninety-first Division, who died in a hospital in France as a result of injuries received in a railroad wreck while on his way to the battle front, will arrive here Friday from Hoboken. No arrangements for the funeral have been made. He was the son of Mrs. M. E. Smith, 3575 South Western avenue.

FOR FORMAL OPENING OF NEW BUILDING.

"California is rapidly approaching the place in its tuberculosis program when an industrial colony looks like a decided possibility," said Edythe Tate-Thompson, director of the Bureau of Tuberculosis of the State Board of Health, yesterday. That the friends of the Barlow Sanatorium may see the possibilities of the plan on Friday afternoon and evening, there will be the formal opening of the new occupational therapy building and an exhibit of the patients' work. Many beautiful and useful articles are for sale. The patients in the hospitals of the State last year sold nearly $4000 worth of articles that were not purchased through sentiment, but because of the excellent quality of the work. The patients receive half from the sale and the remainder goes into a fund for supplies. The Barlow Sanatorium is located in the Chavez Ravine.

ADOPT GOOD VISION EDUCATIONAL PLAN.

The Morrissey educational plan, devised in this city some time ago, has been unanimously adopted by optometrists of the northern part of the State, according to Dr. Edward H. Morrissey, president of the Los Angeles County Association of Optometrists, who returned from San Francisco last night.

Dr. Morrissey spent several days in San Francisco and addressed a number of mass meetings attended by members of the profession from the bay cities. His plan to raise funds to carry on an extensive campaign to acquaint the public with the importance of good vision was recently adopted on a State-wide basis at the annual convention of optometrists held in the northern city.

BODY IDENTIFIED AS THAT OF G. E. WHITE.

[LOCAL CORRESPONDENCE.]

VENICE, Aug. 3.—The body that was washed up at the foot of Nautilus avenue, about a mile south of Venice yesterday, has been identified as that of George E. White, living at Villa Tract, Redondo, by friends who have been looking for the old man. He disappeared about ten days ago.

Those who identified the body could give no explanation of his death. Mr. White was past 80 years of age, and had apparently gone out for a short stroll, as he had on no coat. He was retired from business. His friends think that there was no motive for suicide, and believe that he must have come to his death through an accident.

Mr. White is survived by his wife, Pauline White, who is 80 years old. The body will be buried today in the Redondo Cemetery.

BLUE AND GOLD JUBILEE COLORS.

Pasadena Planning Far Ahead to Utilize Flowers.

Chamber Still Hopes to Get World Conference.

Body of Unidentified Man is Buried by City.

[LOCAL CORRESPONDENCE.]

PASADENA, Aug. 2.—Blue and gold were decided upon as the official colors of Pasadena's golden jubilee celebration during the year 1924 at a meeting of the board of directors of the Chamber of Commerce today.

Every householder in the city will be asked by the celebration committee to plant his garden in blue and gold flowers that year, so that the entire sweep of the town will flaunt the insignia of the jubilee to the many visitors expected.

The celebration plans will be formally launched at a banquet of civic organizations Thursday night at the Hotel Vista del Arroyo. Dr. John Willis Baer, Rev. D. F. Fox and Chairman Hiram Wadsworth of the municipal board of directors are to be the speakers.

STILL HOPEFUL.

Pasadena has not given up hope of landing the international disarmament conference for this city and William Dunkerley, secretary of the Pasadena Chamber of Commerce, stated today that Pasadena is having the co-operation of the Los Angeles Chamber of Commerce, as Los Angeles is deferring to Pasadena in this matter.

That the proposal to hold some of the disarmament sessions in the West and that Secretary Hughes of the State Department will give consideration to Pasadena's invitation was indicated by the following telegram received today by J. B. Coulston, president of the California Hotel Company, from Congressman Walter Lineberger: "Have seen Secretary Hughes regarding holding conference in Pasadena. He tells us it is not contemplated going so far West but assures me that should it be decided to go that far Pasadena will be given sympathetic consideration."

Mr. Coulston has wired Secretary Hughes proffering use of the entire Hotel Green plant, for the conference. The Green is only open during the winter.

Mrs. Ethel Barnett, proprietor of a roadside fruitstand near Monrovia, was fined $300 by Justice of the Peace Raymond G. Thompson here, for having in her possession illegally, fifty gallons of wine, twenty-five gallons of brandy and some extra hard cider. Her place was raided by Deputy Sheriff M. H. Pritchard of Monrovia. In the absence of the Monrovia justice of the peace, the trial was transferred to Pasadena justice court.

The man found dead in the Arroyo Seco Saturday night was buried this afternoon at Mountain View Cemetery, still nameless to the local authorities. The local authorities had determined that he had committed suicide by taking strychnine. The body had lain unclaimed and unidentified here since Saturday night.

Pasadena Boy Scouts are in their annual summer encampment, at Catalina under command of Tallman H. Trask, Scout executive in Pasadena. The group now in camp constitutes the first unit of the local Scout troops. Another unit will go to the island upon the return of the first unit.

"I do not think that it is any crime for a girl to expose her knee," said Miss Shapely.

"Well, I wouldn't call it a crime," replied Mr. Fresh. "But it would be a sort of miss demeanor, wouldn't it?"—[Exchange.

TO ORGANIZE FARMERS.

Farm Bureau Head Says Freight Rates Not Fairly Apportioned.

[LOCAL CORRESPONDENCE.]

REDLANDS, Aug. 2.—R. B. Peters, president of the County Farm Bureau, and vice-president of the State Federation, believes that the railroads are trying to make up the deficiency they have felt from the slacking up of the manufacturing enterprises of the country by charging the farmer an unfairly high freight rate for moving his products.

Mr. Peters contends that the farmers pay more than half of the freight money received by the railroads, that they are continual producers in that their crops are moved to the market every month in the year, and that they are entitled to lower rates than the manufacturing concerns. Instead of getting them, he says, they pay higher rates than any other group.

Mr. Peters is attempting to organize the farmers of the State so that they will make a protest which will cause Congress to investigate the problem.

APPOINTS W. C. TALBOT TO IMPORTANT POST.

[LOCAL CORRESPONDENCE.]

PORTERVILLE, Aug. 2.—C. A. Charters, vice-president of the Stewart Fruit Company, visiting in this city on business, announces that W. C. Talbot of Success has been appointed local manager for the company, to succeed Robert Horbach of Porterville, resigned.

Mr. Horbach, who has been manager for the local plant of the Stewart Fruit Company for many years, has also been particularly active in the civic and political life of the district. He will devote his time to private affairs.

Mr. Talbot is well known throughout the district, as a practical orange man, and will be assisted by C. H. Doyle.

LONG BEACH MAY HAVE HOG FARM OF ITS OWN.

CITY MANAGER WOULD USE MUNICIPAL LAND FOR GARBAGE DISPOSAL SPOT.

[EXCLUSIVE DISPATCH.]

LONG BEACH, Aug. 2.—As a means of solving the garbage disposal problem since the passage of the ordinance by the County Supervisors prohibiting the hauling of table refuse outside municipal boundaries, Long Beach will establish a hog ranch of its own on the city's water-bearing lands if recommendations made by City Manager Charles E. Hewes today are adopted.

Mr. Hewes announced that he will include in his budget an amount sufficient to purchase six or eight trucks and to operate them during the remainder of the year. Each truck will have a driver and two men and they will make collections not less than twice each week throughout the city and daily or perhaps twice daily in the hotel and apartment-house sections. The estimated cost for the first year, including, investment and maintenance is $50,000 to $60,000. The trucks will cost $3000 each and the drivers will be paid $5 a day and helpers $4.50 each. The present system of collecting garbage under contract is wholly unsatisfactory, Mr. Hewes states. Complaints averaging from 100 to 150 daily are made, he says.

Members of the Long Beach City Council, in special session, late this afternoon, awarded to W. R. Ramsey, an independent oil operator, the contract for drilling the city's oil-bearing lands in the new Signal Hill field. Ramsey, in his proposition accepted by the city, agrees to have a well started on the two acres owned by the city on Signal Hill, adjoining the Shell lease, within five days. He will also develop the city's twenty-nine acres on Reservoir Hill, in the same petroleum field. The city will get a straight 40 per cent gross royalty from the proceeds of the oil. Ramsey is the first vice-president of the Continental National Bank of Oklahoma City, Okla., has drilled over 300 wells in the past two years in the mid-continental fields in Oklahoma and has several producing wells in the Elk Hills field in this State.

FIND JURKOVICH NOT GUILTY OF MURDER.

[LOCAL CORRESPONDENCE.]

FRESNO, Aug. 2.—"Not guilty," was the verdict announced by M. E. Webb, foreman of the jury, which was out only twenty minutes after the trial of William Jurkovich, accused of the murder of George Baich, closed at noon today. Final instructions were given the jury at 12:21 p.m., and the verdict was returned after one ballot had been taken.

The jury rendered a verdict five minutes after entering the consultation room. The delay was caused by the attorneys for the defense being out for lunch. Jurkovich shot Baich, whom he accused of trying to alienate his wife's affections.

CHARGED WITH ARSON.

[EXCLUSIVE DISPATCH.]

RIVERSIDE, Aug. 2. — Jerry Wiley, prominent colored business man, was bound over to the Superior Court this afternoon under bonds of $2500, which was raised. Wiley is charged by his brother, Aaron Wiley, with arson.

HEARD DYING SON IN A DREAM.

Father Tells Experience on Fatal Night; Family Has Unusual Record.

[LOCAL CORRESPONDENCE.]

RIVERSIDE, Aug. 2.—"The night he died I dreamed he was calling me," writes C. W. Woodman from Fort Worth, Tex., in a letter to Clyde F. Rex, commander of Riverside Post No. 79 of the American Legion, referring to his son, Lieut. Cony U. Woodman, who died at Marsh Field, Dec. 8, 1918.

In his letter the father states further that both he and his son enlisted the day war was declared against Germany. Every male member of his family, since 1835, has been in every war which has involved the country in which the family was living. The son was a high-salaried engineer in Mexico, at the outbreak of the war, and could have gone in as a major, the father states, but preferred the aviation service.

Schools and Colleges

HYLWARD — SCHOOL FOR GIRLS. Residence and Day School, 1st to 12th grade. Highland Park, among the foothills. Gives opportunity for outdoor life. Our aim is to make a few well. 5240 MERIDIAN ST. Garvanza 948.

Schools and Colleges

The SAN DIEGO ARMY and NAVY ACADEMY. Pacific Beach, California. It is one of two military schools in Southern California which enjoys the University of California's highest scholastic rating, "Division A." It is one of two accredited at West Point and is ranked by the War Department as "an essentially military" school. It has a system which is unexcelled in looking after, and bringing up, the work of individual students. It has a real heart interest in developing boys along Christian character lines. The advantages of location, near the bay and ocean, in a charming suburb of San Diego, are unsurpassed. The Academy has purchased the property which it formerly leased, consisting of twenty acres of land and the large buildings on them. Hot and cold water are being put in the rooms and additional extensions, repairs and alterations are being made. Every physical comfort will be provided. Although these improvements will cost many thousands of dollars, there will be no increase in rates for the coming year.

NOTICE! Capt. Thos. A. Davis, Pres. of the Academy will be at Hotel Alexandria Mezzanine Floor 10 a.m. to 2 p.m. Thursday, Friday and Saturday Aug. 4, 5, 6 and will be pleased to give full information to interested persons.

Costume Designing — Complete professional courses in Designing and Cutting. Dressmaking, Pattern Drafting, Millinery, Sewing, Sketching. All women's and children's wear. Day and evening classes. Special summer rates. SCHOOL OF COSTUME DESIGNING, 948 W. 7th St., L. A.

BRASS INSTRUMENT PLAYER — We now have the "Something Better" you have been looking for. A saxophone that will stand up, yet is sweet as trumpet can be. Let a master of COUTURIER CONTINUOUS VOCAL BOARD, "we be pitch as a master's ear." No other instrument has it. No other can have it. Means no comparison; is in a position. Read leaders and dealers write to us for exclusive agency proposition in your territory. BREHM & MELVIN, 231-33 SOUTH BROADWAY, LOS ANGELES.

PASADENA MILITARY ACADEMY. On W. Ave. 34, near Pasadena, 4 miles from Los Angeles, on P. E. street car. An accredited School, receiving both Day Pupils and Boarders, greatly enlarged and newly equipped with modern conveniences, including indoor swimming pool and gymnasium. Military, Athletic, Horsemanship. Grammar Grades sixth to eighth inclusive; Full High School and College Preparatory work with special free courses in Business Training, Aeronautics and Wireless Telegraphy. FALL TERM opens September 20. Ask for new catalogue. Address COL. C. M. WOOD, Supt., Pasadena, Cal. Phones, Los Angeles 22491, or Pasadena, Paff Oaks 294.

URBAN MILITARY ACADEMY — Summer boarding school at Long Beach. Summer classes 6d 8th St. ALVARADO 2. Phone 52647.

MACKAY BUSINESS COLLEGE — Secretarial studies, Stenography, Bookkeeping, Telegraphy. Day and evening classes. Tuition may be earned by assisting with light office work. NINTH & MAIN.

SHORTHAND — BELL is the shortest, easiest accredited system of shorthand in the world, 15 rules, 22 word signs, no positions, average student in Dictation first month. BELL SCHOOL, 633 High Bldg. English, Spanish, French, Italian and German written without change. Instructed individually, day, evening or by your home. Speed before any accredited Shorthand known. Positions guaranteed. We teach Spanish, English, Book-keeping, Full Secretarial course. 63977.

Summer School — Long Beach Military Academy. The Only Academy by the Sea. Full particulars on application to PROFESSOR BLACKWELL, 2000 E. Ocean Blvd., Long Beach.

CLAREMONT — SCHOOL FOR BOYS. A school in the foothills, 25 miles from Los Angeles. Vigorous outdoor life. Horseback riding. Thorough preparation for college. Seventh grade to college entrance. Box 800, CLAREMONT, CALIFORNIA.

TATE HIGHWAY PERILS SCORED.

Dangerous Detours Are Called Unnecessary.

Management is Charged by Automobile Club.

Inconvenience, Expense and Accidents Criticised.

A declaration that the people of California have been put to great inconvenience and expense and subjected to accident because of poor detours around State highway construction work was made yesterday by the Automobile Club of Southern California following a survey of the detour situation by its engineering department.

Many of the detours have been necessary and unavoidable during reconstruction, the club statement says. Others have been made necessary by poor construction work on roads that have failed because of inadequate construction in the first place, and have caused more trouble and necessary because of ill-advised arrangements.

The lower end of the Ridge route, the Automobile Club's statement says, "will be virtually impossible to detour. The reconstruction of about eight miles of this road which the club's reports show will soon be reconstructed is the near future will necessitate the closing of the entire road.

"Reconstruction of the northerly section will make necessary a detour which is very narrow, steep and dangerous throughout. Many accidents occurred on this detour when it was in use during the construction period. It is impossible to use this detour for heavy loads.

DANGER CHARGED.

"The detour north of Bailey's, on the Ridge route, is steep and dangerous detour which recently been in use during the reconstruction of about 2000 feet of road pavement.

"On the Ventura road the reconstruction that has been done and is under way necessitates detours which make over much longer distances and especially through the Saugus district. Sometimes reconstruction work in this district prevents the use of any road, thus compelling the farmers in that section to

"On the coast road north of Santa Barbara, the reconstruction which has been done will necessitate the posting of detours at great speed. The road usually used as a detour during construction periods in this district has been out of commission because of the removal of bridges and the sliding of banks and portions of fields.

"No possible detours on the San Joaquin will be over rough, broken country, and will be dangerous and impassable for heavy loads. In all locations mentioned detours will be over a clay or adobe soil, which adds to the danger.

NEED FAR DISTANT.

"The detours necessary in Los Angeles county will be of less inconvenience to traffic than in most cases, because of the large mileage of county roads. The reconstruction program as now being carried on by the State can be extended over many years and the public will therefore encounter long detours on State roads for a relatively short period."

Regarding conditions on a detour created by the State at Grapevine canyon on the valley route are declared in a club report of January. Observers noted a minimum of thirty-five cars, and at times more than seventy-five waiting to get over a grade and more than one-fourth of them had to be helped over by the State highway trucks. The cars were unable to make the grade, because the steep and slippery. Six trucks turned over in one day, some of them three times. This road was reported closed to travel for heavy work the previous September, and the attention of the Railroad Commission had been called to the danger of the detour during the rainy season.

DOUBTS CITY'S POWER RIGHTS.

(Continued from First Page.)

regard as to who shall develop the great river's resources.

Representatives at today's conference with city and Edison company officials will be O. T. Johnson, Jr., of the U. P. Squires of the River Commission of Nevada, Col. J. G. Schrugham, State Engineer of Nevada; Water Commissioner Norvell Harris; Mayor Porter and City Attorney Albert Braunschweiger of Los Angeles, and several representatives of the Imperial Valley Irrigation District, who started for this city last night.

There will be a meeting of the water conference at the Bureau of Power and Light today at 9:30 a.m. and the conference with Edison company officials will be at 2:30 p.m.

BACKS LOS ANGELES.

The Long Beach City Council recently joined with Los Angeles in opposing in the plan of this city for hydroelectric development on the Colorado River. No definite agreement between the two cities was reached but the Long Beach Council yesterday adopted a resolution approving the steps taken by this city and opposing the activities of the Southern California Edison company and other private interests against the Boulder Canyon dam project.

CONVICTED OF THEFT.

Guilty of Stealing Saxophone Which He Can't Play.

Thomas Dizon's inability to play the saxophone formed an important factor yesterday in his trial in Judge Wood's court on a charge of having stolen such an instrument valued at $125 from the George J. Hahn Company, last May 17. The defendant took the stand and testified by Dep. Dist.-Atty. Ford regarding his musical abilities. Dizon asserted he did not know how to play a saxophone, but that he is able to play a trombone. The jury considered twenty minutes and found him guilty of grand theft. He will appear on Saturday for sentence. Testimony indicated the defendant stole the instrument and sold it with other musical instruments.

Bullock's August Clearance

Wednesday Third day

—Busy! Very, very, very busy! Two days of "The One Sale of the Year" gone already—and two such days! Never as long as Bullock's August Clearance has been the vigorous sale that it is, have there been days more rich with inspiration.

—Everybody said so.—Everybody felt enthusiasm. Particularly those who knew what is yet in store. Who have seen the number of items yet untouched.—A rich variety of merchandise for clearance to make every day of August a Day of Opportunity at Bullock's.

Particularly—Wednesday—Third Day

—Because preparation has been broader and more inclusive and more resultful than ever before in Every Section of the Store.

—If you were not at Bullock's Monday, or Tuesday, it should mean much to hear tell of the real activity which obtained at every turn. Better to hear your neighbor tell, if your neighbor was there. The writer has seen several Bullock's August Clearance Events, and has never been more inspired than now.

—This August is something different. It may have been the fact that prices were pointed downward so definitely. It may have been the fact that variety was so wide, or perhaps that the time was ripe for values. Maybe the joy of discovery added zest to the occasion.

—How Women Came to Buy Silks!

—and how they bought! Time flew too fast with values such as these to make it precious.

—How women enthused over the spangled and beaded tunics for clearance—and the Laces and Trimmings! Not often does one sees such values displayed.

—Blouses for Clearance attracted a veritable avalanche of buyers, and so did Hats. And when the writer saw Bullock's Women's Shoe Section at a busy moment, he had far to go to remember the like. But they were all busy moments everywhere, from Bullock's Basement Store to the Seventh Floor. A whole page could be devoted to telling of the happy buying and saving in the Basement Store alone, and then the half would not be told.

—Cottons, Linens, Flannels, Woolens—all busy—all attracting their own quota of shoppers in Bullock's August Clearance. If you could have seen the women buying Hosiery, and Gloves, Veilings, and Neckwear, Stationery, and Toilet Goods, Notions, Ribbons and Hand Bags!

—If you could have seen Bullock's Men's Store, or Bullock's Art Needlework and Gift Store, or Bullock's Store of Motor, Travel and Golf. Seldom have days been more golden for the shopper, and more filled with vigorous buying than these—Monday and Tuesday—the first and second of Bullock's August Clearance!

—Suits, Coats, Dresses, Skirts, for Clearance—these did not escape the search of those with economy in mind—nor did the Underwear for Women, nor the Sweaters, so illustrative of Bullock's August Clearance Values.

—The Children's Wear, as well—Shoes, Hats, Suits, Coats, Dresses, Underwear, Stockings—Values for Boys and Girls—all of them at the very forefront with opportunity.

—Bullock's Sections of House Furnishings drew plentifully from the streams of busy shoppers—and gave liberally of the offering of August Values—Bedding, Rugs, Draperies, Lamps, Furniture, Curtains, etc.

—And now we are at the threshold of Wednesday—Third Day—ready, but with a deeper appreciation of the trust that so many thousands of people place in the word of Bullock's. The invitation—the promise that Bullock's August Clearance was ready and overflowing with opportunity—has resulted in such encouraging response, that Bullock's finds it difficult to express the fullness of appreciation for the Friendships and Confidence displayed.

—This is the responsibility that is growing to be more of an inspiration day by day—Wednesday—Third Day of the "One Sale of The Year," coming to add its contribution. Laden bountifully with Values—Strong Clearance Values—which no one should miss. Coming to add its touch to the development and growth of Bullock's August Clearance—and make other friendships through a business development that must never know completion.

—Service—Sincerity—Courtesy to make the occasion one worthy of Bullock's in Personality, Values, Merchandise, Variety and Opportunity — to make the occasion fruitful and interpretative of Bullock's August Clearance—a Sale that is more than a sale — every day of August in every Section of the Store.

—A Clearance of Bullock's Own Stocks and an outlet for surplus stocks of many reliable manufacturers. A big, cheerful, hearty opportunity — Wednesday—the Third Day—and the Next—at Bullock's.

Suggesting the Range of Opportunity

—First Floor Clearance Values include Gloves, Stockings, Handkerchiefs, Hand Bags, Toilet Goods, Neckwear, Veilings, Ribbons, Jewelry, Silverware, Stationery, Men's Shirts, Hosiery, Pajamas, Underwear, Ties, etc.; Art Needlework, Gifts; Women's Sportswear; Travel, Motor and Golf Supplies.

—*Second Floor Clearance Values*—Silks, Woolens, Cottons, Linens, Flannels, Trimmings and Books.

—*Third Floor Clearance Values*—Women's and Misses' Suits, Coats, Dresses, Skirts, Furs, Capes, Millinery and Blouses. *Bridgeway*—Wash Dresses, Negligees, Petticoats, Robes, etc.

—*Fourth Floor Clearance Values*—Women's Shoes; High School Girls' Dresses, Suits, Coats, etc. Women's Underwear; Children's and Infants' Wear; Corsets.

—*Fifth Floor Clearance Values*—Young Men's and Boys' Clothing; Boys' and Girls' Shoes, Stockings, Gloves, Children's Underwear, Women's and Children's Knit Underwear; Wheel Goods, Toys, etc.

—*Sixth Floor Clearance Values*—Draperies, Lamps, Cedar Chests, Rugs, Bedding.

—*Seventh Floor Clearance Values* consist of some very attractive offerings in Furniture.

Wednesday! Third Day

CHEF REVEALS ARCADIA EATS.

Gives Recipes from Favored Subterranean Tavern.

War Veteran's Waffles Make Thousand Mouths Water.

Philadelphians Delighted by Savory Summer Soup.

BY A. L. WYMAN, M.C.A.

PHILADELPHIA, July 30.—Arcadia is the name of the best cafe in Philadelphia, and it is one of the most unique in the East, as it is built sixty feet below the street level and has a seating capacity of over 2000. They have a grill, cafeteria and cafe with twelve different dining-rooms, each decorated in a different style. The chef is a World War veteran, who, before the war, was director of some of the largest cafe kitchens in Paris, Monte Carlo, Nice and London, and the dishes that are prepared under his supervision are a delight to this cafe's many patrons. On a recent visit I asked for the recipe for the most delicious waffle I had ever tasted, that is a feature here, and the chef was kind enough to not only give me this recipe, but many others for the readers of The Times.

These waffles are baked in a special iron that is about twice as high or deep as the ordinary waffle iron, and they are crisp and tender and so good that they are served in place of the dessert at many of the dinner parties. To make, beat the yolks of three eggs until thick and lemon-colored, then beat into them two tablespoons of melted butter, two teaspoons of sugar, quarter teaspoon of salt, half a cup of milk, half a cup of cream, two cups of soft flour sifted with one teaspoon of baking powder, and when well mixed stir in the stiffly-beaten whites of three eggs; the batter should be soft and smooth. Bake in a well-greased, hot waffle iron and serve hot with sweet butter and current conserve.

SUMMER SOUP.

Puree of cucumbers is one of the best of summer soups, and is made by placing two peeled cucumbers in four cups of cold, salted water and when the water is brought to a boil, remove the cucumbers and place for a few minutes in fresh, cold water, drain off the cold water and place the cucumbers in a saucepan with three tablespoons of butter, cover the pan and simmer thirty minutes; remove the cover and stir in one and a half tablespoons of flour, and when well blended add two cups of boiling milk and two cups of chicken stock, boil twenty minutes and strain through a fine sieve. Place back in the saucepan, season with salt, paprika, and a pinch of sugar; add two tablespoons of butter and half a cup of hot cream. When the butter is melted add some croutons, (small squares of bread fried in butter,) serve in a hot tureen.

An unusual dessert was being prepared during my visit to the kitchens, and the chef told me that it was a California dish, named Mt. Shasta. This is made by adding to one quart of orange ice cream, two cups of soaked seedless raisins, and putting the mixture in a round mold, covering the mold tight and placing in cracked ice and salt to harden. Now make an Italian meringue by cooking two and a quarter cups of sugar and one cup of water in a heavy kettle, to a blow. To tell when the sugar has reached the blow, dip a skimmer into the boiling syrup and remove immediately. Let drain a little and then blow through. If small air bubbles form, it is cooked enough. Beat the whites of six eggs stiff and dry and pour in slowly the cooked syrup. Beating constantly, and beat until cold; flavor with lemon extract. Unmold the hardened ice cream on an ice cold platter and cover with the meringue. Place in a quick oven and brown, this will take about two minutes; watch so that it will not burn. Serve on the same dish.

PEAS FRENCH STYLE.

Peas cooked French style and served as a separate course are fine.

Unique Frock.

It is of black crepe with a panel effect in the back. On the skirt there are three rows cut out with gray crepe inserted underneath. A wide black and gray sash finishes off this pretty frock. (Keystone View Company.)

Place in a saucepan four tablespoons of butter and one head of lettuce, cut very fine. Simmer five minutes, and add four cups of shelled peas, half a dozen small carrots, and one dozen raw asparagus tips. Season with salt, fresh pepper and a pinch of sugar, add two cups of chicken stock, cover and simmer forty-five minutes. Sprinkle with finely chopped parsley when serving.

Plate dinners are featured by all the leading cafes, and are just what the name implies. A whole dinner served on one large plate, called a special shore dinner, had on it four roasted clams, a tomato stuffed with creamed crab flakes, an ear of corn and half a broiled lobster. Another was called a beefsteak platter: this consisted of a special baked potato, hot asparagus tips, broiled tomatoes and a broiled piece of filet mignon. Another is the Southern chicken dinner platter. On this platter are sweet potatoes, Southern style, roasted corn, peas with mint and half a fried chicken. The platters used are special round dishes, much larger than the regulation dinner plate and each cafe has a special design.

California and Florida fruits are plentiful in the markets, but they do not sell cheaper here than at home as so many of our people say they do. We have bought all kinds of California fruit, both here and in New York, and if we were charged the same prices at home we would have the seller arrested for overcharging.

During the summer months fruit cocktails, fruit suprcmes and salads are used extensively for the first course at dinners and luncheons. One of the best was made with equal amounts of cubes of watermelon, Georgia peaches, California oranges, seedless raisins orange and grape fruit juice chilled and served in tall glasses garnished with a pitted California cherry with a blanched California almond in the center.

SOCIETY.

BY VIRGINIA WOODS.

At Beach Wedding.

St. Anthony's Church, Long Beach, was the scene of a charming wedding, when Miss Helen Watson Hill became the bride of Paul H. Devine of San Francisco. She was frocked in an orchid organdie over pink satin, and wore a picture hat of white and pink. Carrying brides' roses and valley lillies, she made a lovely picture as she advanced to the altar, attended by her sister, Mrs. William J. Carter, who wore grey organdie and carried Cecile Brunner roses.

After the ceremony an elaborate wedding breakfast was served at Mrs. Carter's home to a group of immediate friends and relatives.

Mr. and Mrs. Devine are now spending their honeymoon at Catalina, and will be at home to their friends after August 17, in San Francisco, where Mr. Devine is connected with the First National Bank.

For Gov. and Mrs. Stephens.

Gov. and Mrs. Stephens were dinner guests of Mrs. Frank Hart at Hartwood, Lamanda Park Friday evening. Later Mrs. Hart assembled her guests at the garden party given by the E. C. Newtons in Sierra Madre.

For Silver Wedding.

Dr. and Mrs. C. Howard Heard have issued invitations to 300 friends and relatives to join with them in celebrating their silver wedding anniversary at their home on Occidental Boulevard the evening of August 3. The affair will be a lawn party, and the spacious lawns of the Heard home will be decorated with lanterns. Forty-three relatives, all residents of Southern California, have accepted the invitations. A musical program will be a feature of the evening.

Announce Wedding.

Announcement is made of the marriage of Miss Mary O'Brien and Merlin L. Mayer at the home of the officiating minister, Rev. J. M. Schaefle. The bride and groom were attended by Mr. and Mrs. W. Hollenbeck. After a wedding journey of three weeks the bridal couple will be at home to their friends at 604 Washington street.

From Hermosa.

Mrs. Benjamin F. Kierueff returned yesterday from a vacation at Hermosa Beach. Mrs. H. E. Vandervoort, mother of Mrs. Kierueff, spent a week with her daughter and family during their stay at the beach.

Bohemian Supper Party.

Mr. and Mrs. G. M. Francois of Pittsburg are visiting Mr. and Mrs. C. F. Zaruba (Emma Loeffler,) of South St. Andrews Place and Saturday night the latter gave a Bohemian supper party and musicale in honor of their guests. There were fifty people present. Mr. Francois is one of the most celebrated violin makers of the world. He possesses a fine collection of Cremonese instruments and rare old bows.

At Surprise Party.

Rev. and Mrs. A. G. Smither were guests of honor at a surprise party on the thirtieth anniversary of their marriage. Their son, A. C. Smither, assisted by members of the First Christian Church, was host. Reminiscences and congratulatory talks were given by Rev. H. C. Hendrick, Charles C. Chapman, Mrs. James G. Warren and Mr. Leon V. Shaw.

At Brentwood Country Club.

At a luncheon at the Brentwood Country Club yesterday, Mrs. Willoughby Redman presided when members of the Foreign Relief Committee met informally together. Covers were laid for Mrs. Redman, Mrs. E. S. Bogardus, Mrs. J. W. Wolcott Rhodes, Mrs. Michael Cramer, Mrs. A. D. Houghton, Mrs. W. R. Burke, Miss Ella Lowenberry, Mrs. O. E. Wood, Mrs. John Pavlelski, Mrs. Frank Baierski, Mrs. O. P. Clark, Mrs. Louis Glishouser, Mrs. Carrie S. Greene and Mrs. William P. Nye.

Fashions Forecast

KIMLOS ONE-PIECE DRESS.

A scalloped tendon, finished with curling precision this design as the newest in summer frocks for little girls. Decidedly simple in the style, hanging in one piece from the shoulders with not even a belt to break the lines.

The child's one-piece dress is cut in sizes 4, 2, 4 and 6 years. Size 4 requires 1¼ yards 10 inch

Material with 7/8 yards shelling. Price 12 cents.

Every woman who wants to dress stylishly and economically should order at once the Summer issue of our Fashion Quarterly, which contains over 200 styles, dressmaking lessons, &c. Price 10 cents. Postage prepaid and mailed for delivery guaranteed. Send 10 cents for a pattern and Fashion Quarterly.

No patterns are kept in the Los Angeles office of The Times. To get patterns send the price, in stamps or well-wrapped coins, and the number and size of the pattern desired to this address:

FASHION DEPARTMENT,
Los Angeles Times,
220 S. Wolfe St.,
CHICAGO, ILL.

All orders will be handled by this branch office in Chicago, and in order to eliminate the delay in forwarding we have arranged to have orders sent direct to the Chicago office.

The patterns will all be special patterns made for The Times.

Efficient Housekeeping

By Laura A. Kirkman

AN EVENING CARD PARTY.

Recently I wrote about giving a picnic. Today I am going to take up the question of giving a little evening party in the home. And I am going to reiterate that summertime is playtime. Give a party of some sort, now and then, just to keep you young and normal and happy. (I needn't say "healthy", for if one is happy one is generally healthy.)

As not everybody plays auction bridge, I am going to give the following directions for another, and simpler, card game:

How to play "Snap:" There are four persons to a table. An ordinary pack of playing cards is dealt round. Each of the four players keeps his cards face down in a pile and turns up one at a time. When two cards of the same denomination are turned up at the same time (two aces, two kings, etc.,) the players who turned up these identical cards much each cry "snap;" whoever says it first takes both the cards. If three or even all four, turn up cards of the same denomination at once, all must call out "snap" and the one who called it first will gather in all the similar cards turned up. If it is hard to decide who said it first, then the similar cards are allowed to pass untaken—being put on the heap beside the original pack. If anyone cries "snap" at the wrong time, his cards are placed in the center of the table and whenever a card turns up corresponding to this forfeited card, anyone at the table may win it by being the first to say "snap-pool." When each player's original pack is exhausted, he begins turning up the second pile he has been making by putting in a pile all the cards he turned up that were not similar to any other player's. Of course all must turn up their cards in unison. The game ends when one player has all the cards.

Suitable refreshments are:

Crystallized ginger
Cream cheese, olive sandwiches
Small frosted cup-cakes
Iced Russian chocolate

The Iced Russian Chocolate called for in this menu will prove most popular with those who have never tasted it before. It is a new drink, a combination of cocoa and coffee. Prepare the cocoa by heating 1 quart of milk to the boiling point, then adding to it one-half cup of cocoa, powder mixed to a paste with a little cold water; let boil for five minutes and set aside to cool. Now make the coffee by adding one and one-half cups of coffee to six cups of cold water, letting boil for twenty minutes, then cooling. Combine these two mixtures in equal portions (a cup of coffee to a cup of cocoa) and place the drink in the refrigerator to become chilled. Serve in tall glasses with cracked ice and pass confectioners' sugar. This drink may also be served hot. For those who are easily kept awake at night by drinking coffee, it is best to make this drink by using two cups of the made cocoa to one cup of the made coffee; in this way the coffee element is very slight and the drink is really no more than coffee-flavored cocoa. Even children may drink it if made in this way.

The Cream Cheese-Olive Sandwiches are made by chopping finely one bottle of stuffed olives and mixing this with two packages of cream cheese; add just enough soft butter to make a good paste, then spread on crustless slices of white bread. Cut into "fingers," making two rather wide fingers from one full-size piece of bread.

All inquiries addressed to Miss Kirkman, in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. When requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be inclosed with the question.—[The Editor.

WHY

DO WE GET CORNS?

[Copyright, 1921, by the Wheeler Syndicate, Inc.]

Defined by the dictionary as "a intermittent pressure," a "corn" is intermittant pressure," a "corn" is therefore seen to be due to rubbing or pressure upon any portion of the body—although we generally apply the term to the feet only. Here the callous growth is due to the pressure of the leather of the shoes upon some outstanding portion of the foot, principally the joints or sides of the toes. But note that word "intermittent" in the definition of the term "corn," for there lies the entire reason for the hard growth. Inasmuch as we remove our shoes at night, no pressure of this kind can be regarded as continuous and, if it were, no corn would appear, but the skin would be worn away into a depression instead of a lump. Removing the pressure from time to time permits the skin to build up the injured tissues and to attempt to guard this portion of the body by a coating of a hard substance or callus. It is this coating which causes the pain of a corn, for it presses upon the more delicate structure underneath and results in a hurt precisely similar to the one which we experience if we press against any portion of the skin with a blunt instrument.

While we think of "corns" as occurring only on the feet, they may develop on any portion of the body subjected to a "constant intermittent pressure." Thus workmen, tennis players and golfers get corns or calluses on their hands; draughtsmen and others who sit with their elbows constantly pressing against a desk frequently develop a mild species of corns there and callous growths around the waist are by no means infrequent among women who are in the habit of wearing tight corsets.

Wives! Here's Menu to Tempt Men's Palates.

Housewives who are at a loss as to what to serve to their husbands for dinner might like a tip from the following eighteen-course dinner, which was served at the Ambassador recently for A. Carver of Pasadena and two San Francisco friends.

The menu was planned by Mr. Carver and carried out by Edmund Gueble, matre de hotel. Incidentally it is the first eighteen-course dinner that the Ambassador has served. The menu follows:

Orchids
Celery Olives
Imported Salted Almonds
Jumbo Olives Cerujque
Grapefruit Supreme Florida
Ambassador Cocktail
Caviar Fereun Sur Socle
Crab Meat Rockaway
Consommee Bellevue
Terrapine Baltimore
Concombres Alsacienemee
Breast of Guinea Hen Sous Cloche
Trianon aux Marrons
Petits Pois a l'Anglaise
Pommes Champs Elysees
Orange Surprise Glace
Alligator Pear Guadaloupe
Omelette Surprise Norvegienne
Fleurs de Cecil Burmer au Feuille
de Violet Glace
Coupe Ambassadeur
Friandises Glace sur Panier
Mignonette
Boite de Luxe Bonbons Carver
Punch Ambassadeur
Mocca Officcuimoff

Which?

"Vamps will be shorter next Fall" is a headline sent us, but we don't know whether it refers to shoes or shes.—[Boston Transcript.

The Daily Fun Hour.
BY HONOR WALSH.

BEAN-BAG GUARD.

A space about twelve feet square is marked off and called the Guardhouse. In the center of this square a stake is driven. The pitcher's base is a line drawn twelve to fifteen feet from the border of the Guardhouse. Bean bags are made, one bean bag to each player. Then the first line-up on the pitcher's base, as before, and three of them throw their bean bags simultaneously at the stake, all trying to knock down the Guard's bean bag.

The real action begins when the players go into the Guardhouse to recover their bean bags, for if the Guard can tag one of them while in the Guardhouse, the tagged one becomes Guard in turn. The Guard must replace his own bean bag on top of the stake before he can attempt to tag the others and he gives quick players a chance to escape with their bean bags to the ground beyond the borders of the Guardhouse. Slower players may run away without their bean bags, but must watch their chance to get them when the next Guard is busy placing his bean bag on the stake.

HOSE CHOPPED.

A three-inch fire hose around the building was found to have been chopped to pieces by an axe. After piling waste, rags and boxes under a corner of the building and firebug saturated the pile with gasoline before lighting it, the fire was soon sprinkled on the side of the building and on fences and trees in the yard. Although the fire truck was nearly wrecked on route to the fire, the blaze was quickly extinguished before being aided by the fire boat.

AWAKENS SLEEPERS.

Mr. and Mrs. J. W. Reed, [illegible] of the hotel, which is located on Wilcox avenue, heard the cry of "fire, fire," and seeing the dense smoke in the hallway, awakened many occupants of the building. Patrolman H. F. Hall helped others from the burning structure.

Mr. Reed spread the alarm a few minutes after finding the fire, and the fire department arrived on the scene of commission. The loss amounted to approximately $10,000. Mrs. Sampler, owner of the hotel, is expected to return from Alaska within the next few days.

Milton D. Martin.

Wealthy, but He Walks Here from Chicago.

The hob-nail express brought Milton D. Martin, wealthy bond broker of Chicago, to Los Angeles a few days ago. Mr. Martin possesses the wherewithal to charter a special fifteen-coach train to carry him on business trips to distant cities, but he chooses the hob-nail express.

It was a pair of much-abused shoes that brought him here en route to San Francisco to close a business deal. He left his Chicago office on May 1, and spent three months on the road, walking an average of thirty miles per day.

When he swung down the Downey Road, whistling as he steamed into the ranch of his brother, Elmer B. Martin, with a grinding of hob-nailed brakes, he had covered the thirty-two miles from Ontario in a day.

Last year Mr. Martin found it necessary to go to New York on business. He walked. The year before that his business called him to Michigan. He walked. It is his means of combining pleasure and business, he said. But he tarried a little too long on his brother's ranch, so, on the last lap of his trip to San Francisco he abandoned the hob-nail express and boarded a Southern Pacific train here.

FINED AS MOONSHINER.

Lover of Liquor Must Pay Penalty For Making Booze at Home.

Christian Matteo, living at 871 North Avenue 21, being a lover of liquor and harrassed by the high price of the stuff, concluded that he would make some on his own account. He purchased a still and a number of the necessary ingredients, but he had hardly set up the machine before he was pounced upon by the Federal authorities.

U. S. District Judge Trippet yesterday assessed a fine of $500 on Matteo, and he will go to the Orange County Jail until he settles the bill.

COMPANY TO BUILD NEW HOME.

Takes Ninety-nine-Year Lease on Flower-Street Property.

The C. C. Brown Candy Company, which for fourteen years has occupied its present location at 821 South Olive street, has acquired a ninety-nine-year lease on the property on the west side of Flower street, just south of Seventh, from E. H. and H. L. Miller, and plans are now being prepared for a modern three-story building to be erected on the site by the lessees.

The new home of the company will cover the full site, sixty by 165 feet, and will represent an investment of more than $75,000. The first floor will be used for the retail business of the firm, while the second floor will be occupied by the factory and the wholesale departments. The third floor will be leased to other tenants. Possession of the property will be taken on the 16th inst., and construction of the building will be started immediately thereafter. It is expected to have the structure ready for occupation by the first of next year. T. Beverly Kelm, architect, has been commissioned to prepare the plans for the building. The lease transaction was handled by the Roy C. Seeley Company.

Mrs. Malmberg Charged with Being Insane.

Gertrude Malmberg, who shot at Walter E. Smith, an attorney, and was charged with an attempt to kill, was taken to the psychopathic ward of the County Hospital yesterday on a warrant sworn to by Mr. Smith, charging her with insanity.

The shooting case was called in Judge Houser's court yesterday, but after a conference with the court, Mr. Smith swore out the insanity complaint. The criminal case was continued by Judge Houser until the 16th inst. Mrs. Malmberg will be arraigned before the Lunacy Commission tomorrow.

The insanity complaint recites that the attempt to shoot Mr. Smith took place last February 7. Mrs. Malmberg is charged with laboring under delusions that various deeds, instruments and certificates of title have been forged or altered. Mr. Smith believes Mrs. Malmberg has at various times and places before and after she is said to have shot at him, threatened to kill certain officers of the Title Insurance and Trust Company and is dangerous to be at large. She says she simply shot at the floor.

LIBRARY SCHOOL HERE.

Junior Attendants' Course Will Open Early This Month.

The Library School of the Los Angeles Public Library will begin a two months' course to prepare for junior attendants' work on the 8th inst. High-school graduates with a knowledge of typewriting are eligible. Miss Marion Horton, principal of the school, returned yesterday from six weeks in the East, where she visited leading libraries and library schools. She attended the meetings of the American Library Association, the Association of the American Library Schools, and the Massachusetts Library Institute in Boston, and was elected chairman of the school libraries section of the American Library Association.

The Library School in Los Angeles is one of the thirteen in the country and the only one, except that at Seattle, on the Pacific Coast. It prepares for work in any type of library and more positions are open to its graduates than there are persons to fill them.

POLICE BOARD MEETS.

Commissioners De la Monte and De Coo Attend First Gathering.

Police Commissioners De la Monte and De Coo, whose appointments recently were approved by the City Council, yesterday attended their first meeting. Mayor Cryer, Chief of Police Jones, former Chief Pendegast and retiring Commissioners Barry and Laws, were present also. The last three were presented with honorary police-captain badges in appreciation of their services.

No new matters of policy were presented to the commissioners. A resolution was adopted approving the stand taken by Chief Jones that no members of the Police Department shall accept outside work, and the Chief's plan to adopt a book system for registration of traffic violations, instead of the tag system, was indorsed also.

SETTLEMENT IN VIEW.

Hearing of Suit Against Rich Man Postponed for Property Action.

In view of a possible property settlement, the preliminary hearing in the separate maintenance suit of Mrs. Alma M. Young against William F. Young, owner of the Young Apartments and property in Kansas and Mexico, was yesterday continued by Judge Myers until September 6. Mr. Young is said to be worth $1,100,000. She charges him with cruelty; he locked her out of his apartments one evening, according to the complaint. They own a residence in Westmoreland Place.

Mrs. Young was still living at their home when she filed her suit through Attorneys Griffith Jones and John J. Craig. She asks for her share of the community property.

THANKS LOCAL BAR FOR JUDGESHIP AID.

LOS ANGELES, Aug. 3.—[To the Editor of The Times:] Through the columns of your newspaper may I express my appreciation to the members of the Los Angeles County Bar Association who placed my name third in the recent poll for one of the three Superior Court judgeships.

Without solicitation on my part I received 873 votes. For this splendid honor I sincerely thank the profession. I appreciate the confidence of the bar more than words have power to express. At this time I wish also to thank my many friends who, before the bar poll was selected as a determining factor in the judgeship appointments, personally urged my cause with Gov. Stephens.

Yours very truly,
RUBEN S. SCHMIDT.

ROBBED TWICE IN SAME PLACE.

Money Taken on Same Car, Same Street; Were They Same Pickpockets?

Lightning does strike twice in the same place, old-time prophets to the contrary notwithstanding. Comes as witness to this discovery, G. F. Gairing, 1115 West Fortieth Place, who has been the victim of lightning—lightning fingers—twice within three weeks and both times in the same place.

Mr. Gairing told the police yesterday that, on Saturday, pickpockets "nicked" him for his purse and $3, on a Hawthorne car going north on Broadway. Seventeen days ago, on the same car, and on the same spot on Broadway, pickpockets robbed him of $22. He's wondering, to make the thing complete, whether or not they were the same pickpockets.

IN THE HARBOR.

Steamer Admiral Farragut, Pacific Steamship dock.

Tuesday,	Aug. 9..	1:10	7:14	1:47	9:03
		4.2	1.7	5.4	1.6

PORT NOTES.

The new 16,500-ton Japanese liner Bakuyo Maru, which came in from Hongkong yesterday on her maiden voyage, is discharging 841 tons of cargo at the outer harbor dock. Three hundred tons of shoyu, a Japanese sauce in small tubs, and a large shipment of peanuts were among the imports, also three passengers bound for Mexico. Seven hundred passengers in all were on board the liner, which sails at noon today for Valparaiso.

The Davenport Steamship Company's steamer Fulcharet arrived yesterday from San Francisco, bringing 4400 bundles of lath transhipped from another vessel at the northern port. After discharging the lath the steamer will load 250 tons of general cargo for Central America.

The steam schooner Bertie M. Haales, which arrived yesterday from Albion with lumber, will go on dry dock at the plant of the Los Angeles Shipbuilding & Dry Dock Company on Thursday for hull repairs.

Five big oil-shore freighters came into port yesterday, three to discharge cargo here, one for Bunker oil, and the fifth to load. The Pacific-Pacific freighter West Lewark, locally-built vessel, is loading at Pier A for the United Kingdom.

The Lukuru, Lloyd Freighter Rose Mariner arrived from New York with more than 9000 tons of steel and manufactured goods to be discharged here, while the Springfield of the Western Line brought a heavy shipment from Boston and Portland, Me. The latter vessel is taking the schedule of the freighter Lehigh.

The Southern & Pacific freighter Duquesne put in from Port Arthur, Tex., yesterday for bunker oil, the vessel to sail this morning for Shanghai.

The Luckenbach Line freighter Julia Luckenbach, which is towing the freighter Katrina Luckenbach from San Pedro, is expected at the harbor tomorrow. The Julia will drop the Katrina at San Diego, where the latter vessel will discharge part of her cargo before proceeding to this port.

The Pacific Mail Steamship Company yesterday announced that the around-the-world sailings of their steamers have been canceled for an indefinite period. Formerly the vessels ran once or twice on this run, but will be used on short their return to San Francisco. "Scarcity of cargo offerings and other reasons" caused the suspension of the service, according to the announcement of the company.

Pessimism Explained.

"Blank is always foreseeing disaster."

"Yes, poor fellow. You see his imagination works a lot better than his liver."—[Boston Transcript.

West Islip for San Francisco; S.S. City of Canton for Boston; S.S. Tolmidas for London; S.S. West Kanawa for Shanghai; S.S. Darien for Kobe.

OFFICERS FOR SHIP HARVARD ARE NAMED.

With preparations practically completed for the initial voyage of the Los Angeles Steamship Company's steamer Harvard on Friday afternoon of this week, General Manager Ralph Chandler of the company announced yesterday the names of the officers who will have charge of the ship.

Capt. Randall Rogers will be master of the Harvard.

F. C. Dellegar will be chief officer; Walter Madler, second officer; F. W. Muller, third officer, and L. J. Weld, fourth officer.

Herman Broghman will be chief engineer and Walter Nagel, assistant engineer.

The Harvard is now receiving finishing touches preparatory to leaving at 3 p.m. Friday for San Francisco on its maiden trip.

Well-known persons have booked passage for the ship's first trip and word received yesterday from San Francisco indicates a big reception for the boat when it docks there Saturday morning.

President Baker of the Los Angeles Steamship Company, General Manager Chandler and other officials will be aboard when the Harvard sails. Friday also marks the inauguration of complete service by the Yale and Harvard between Los Angeles and San Francisco, sailings to be daily from Los Angeles except Saturday and Sunday and daily from San Francisco except Sunday and Monday.

Made to Endure

Vitrified Clay Sewer Pipe

Defies Time—resists acids and acid gases in the sewer, alkalies in the soil—endures where sewers constructed of other materials deteriorate, break down and crumble away.

Smooth, frictionless, impervious to moisture, VITRIFIED CLAY SEWER PIPE stands every test and outlasts every other kind of pipe.

Write for free booklet, "The Making of Vitrified Clay Sewer Pipe."

Specify "Pacific"

Nearly all large cities in the United States today insist upon the use of vitrified clay pipe in their sewer systems. It wears. It lasts. It is best. In the long run it is much the cheapest.

CHECK RAISED TO MAKE SALE?

Unusual Suit Against Bank Here is Concluded.

Testimony Shows Odd Method Used to Clinch Deal.

Defendant Asserts Buyer of Protector Responsible.

One of the most unusual suits in the annals of the Superior Court was concluded yesterday by Judge Hewitt and submitted for authorities. It involves a check protector machine, a cigar merchant and a bank.

The purported story as it came out in court in the suit of John Fontana against the Bank of Italy, seeking to hold it responsible for a check which had been raised from $10 to $71.50 and cashed at the bank by its salesman, J. L. Abbott, follows:

MAKES OFFER.

Mr. Abbott approached Mr. Fontana with the view of interesting him in the check protector. There he left Mr. Fontana's desk a check for $10 he had just drawn for the M. A. Gunst Cigar Company. As an inducement to persuade Mr. Fontana to buy the protector, Mr. Abbott told him he could take the Gunst check, stamp it with his device, raise the amount and cash it at the bank. Some discussion arose between the two and finally Mr. Fontana is said to have replied:

"All right; let's see you do it."

CHECK CASHED.

Mr. Abbott stamped and raised the check to $71.50, the price of his device, and got the money at the bank. Mr. Fontana then sued the bank, asserting that the check was forged and that the bank was responsible as the law provides in such cases. But the bank defended the suit on the ground that there was an unlawful understanding between Mr. Fontana and Mr. Abbott to see, as an experiment, whether the bank would pay a forged check and that therefore it was not liable; further, that Mr. Fontana cannot escape the consequence of his own wrong, even if the bank did fall into a trap. The bank is represented by Andreani & Haines. The testimony showed that Mr. Abbott kept the money and Mr. Fontana got the check protector.

THIRTY TO COMPLETE THEIR AIR TRAINING.

[LOCAL CORRESPONDENCE.]

RIVERSIDE, Aug. 2.—Twenty-seven cadets and four officers will complete their training at March Field on the 19th inst., according to announcement made by Maj. Gen. E. Peabody, commandant. A letter received from the War Department is to the effect that all training at the field will be suspended on the 19th inst.

The training of the class was discontinued a few weeks ago because the government failed to furnish gasoline for the flights. Sufficient gasoline was received yesterday to enable the class to complete its training, but not in such a quantity as to celebrate the inauguration of the summer forest air patrol. Major Peabody holds to the view that this service will not be carried on this season.

COSTLY BUILDING IS SOLD FOR PITTANCE.

[LOCAL CORRESPONDENCE.]

REDLANDS, Aug. 2.—A building that would cost $40,000 or more to duplicate today has just been sold here after having been sold for $1700 to the wrecking company. It was the Lowell school, which was used as an intermediate school, and had been built almost twenty years.

The school trustees asked for bids on the property, and it was sold to the highest bidder. The school is of frame and so built as to be fine for present use now. It was built too large to be moved and so is to be wrecked.

The lumber taken out of the building is all found to be in first-class condition, and will be used in some new buildings in the city.

MIRACULOUSLY ESCAPE.

[EXCLUSIVE DISPATCH.]

ONTARIO, Aug. 2.—That Everett Hall and Cecil Mattingly escaped death yesterday afternoon when the car they were driving was hit by Salt Lake train No. 7, was considered miraculous by witnesses. The car was demolished and the occupants were thrown in the crash, but they jumped to safety.

DENBY MAY VISIT COAST.

With the issuing of an order to the Pacific Fleet for six weeks of battle maneuvers off San Diego, there is reason to believe that Secretary Denby will revive his plans to visit the Pacific Coast if exacting duties in Washington will permit of his absence, news dispatches from the national capital said last night. Original plans for the visit of the Secretary had to be abandoned because of the bombing tests, and other important matters, which required his personal attention in the East, and it appeared for a while as if his visit would be postponed until next year.

In view of the fact that the fleet movements off San Diego will run through September, it is believed that, barring some emergency, the Secretary will arrive in Southern California in time to watch the work of the fleet and to make a flying trip of inspection to the more important naval bases on the Coast.

HURRIED BOND SALE COSTLY.

(Continued from First Page.)

sale by the Council are to carry 5.75 per cent. It was because no market exists for 5 per cent bonds that the State law raising the rate to not more than 6 per cent was passed."

Mr. Mathews corroborated Mr. Robertson in all essential points of the statement. He added an interesting point, however, when he said he had not made any special effort to get bids for the bonds during a recent trip in the East. Mr. Criswell, in his address before the Council had asserted Mr. Mathews made a thorough investigation of the bond market, and was unable to get any offers for the big issue.

MUSHET PROTESTS.

"This matter should be referred back to the Finance Committee for further consideration," said Mr. Mushet. "The action is too hurried. This one-minute stuff is not right; it doesn't look right. I protest against it. I am opposed to this offer because the people by a two-thirds majority decided in favor of the bonds carrying interest not to exceed 5 per cent. Under this agreement the interest is nearly 6 per cent.

"Just because forty Senators and Eighty Assemblymen in the State Legislature passed a law authorizing municipalities to sell bonds with interest not to exceed 6 per cent, I cannot approve of such action against the expressed will of the people. This offer is not to pay 100 cents on the dollar, but proposes to give $8.63 cents on the dollar. We have to discount the bonds by $1,535,000. I hold that that law is unconstitutional, because you can't set aside the will of the people by a retroactive measure of this sort."

Mr. Mushet then had read into the Council record the Ballard letter, in which the Edison official wrote:

"Your attention is directed to the fact that, under the provisions of the contract between the company and the city for the extension of the purchase agreement, which was entered into about the first of last month, it was agreed that the transaction should be consummated on March 1, 1922, seven months from now.

"The provision in the extension agreement for a definite date of consummation was agreed to by both parties because of the fact that the company was under the necessity of making specific arrangements for financing its development program and could not do so with uncertainty existing as to the time when the city would sell its bonds and be in a position to make payment.

"Immediately following the execution of the extension agreement the company prepared its plans for financing, covering the period until March 1, 1922, and took up with its bankers the proposition of selling $6,000,000 of its bonds. This transaction has now been consummated and the bonds sold in that amount, and the proceeds paid to the company."

CRISWELL'S STAND.

Mr. Criswell, who had turned over his chair as President to Councilman Langdon, in order to lead the fight from the floor, replied that Mr. Mushet had had every opportunity to ask all the questions he desired concerning the offer presented by Mr. Hellman. He asserted that the City Council of Los Angeles can not control the interest market of the United States, and that the issue was clear cut, being merely that the city had the bonds to sell, and here was an offer.

"Is it acceptable or not?" he asked. "I believe it is violating no confidence to say that Mr. Hellman is representing a New York syndicate and these men wish an answer. If any good could come of it I would favor a delay. The Southern California Edison Company letter apparently was sent just to throw a monkey wrench in the machinery. If the day comes, and we haven't got the money, we cannot do business with them."

Councilman Allan placed himself on record as favoring points presented by both the majority and the minority opinions, but declared he would favor approval of the bid because he relied on the judgment of the Board of Public Service Commissioners as having the interests of the city at heart in urging the approval. On any other matters brought up for quick decision by the Council he would vote "no" until proper time had been allowed for consideration.

CLASH DEVELOPS.

Mr. Mallard then defended his position in approving the acceptance of the bid. A rapid-fire clash between him and Mr. Mushet developed when Mr. Mallard asserted Mr. Mushet apparently knew of the matter in advance because he brought in a prepared minority report. To this Mr. Mushet replied hotly that it was Mr. Mallard and not he who signed the report brought in and laid before them.

"I would be a coward if I did not take the stand I do even if everyone else was against me," Mr. Mushet concluded.

HARBOR TIED UP.

As a final flare-up of the Council clash, Mr. Mushet started to oppose a resolution by Mr. Criswell that the clerk be instructed to return unopened any bids for the $1,200,000 worth of harbor bonds advertised for sale today.

"What, does this bid on the power bonds also tie up the harbor?" demanded Mr. Mushet.

Mr. Criswell declared he never backed down from a fight, but that this was needless discussion, and that the resolution accepting the power bond bid carried with it an agreement not to sell other municipal bonds within sixty days from the date of delivery of the power bonds. In justice to this agreement and because of the expressed wishes of at least one of the bond men expecting the bid on the harbor bonds he asked that all such bids be returned unopened. This motion was carried unanimously, Mr. Mushet withdrawing his opposition.

D. K. Drake of Drake, Riley & Thomas, western managers for the Hellman syndicate which bought the bonds, said last night he considered that, in the state of the market, the deal is a very good one. He declared that the bonds have been for sale for a long time and that the city was wise to accept the offer rather than take a chance of not being able to sell them at all.

OCTOGENARIAN ROUTS FIEND, SAVES NEPHEW.

LONG-HANDLED SHOVEL USED EFFECTIVELY, FOILS SCHEME OF CANTON ROBBER.

[LOCAL CORRESPONDENCE.]

ONTARIO, Aug. 2.—How Richard Sontag, age 70, was spared serious bodily injury and was saved from serious loss by robbery at the hands of a desperado at the lonely Sontag ranch near the head of Cucamonga Canyon last night, through the bravery of his 80-year-old uncle, Hugo Sontag, just released from Patton, where he had been under observation as to his sanity, was related to the local police today.

After luring Richard Sontag from the ranch dwelling to a honey-house near by on a pretext of wishing to purchase honey, the bandit struck him between the eyes and then made an ineffectual attempt to strangle him. The thief succeeded in extracting $3 in change from Sontag's pockets, but overlooked a roll of real money in another portion of his clothing.

Meanwhile the nephew's lusty cries had attracted the attention of his uncle, who came to the rescue and put the assailant to flight with a long-handled shovel, which he was still brandishing wickedly when campers further down the canyon, attracted by the commotion, reached the scene.

In his flight, the robber left his coat and a long leather strap with which he is believed to have planned to bind his victim in order that he might be free to search the ranch house.

Recent reports of Hugo Sontag, the uncle, having been found wandering the streets of San Bernardino with a large sum of money in his pockets and with his mind apparently deranged, resulting in his commitment to Patton, are believed to have prompted the attack.

The bandit evidently had not learned, however, of the return of the uncle to the canyon ranch and when he found that he had two men to deal with instead of one, he bolted.

YOUTH BADLY HURT.

[EXCLUSIVE DISPATCH.]

ONTARIO, Aug. 2.—Van Coplin, aged 18, of 1951 North San Antonio avenue, sustained a compound fracture of the left arm, probable internal injuries and the thumb on his left hand was almost completely severed tonight when the motorcycle he was riding on Ontario Boulevard near Collins Station collided with a motor car driven by H. E. Stratten, Pomona auto service station proprietor. Coplin, who was accompanied by H. A. Davis of West Tenth street in a side car attached to the motorcycle was en route to Riverside.

TO EXAMINE MRS. CAMPBELL.

[LOCAL CORRESPONDENCE.]

SANTA ANA, Aug. 2.—With the preliminary examination of Mary M. Campbell, who shot and killed her husband, Jess V. Campbell, in Balboa on the afternoon of June 27, scheduled to be held here tomorrow morning at 10 o'clock, it is thought that facts concerning the past life of the Campbells will be bared.

Thorough investigations of both Mr. and Mrs. Campbell have been made by the District Attorney here. The findings, if there have been any, have been kept from the public, and it is thought that unexpected testimony will be brought forward in the court hearing.

NEW CITY ATTORNEY.

[LOCAL CORRESPONDENCE.]

SANTA MONICA, Aug. 2.—Arthur A. Weber, Assemblyman from the Sixty-second District, and a former justice of the peace of Santa Monica township, is the new City Attorney of Santa Monica, appointed today to succeed Victor R. McLucas, who was named judge of the Superior Court yesterday by Gov. Stephens. The new City Attorney will begin his duties as soon as Attorney McLucas takes his seat on the bench.

TWENTY-SEVEN SEEK DIVORCE.

Three Girls Have Merry Time Perusing Complaint.

Wife Tried to Kill Self and Children, Says Printer.

Kicked Out of Bed, is Charge Filed by Woman.

Twenty-seven divorce suits were filed yesterday and a number of people called at the County Clerk's office to take advantage of publicity now permitted in these actions. Three young girls made a lark out of the opportunity. They sat down at the long table, after securing the records in a Burbank case, and laughed and chatted so gaily over the perusal that a clerk prevailed upon them to "be quiet."

SUICIDE PREVENTED.

The grind of yesterday's filings included the following examples of marital troubles:

Melvin Albumius Soleistad, a printer, has six children, the oldest being 12 years of age, but he asks the court for the custody of all and recites many reasons why his wife, Pearl M. Soleistad, should not have them. His complaint states that his wife shut herself in a room with the children, turned on the gas and tried to kill herself and them, and was only prevented from doing so by a relative who smelled the gas, called neighbors and effected a rescue.

During 1918 a number of things happened that are cited as extreme cruelty—that she beat plaintiff with her fists; called him names that are often heard in gold-rush mining camps; ordered her oldest son to get his baseball bat so that she could kill her husband; had him arrested on a charge of failure to provide, the case being dismissed by the court; passed fictitious checks, and accused defendant of being party to the transactions, and then admitted in court that he had nothing to do with them, and that, finally, on Dec. 9, 1920, she packed her trunk and left for parts unknown.

"CHECKS SOLE INTEREST."

James E. Appleby states in a divorce complaint filed against Lucille Appleby, that his wife's only interest in him during six months that he was confined to the California Hospital with a broken leg was to call from time to time to get checks and that she showed no affection or love for him and finally admitted that she loved another man. On last July 19, the complaint states, he found her living at 116 Central avenue, Santa Monica, "where one Claude McFall was living, a man about twelve years younger than the plaintiff and for whom said defendant had confessed her love. Plaintiffs asked defendant to leave the residence, she refused and continues to reside there."

"KICKED FROM BED."

Dorothy C. Goldberg in another divorce action filed yesterday makes objection to having been kicked out of bed by her husband, Benjamin Goldberg, a local musician. According to her complaint, Mr. Goldberg started the month of July this year with such proceedings, the episode taking place at the home of her father and mother. She also complains that he forbade her to speak to her parents and would not permit her to go to church on various Sabbath days. She wants a divorce and $150 per month.

CHARGES DESERTION.

Vera L. Larimore says that her husband, Van B. Larimore, left Los Angeles for Canada July 18 "with one Gladys," taking $1500 in cash out of the bank and deserting her and an unborn babe. An order of the court was issued by Judge Shenk restraining R. B. Powell from disposing of an undivided one-half interest in an auto repair shop situated at 1701 South Main street, which interest is represented to have belonged to the absent husband and to constitute community property of Mr. and Mrs. Larimore. The couple were married Oct. 16, 1913.

SIX MONTHS WED.

Declaring that her husband deserted her day before yesterday, Zoleiska Boyd lost no time in filing a suit for divorce against Lewis A. Boyd. They have only been married six months. Her complaint recites numerous cases of cruelty in which the husband is purported to have used much profane language and to have struck and blackened the eye of his wife.

CHARGES BEATINGS.

Wolf Rabinowitz has a fighting wife, according to his complaint, for divorce filed yesterday. They were married ten years ago; have a 4-year-old baby and he asserts that Rose Rabinowitz deserted him April 16. Several pages of the complaint are devoted to a recital of various beatings which his wife is charged with having given him, including black eyes.

"FIVE ACES."

"811113" is the number of the divorce action filed yesterday by Attorney Robert E. Abbott for Nellie McHugh against Henry McHugh, charging cruelty. The couple have been married thirty-two years. "This will be one time when five aces will make trouble," said the attorney, as he jotted down the file record.

MRS. FARLEY TO SELL PICTURES OF "HEALER."

"BROTHER ISAIAH" DRAWS A LARGER CROWD THAN ON FIRST DAY AT VENICE.

[LOCAL CORRESPONDENCE.]

VENICE, Aug. 2.—The Venice City Trustees have granted a permit to Mrs. Anna Farley to sell pictures of "Brother Isaiah" Cudney, the so-called "Miracle Man," provided she does not sell them on ground dedicated to the city as a park. She is cautioned to keep to the sand at the foot of Westminster avenue, where the stand upon which the "healer" addresses the crowds is located. It is thought by the authorities that this will conform to the terms of the deed by which the area was given to the city as a park.

Since his first notice that he would bring suit to recover the park property, if it is obstructed by the meetings, A. R. Fraser, one of the donors, has taken no further steps in relation to the meeting, so far as the Trustees have been informed.

The crowd about the stand today was somewhat larger than yesterday and predictions are made that it will continue to grow daily, probably reaching a climax Sunday.

Habeas Corpus is Sought in Blue Sky Case.

Through habeas corpus proceedings, G. S. Girard, an officer of the Crystal and Colored Glass Company, attached the constitutionality of the "blue sky" law in Judge Woyt's court yesterday. He asserted that the company is a trust; that the Corporation Security Act should treat all alike, but that it is discriminatory. He sought to be released from jail, having been arrested, charged with violating the act by selling stock without a permit.

Dep. Dist.-Atty. Booker declared that the concern is not a trust, but a thinly disguised corporation or partnership and violated the act by doing business without a permit. The court denied the writ.

Mr. Girard, who is represented by Attorney Biedsoe, will sue out a writ in the Appellate Court.

WEED BURNER FINED.

Failed to Obtain Permit Under New County Ordinance.

Ray Imbler, a painter, was convicted yesterday before Justice Durrell of Azusa of burning weeds around his residence without a permit, and was fined $25. This is the first conviction under the recently enacted county ordinance requiring permits in such cases.

GROWERS FIGHT FOR TARIFF.

Fighting for adequate protection on California products is on in earnest now in Washington and Californians are there in force, according to last night's dispatches from the capital. In addition to Manager Tucker of the Almond Growers' Association, who has been in Washington for several days, G. Harold Powell, general manager of the California Fruit Growers' Exchange; C. C. Teague of Santa Paula, president of the Walnut Growers' Association; C. Thorpe, manager of the California Walnut Growers' Association, and Thomas O'Neil, president of the California Vegetable Association, reached Washington yesterday to wage a fight to have rates on several California products adjusted to meet the needs of the various enterprises.

Conferences were held with Senator Shortridge and other California members of Congress and the whole tariff situation, so far as it affects California, was thoroughly discussed.

When the conferences were over the situation was boiled down to this:

Almond men want a 5-cent tariff on unshelled nuts and 15 cents on the shelled product.

Walnut men will fight hard for a 4-cent tariff on unshelled walnuts but will be reasonably content with 7½ cents on the shelled product. They insist that the 2½-cent rate on the unshelled walnuts will not protect them.

Citric acid will be placed under a 20-cent tariff if possible and the tariff on citrate of lime, another lemon by-product, will go to 12 cents if the lemon and citrus men have their way. Lemon and orange oil now under a 10-cent per pound tariff will be given a boost if it is possible.

A tariff on long staple cotton, sufficient to protect this growing industry, will be urged.

CHILD IS DROWNED IN PAIL OF WATER.

Toppling head foremost into a pail of water on the floor of a ranch house at Portuguese Bend yesterday morning, Kiyoko Yasaki, 14-month-old daughter of Mr. and Mrs. Tokuju Yasaki, was drowned. The infant was playing in the kitchen of the ranch house when she fell into the bucket. She was discovered shortly afterward by her parents, who rushed her to Los Angeles Harbor, but the child could not be revived. The body was taken to the R. S. Goodrich undertaking rooms.

INDIAN TROPHY ON DISPLAY.

[LOCAL CORRESPONDENCE.]

VISALIA, Aug. 2.—Sportsmen and hunters of this city are interested in a handsome tiger skin displayed in a downtown window. The animal was killed at Balhapur, India, by Rev. J. E. Moody, noted missionary who is visiting here. The beast, according to Rev. Moody, weighed 1200 pounds, and two days before being shot it killed two men.

Urge Thorough Study of City Pension Fund.

A thorough actuarial study of the entire pension problem of the city should be made by the City Council, says a recommendation forwarded to the Council yesterday by the Municipal League. The league states that it is not opposed to pensions, but that it is "most emphatically opposed to the city's blindly assuming pension obligations without knowing the extent of those obligations."

The total amount which the league says should have accumulated in the pension reserve by last July 1 is $447,681, and the actual amount in reserve was $43,167, thus showing what would seem an insufficiency of $403,993 in the amount, designated by Alfred G. Hahn, actuary for the Pacific Mutual Insurance Company, as needed in a report made several years ago.

SHIPPING RAISINS DIRECT.

[LOCAL CORRESPONDENCE.]

DINUBA, Aug. 2.—A. J. Kletzke of the Stewart Fruit Company, announces the first straight shipment of Thompson raisins from the Alta district. The car was shipped from the North Dinuba plant and routed direct to the eastern market. All other small shipments of Thompsons have been sent out with peaches and other fruits to make up a car. It is expected that in a few days every packing-house will be in full swing, as the grapes have commenced to come up to the test more readily.

And These Were Once Stylish

Think of the torture we inflicted because somebody said it was stylish. In our comfortable Ground Grippers we can afford to smile at the poor sufferers in the cramped foot-gear somebody *now* decrees stylish. Ground Grippers are fine looking shoes because they *look* comfortable. And while you wear them they are preventing ugly, overlapping toes, torturing corns and bunions and weak, fallen arches.

Ground Grippers correct these things, too. If you have foot trouble, wear Ground Grippers. If you don't want foot trouble wear Ground Grippers. Once you have worn them you will never go back to the old fashioned, vise-like "foot-squeezers."

Spring Surprise on Friends; Long Tour Planned.

Marries Widow of the Late County Hospital Head.

William Edwin Chamberlain, vice-president of A. Hamburger & Sons, Inc., was married yesterday to Mrs. Eleanor Goodwin Whitman, widow of Dr. C. H. Whitman, for many years superintendent of the County Hospital. Following the wedding ceremony in the Westlake Methodist Church, the couple motored to the Los Angeles Country Club, for a reception and supper, attended by about fifty close friends of Mr. and Mrs. Chamberlain.

The couple had told the friends who were invited to the reception that they would be married at the country club in the afternoon just before the supper. But they surprised them by being married earlier in the afternoon in the Westlake church by Rev. E. I. Miller, life-long friend of the late W. R. Goodwin, D.D., the bride's father. Only a few relatives of the couple were in attendance at the ceremony. In securing the marriage license, Mr. Chamberlain gave his age as 54 years, and that of the bride as 45.

GO TO BEACH.

Mr. Chamberlain, who is president of the California Retail Dry Goods Association and a director of the Merchants' and Manufacturers' Association, announced at the club that he and his bride would start for Santa Barbara and the north following the supper. It became known later, however, that they went to the Hotel Virginia in Long Beach, where they will stay for several days before leaving on a long auto trip.

At the wedding the bride wore a Paquin gown of silver gray silk, heavily beaded in crystal, with silver slippers and a hat of white taffeta and ostrich plumes. She carried a shower bouquet of orchids and lilies-of-the-valley. Her only jewels were a diamond and sapphire bracelet and dinner ring, the gifts of the bridegroom.

The going-away gown of the bride was a most becoming and effective costume of blue satin canton crepe in a three-piece cape suit, heavily beaded in steel.

RECEIVE FRIENDS.

After motoring from the church to the club the couple received their friends in a veritable bower of flowers, the reception room having been converted into a symphony of pink and green and the same motif being used for table decorations. On the wedding cake was a huge white heart. Music was furnished by Ewart D. Williams, tenor, with violin and cello obbligato.

Following the honeymoon tour, which will include Santa Barbara, Monterey and San Francisco, the couple will leave for New York and other eastern cities. They expect to be gone three months. Following their return here they will reside at 124 Fedora street.

GUESTS AT SUPPER.

Guests at the wedding reception and supper were: Ex-Senator and Mrs. Frank P. Flint, Mr. and Mrs. R. W. Pridham, Mr. and Mrs. W. R. Dickinson, Mr. and Mrs. D. A. Hamburger, Dr. and Mrs. H. E. Southworth, Mr. and Mrs. J. Baum, Mr. and Mrs. Leo McMahon, Mr. and Mrs. Leroy Livermore, Mr. and Mrs. Thomas Graham, Mr. and Mrs. E. R. Knox, Mr. and Mrs. F. W. Gardner, Mr. and Mrs. E. S. Butterfield, Mr. and Mrs. Ewart Williams, Mr. and Mrs. Henry MacKay, Dr. and Mrs. J. Mark Lacey, Mr. and Mrs. Frank Tarling, Mr. and Mrs. James Whittier, Mrs. Susan Lanham, Mrs. Belle Vawter of Ocean Park; Mrs. W. R. Goodwin, Mrs. W. L. Ray, Mrs. Florence E. Irvine, Mrs. Anna Blake, Mrs. Bruce Hatch of New York; Mrs. L. A. Redman of San Francisco; William Lanham, Donald Ray, M. A. Hamburger, Dr. Andres Peterson and Lieut. Carlton Moore, U.S.N.

MAYOR TO SPEAK.

Mayor Cryer will speak on "The Improvement of the Los Angeles River Banks" at the luncheon meeting of the City Club today.

BOY'S .. COURT .. IS .. NOW .. FUNCTIONING.

Many Cases Involving Law Infractions Heard by Newly Appointed Official.

Juvenile Court Referee (center) and Attaches.

Standing is Bailiff Daley and seated in front of him is Chief Probation Officer Holland. The woman is Miss Mayo, the court stenographer.

THE second day's session of the boys' court, which is to hear all cases involving the laws infractions by male minors, yesterday lifted a great deal of the work from Judge Weyl and the Juvenile Court. The new department is under the direction of R. F. Gragg, who was appointed referee by Judge Weyl.

A number of youths were taken before the referee charged with various crimes, some of them quite serious in nature. The cases that were settled at the time were sent immediately to Judge Weyl for final action and in a few instances the cases were held over for further consideration.

Due to the congested condition of the courts it was found necessary to create a referee's department with Mr. Gragg in charge. The referee was clerk in Judge Weyl's court for some time prior to his appointment. The first two day's work of the boys' court was pronounced a success by those connected with it.

IN NEW TROUBLE.

Rand E. Becker in Court Again on Charge of Forgery.

Rand E. Becker, whose father is a prominent insurance man of San Francisco and who has been instrumental in getting his son out of many difficulties in the past, appeared before Judge Avery yesterday charged with forgery. The specific charge against him is cashing a check at a bank at Los Angeles Harbor for $35 and indorsing it with the name of James Bond.

Some time ago Becker was found guilty of passing checks that came back; was sentenced to two years in prison and was then paroled. Upon violating his parole his father refused to protect him further, telling him that he would have to face the music and let the law take its course. The case probably will be concluded today.

YOUTH IS DROWNED.

Fights With Companions Who Seek to Save Him from Harbor.

Alesandro Sandaval, 18 years old, residing on Canal avenue, Wilmington, drowned yesterday afternoon in the inner harbor near the anchorage of the Los Angeles Motor Boat Club, when he became frightened while in swimming, and fought with companions who attempted to rescue him. The police dragged for the body late into the night without success.

RITES FOR SPELLACY.

Remains of Oil Man and Prominent Democrat Will Arrive Tomorrow.

Word was received here yesterday that the body of Timothy Spellacy, oil man and one-time Democratic candidate for Lieutenant-Governor, who died in Lima, O., July 28, will arrive here at 8 p.m. tomorrow over the Southern Pacific, accompanied by the widow. The funeral services will be conducted at 9 a.m. Saturday in St. Brenden's Church, with Father Ford officiating, the Knights of Columbus in charge.

ICE MEN ARE FINED.

Sold Forty-three Pounds and Charged for Fifty, Court Learns.

Convicted of having sold Mrs. E. Barton of 934-B West Thirty-sixth street forty-three pounds of ice and having charged her for fifty pounds, G. W. Amy was fined $20 and his helper, S. Hawks, was fined $10 by Police Judge Richardson yesterday. Both were arrested by C. J. Buck of the weights and measures department of the county.

MAYOR TO ATTEND "RIGOLETTO" PICTURE.

Mayor Cryer yesterday accepted an invitation to be one of the patrons at the preview of a motion picture to be shown on the 10th inst. by the Assistance League in the interests of the Children's Hospital and the Red Cross, at the Ambassador Theater. "Rigoletto," an Italian screen picturization of the famous opera, has been turned over to the league, all profits to be devoted to charitable causes. Following the picture presentation, a tea dansant will be held in the cocoanut grove. The celebrities' table will be presided over by Pauline Frederick. Among those actively engaged in aiding the affair are Mrs. Hancock Banning, Mrs. Charles Jeffras, Mrs. Homer Laughlin and Mrs. Q. Boardman.

EXTORTION IS CHARGED.

Accused of extortion, W. A. Cornwall and William W. Warn, former police officers, appeared for trial yesterday before Judge Conley of Madera county, sitting in Judge Willis's court. The defendants are charged with having threatened Joe and Rose Mustachio with arrest for having eleven barrels of wine in their possession, unless they paid the officers $800. Paul Schenck and Richard Kittrelle are defense attorneys, and Dep. Dist.-Atty. Keyes represents the prosecution.

EXCESS PROFITS TAX SUBSTITUTE FAVORED.

BUSINESS BACKS FEDERAL TURNOVER LEVY, SAYS WORD TO CHAMBER.

Business and commercial interests throughout the entire country favor the general Federal turnover tax to replace the excess profits tax, according to a message received yesterday at the Chamber of Commerce from the United States Chamber of Commerce.

The Los Angeles chamber adopted this view in the last meeting taking up the question submitted by the national chamber and advised that organization of the following sentiments expressed in resolutions:

Favored the repeal of war excise taxes levied in relation to particular businesses, except transportation and communication.

Favored repeal of war excise taxes upon transportation and communication in addition to repeal of excess profits tax.

Favored use of sales tax in addition to increased income tax on corporations.

Favored use of sale tax to bring in whole amount eliminated by repeal of war excise taxes on transportation and communication, also to make up amount levied in relation to particular business.

Favored use of sales tax on all turnovers to bring in whole amount.

GANG SUSPECTS WILL BE ARRAIGNED TODAY.

HOLD SEVEN REPUTED TO BE ASSOCIATES OF HOWARD STREET TERRORISTS.

Seven men now held in the City Jail, said by the police to have been associated with the Howard-street gang in San Francisco, were accused of robbery and receiving stolen property, in two complaints issued yesterday by Dep. Dist.-Atty. McClelland. Charles Kelly, Charles Quinn, David O'Connell, Eddie Smith and "Frenchy" Smith were accused of robbing J. W. McClure of 1234 Ingraham street of a draft for $40 on July 22.

Jack O'Keefe, Charles Kelly and a man giving the name of S. Heuer are accused of receiving silverware, valued at $150, which was stolen from the residence of D. C. McGarvin, 1547 Gramercy Place, on July 23. The seven will be arraigned in Justice Court today.

ATTACKED, SHE SAYS.

Landlord, Sued For Damages, Charged With Invading Bedroom.

Mrs. Mary E. Turner rented a small house in Lankershim from A. D. McNeely. As his tenant she felt no fear when he said she could enter his "cannery" April 9 last, to obtain a dish pan. According to her story told in a complaint filed against Mr. McNeely yesterday for $20,000 damages, she was roughly handled.

She says he grabbed her and held her close, while she fought to release herself. She says she escaped.

Again early in the morning of April 12, Mrs. Turner declares that Mr. McNeely entered her home and bedroom and attempted to make violet love to her. She says she again succeeded in escaping. The complaint, prepared by Attorneys Wetherhorn, Hoyt and Jones, asks $10,000 actual and $10,000 punitive damages.

A Real Brain-Food

There is no special food for building the brain—but food deficient in phosphates and other mineral salts will never nourish the brain. The ideal brain food is a well-balanced food containing every element the human body needs.

Shredded Wheat

has in it every element needed for building and nourishing the perfect human body. A strong, sturdy, robust body without excess fat means a good brain. Shredded Wheat is a real pep-food. It gives you the "punch" for the day's work.

Two Biscuits with milk make a nourishing, satisfying meal and cost but a few cents. Delicious with raisins, prunes, sliced bananas, peaches or other fruits.

Pacific Coast Shredded Wheat Co., Oakland, Cal.
